# *Launch City-Wide Poll on Syphilis Tests*

## HELP OF EVERY HOME URGED IN WAR ON SCOURGE

### Million Ballots Ask Public's Views.

BY ARTHUR EVANS.

*(Pictures on back page.)*

Chicago embarks today on a poll to ascertain how many citizens are willing to have blood tests, free and secret, made of themselves and families as a support in the campaign to bring the syphilis scourge under control.

A referendum embracing Chicago's 3½ million population on this proposal of voluntary and confidential syphilis tests is to be taken under auspices of the United States public health service in conjunction with the Chicago and state health authorities. It is to be secret—no names or addresses.

The aim is first to register public response to the nation-wide crusade against venereal disease, next to get an actual census—the first real one—of syphilis prevalence in Chicago, and then to proceed to a mass attack to abate the red plague just as tuberculosis, the white death, was reduced by health campaigns years ago.

**A Ballot to Every Home.**

The first 250,000 questionnaires are to be put in the mail tonight by the health authorities for delivery Monday. After that they are to go out at the rate of 50,000 a day. The federal government has furnished 2 million franked envelopes to the public health service. A million ballots are to be sent out, each with a franked return envelope inclosed. A corps of fifty clerks has been installed on the eleventh floor of the city hall and the aim is to send a ballot to every home in Chicago. Some 250,000 extra ballots will be available at the Chicago board of health for those not reached by mail.

The form of the ballot, in what the authorities regard as one of the most extensive health laboratory projects ever undertaken, follows:

**HELP TO PLACE SYPHILIS UNDER CONTROL!**

1. In strict confidence, and at no expense to you, would you like to be given, by your own physician, a blood test for syphilis? Yes..... No..... [Please check one.]

2. Including yourself, indicate on one of the two lines below the age of each member of your family who would like to have a blood test. [a] The age of each male who would like to have a blood test:

..... ..... ..... ..... ..... ..... ..... .....

[b] The age of each female who would like to have the blood test:

..... ..... ..... ..... ..... ..... ..... .....

**PLEASE DO NOT SIGN YOUR NAME.**

With this goes a letter of explanation over the name of Dr. Herman N. Bundesen, president of the Chicago board of health and special consultant of the federal health service.

**Text of the Letter.**

This letter reads:

"A nation-wide campaign is being conducted to wipe out syphilis. Federal, state, and local health agencies are coöperating in the Chicago program.

"More than one-half million men, women, and children in the United States become infected with syphilis every year, many of them innocently. Thousands of additional persons have the disease but do not know it.

"To keep some one near and dear to you from possibly getting this disease innocently, its source must be known. The support of every citizen in Chicago is necessary, if syphilis is to be eradicated.

"The attached questionnaire is designed to register your protest against this disease. Will you please fill out the questionnaire, inclose it in the self-addressed, postage-free envelope, and mail it today?"

**How Project Was Started.**

The proposal to enlist citizens by voluntary, secret referendum in the drive on syphilis, which physicians say causes one out of every ten deaths in the United States from degenerative diseases and costs the taxpayers more than any other infectious malady was formulated after several conferences between national state, and city health officials.

It embraces the views of Dr. Louis E. Schmidt, head of the Illinois Social Hygiene league and chairman of Mayor Kelly's committee for the control of syphilis and gonorrhea; Dr.

## NAZIS CONVICT PRIEST, HERO IN WAR, AS TRAITOR

### Crowds Storm Court to Hear Trial.

BY SIGRID SCHULTZ.

[Chicago Tribune Press Service.]

MUNICH, Germany, July 23.—Father Rupert Mayr of St. Michael's church in Munich, one of the most famous Jesuit preachers in Bavaria and a German war hero, was given a suspended sentence of six months' imprisonment today. He was tried before a special court in Munich on a charge of uttering from the pulpit treasonable criticism of Nazi institutions. He had spent six weeks in jail.

The case aroused intense excitement in Bavaria. Father Mayr holds the highest of military decorations, including the iron cross for bravery. He was an army chaplain with the Bavarian troops in the world war. While gravely wounded, which later necessitated the amputation of his right leg, he went out under fire to administer the sacrament to dying soldiers.

**Crowds Besiege Courthouse.**

Father Mayr's arrest by the Nazi political police on June 5 evoked a storm of indignation in German Catholic circles. When it became known that he was to be tried thousands besieged the courthouse. When the trial opened yesterday morning and it was learned that the general public would not be admitted several attempts were made by Father Mayr's sympathizers to rush the courtroom.

Before the sentence was pronounced this morning a strong police cordon was formed to prevent crowds from entering the courtroom. Extra police were stationed in the streets to prevent a demonstration.

Only members of the Nazi organization and a few persons supplied with special passes were admitted to the pubic gallery. American newspaper men were allowed to watch the proceedings during the first part of the trial and then were expelled at the instigation of the political police.

**Bare 3 Years of Espionage**

Father Mayr was charged with publicly criticizing statements published in the Nazi press—Voelkischer Beobachter, Adolf Hitler's newspaper; the Schwarze Korps, organ of the Schutz Staffel [picked guards], and Der Stuermer, anti-Jewish paper published by Julius Streicher. It was disclosed that for three years agents of the political police attended Father Mayr's church services, taking shorthand notes of his sermons.

Father Mayr admitted the charge. He said he felt it was his duty to warn his flock against newspapers which were distorting accounts of immorality cases involving Catholics and deliberately besmudging the priesthood to undermine the Catholic church in Germany.

"I would soone. be placed against a wall and shot than have the honor of my calling and the honor of my priesthood taken away from me!" he cried.

**Father Brackel Seized.**

Father Otto Brackel of Oesede cloister, Osnabrueck, was arrested today on a charge of uttering statements inimical to the state.

Father Fahsel, a well known Catholic lecturer and writer on modern sex problems, who has toured America, was sentenced to eighteen months in prison by a Nuremberg court. He was charged with immoral conduct with respect to young persons because he employed a 14 year old girl and allegedly "behaved in a shameless way to her."

Father Schmidt, who was tried with Father Fahsel, was sentenced to three years' imprisonment.

The editor of a Munich weekly was fined $240 and sentenced to sixty days' imprisonment for libeling a Wuerzburg priest, whom he accused of advising bridal couples not to have children, as they could not train them properly in the Nazi state.

## *Slip Madigan's College Sold by Auctioneer*

Oakland, Cal., July 23.—(AP)—St. Mary's college, the little school made famous by Edward Patrick [Slip] Madigan and his football teams, was sold at auction today because it had not paid the interest on its $1,370,500 bond indebtedness since 1934.

Edward [Slip] Madigan.

Attorneys Gerald Levin and Leland Groezinger made the only bid, $411,150. Chairman F. F. Janney of the bondholders' committee said the lawyers acted for the security holders.

It appeared the net result would be to transfer ownership of the school property from the Catholic Order of Christian Brothers to the bondholders who, receiving only 30 cents on the dollar for their investment, would lease the college to the present management.

**Madigan to Stay.**

It was indicated that Madigan would be retained as football coach at a reputed $7,000 annual salary plus 10 per cent of the gridiron receipts, which last year amounted to $174,671.

St. Mary's financial downfall came despite the brilliant success of Madigan's "Galloping Gaels."

In 1920 it was just an unpretentious little school in the hills 20 miles east of Oakland. Then it acquired Madigan, who developed into a topnotch coach and master showman.

**From 71 to 700.**

Madigan, who studied law and became a center at Notre Dame, came to St. Mary's in 1921 and found a student body of 71. Its football team had been defeated 127 to 0 the previous year by California.

Then the Gaels began winning. The student body grew to a peak of more than 700 in 1931.

In 1930 St. Mary's and Fordham inaugurated their annual games at New York's Polo grounds. Their meetings became gridiron spectacles,

## DETECTIVE, SLAYER OF RAPIST, WOUNDS ROBBER IN BATTLE

Detective William Ward of the Deering street station shot and probably fatally wounded one of two men who attempted to rob him near his home early today. Ward is the policeman who on March 23 killed Louis Ebert, ex-convict, who murdered one woman and raped another on the southwest side. For this act Ward won THE TRIBUNE monthly hero award.

Off duty at midnight, Ward was on his way to his home at 952 West 58th street this morning when two men leaped out of an alley near 917 West 58th street. They attempted to seize him. Ward announced he was a policeman, but one of the men tried to get his arm in a strangle hold around his neck.

Ward drew his gun and fired one shot, the bullet striking his assailant in the throat. The second robber fled. The wounded man was taken to the Englewood hospital, where he identified himself as Leo Smith, 22 years old, of 928 West 51st place. Police said he admitted having a police record.

## *16 ARE INJURED, 2 SERIOUSLY, IN TRIPLE COLLISION*

Sixteen street car passengers were injured, two seriously, in a spectacular triple crash last evening involving a North avenue surface lines car, a heavy trailer-truck, and a passenger automobile, in front of 1046 North avenue. About fifty other passengers were jarred.

The injured were taken to the North Avenue hospital, where fourteen were given first aid and allowed to go home. Those kept for further treatment were Miss Hermina Juczyzk, 19 years old, 1564 North Hoyne avenue, a clerk, who suffered a skull fracture, and Miss Florence Stanek, also 19, of 1431 North Rockwell street, a sewing machine operator, who suffered possible internal injuries.

Police said the accident occurred when the truck driver, Frank Dubose, 28 years old, 2154 Lincoln avenue, swerved to avoid hitting the passenger automobile, and crashed head-on with the street car. James Doherty, 30, of 1112 North Dearborn street, driver of the auto, cut into the lane in front of the truck, which was eastbound, police said.

## *Club Women Spurn Favors; Want Equality*

Atlantic City, N. J., July 23.—(AP)—With a demonstration that lasted many minutes the National Federation of Business and Professional Women resolved today to renounce any special favors accorded women by masculine-controlled government and fight for strict equality of the sexes under law.

Earlene White.

By acclamation they voted to campaign for an amendment to the federal constitution which would bind congress and all other governing bodies of the country to pass no laws or ordinances applying solely to women.

**Cheers Drowr Dissent.**

Several speakers argued special legislation was necessary to protect women from exploitation, but when Miss Gertrude Mallory of Los Angeles, Cal., moved for support of the constitutional amendment, any dissenting vote was drowned in the cheers.

The women rejected the "woman's charter," which called for equality between sexes, but at the same time provided for special legislation such as hour-and-wage laws for women workers.

**New President Chosen.**

Special laws might benefit some women for a time, Miss Mallory argued, but their very nature implies inequality between sexes.

As business sessions of the convention came to a close, the women elected Miss Earlene White of Washington, D. C., as president. Miss White is postmistress to the United States senate.

### *Porch Robberies Solved; Find Police Dog Culprit*

Rockford, Ill., July 23. — [Special.]—A series of front porch robberies was solved here today when police took Pal, a husky police dog, into custody. The dog was caught stealing a pillow from a porch.

## *Delia C. Field, 84, Merchant's Widow, Dead*

Beverly, Mass., July 23.—[Special.]—Mrs. Delia Caton Field, widow of the multi-millionaire Chicago merchant, Marshall Field, died tonight at her summer home at Pride's Crossing.

Mrs. Field, who formerly was a leader in Washington and Chicago society, was 84 years old. She had been in poor health for several months and recently developed pneumonia.

Some years after the death of Mr. Field in 1906, five months after they were married, Mrs. Field moved from Chicago to Washington.

**WIDELY FAMED AS HOSTESS.**

Both before and after the turn of the century Mrs. Marshall Field's talent as a hostess brought her fame from far and wide. The beautiful and dashing matron was long noted for the lavishness and frequency of her entertainments.

During the greater part of her life she was prominent in social circles, not only in her home city of Chicago but in the east and abroad as well. Former King Edward VIII., attended her London functions when he was prince of Wales, as did numerous other members of the British royal family.

Many of the best known persons of the day were her guests. Fritz Kreisler and Ignace Paderewski were frequent visitors at her home. There was ever a verve and dash to her parties that seemed to radiate from her own sparkling appearance, heightened by coal black hair, high color and regal bearing.

**Leader of Gay 90's Era.**

During the "gay '90s" she was the stately leader of Chicago society. Then the wife of Arthur Caton, to whom she was first married, the brilliant woman was a familiar figure at all society events, including horse shows where her entries took numerous blue ribbons.

Mrs. Field was born at Tonawanda, N. Y., one of three daughters. Her father was Franklin F. Spencer, one of the founders of Hibbard, Spencer, Bartlett & Co. Her mother was Rachel Gifford McCumber of Massachusetts.

One of Mrs. Field's sisters, Mary Spencer, died about the time of the Chicago fire. The other, Mrs. Augustus Eddy, died about a quarter of a century ago.

**First Husband a Lawyer.**

Mr. Caton, Mrs. Field's first husband, was the son of Judge John D. Caton. Their marriage culminated a romantic affair that began with a meeting on the Caton homestead at Ottawa. For almost two decades, before his death in 1903, Mr. Caton practiced law in Chicago.

For many years Mrs. Caton had been a friend and neighbor of Marshall Field, the Caton home on Calumet avenue being almost directly back of the Field home at 1905 Prairie avenue.

In September, 1905, formal announcement was made in London of the engagement of Mr. Field, then

## VICE PRESIDENT SETS AUG. 7 AS HE TAKES HELM

### Controversial Items to Be Put Aside.

BY CHESLY MANLY.

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—[Special.]—Having engineered the administration's surrender on President Roosevelt's court packing bill, letting the senate opposition dictate the terms, Vice President Garner took complete charge in congress today by launching a drive for adjournment on Aug. 7. His plan is to pass as many of the less controversial bills on the administration's "must" program as can be acted on in that time, and let the remainder go "out the window."

The hard driving, bushy browed Texan also undertook the difficult task of trying to restore harmony in the divergent ranks of the Democratic party, which was torn asunder not only by the court packing bill but by the administration's support of the C. I. O. and the President's domination of the senate majority leadership election.

Ignoring the new leader, Senator Alben W. Barkley of Kentucky, the Vice President today arranged a series of White House conferences with Democrats who led the fight against the court packing bill, beginning with Senator Edward R. Burke of Nebraska.

**New AAA Bill Shelved.**

The senate committee on agriculture pushed along the Vice President's drive for adjournment by shelving for this session the administration's new AAA and "ever normal granary" farm bill, just as President Roosevelt was being represented to newspaper men as wanting it passed.

The committee authorized Senator James P. Pope [D., Idaho], co-sponsor of the farm bill, to prepare a senate resolution which would direct the committee or subcommittees to hold regional hearings on a comprehensive agricultural program during the summer, and report back at the next session.

Senator Ellison D. Smith [D., S. C.], chairman of the committee, said the bill, drafted ostensibly by farm organizations but actually by Secretary Henry A. Wallace's department of agriculture, was "too important for serious consideration in the short time between now and adjournment."

**Housing Bill Reported Out.**

Meanwhile, the senate education and labor committee reported out the Wagner housing bill, which is slated for passage at this session. It sets up a federal housing authority with power to issue $700,000,000 in bonds over a three year period from which to make loans for the construction of "low cost" housing. Receipts from the bond issue also would be used to make annual subsidies to assist repayment of the loans and to keep rents at a low figure.

In addition to the bonding authority, the bill authorizes direct capital grants of not more than $10,000,000 a year for three years and the authority could construct "demonstration" projects with a total cost of not more than $25,000,000 a year. These would be sold to local housing authorities.

In addition to the housing bill the program agreed upon today includes the minimum wage, maximum hour, and child labor bill, to be taken up next week in the senate; legislation to plug up so-called loopholes in existing tax laws, and the "judicial reform" bill relating to the lower courts, which the senate judiciary committee is now writing.

**Reorganization Bill Out.**

This program contemplates ditching President Roosevelt's revolutionary governmental reorganization bill, which is intended to further aggrandize the chief executive and is almost as violently opposed as the ill fated court packing scheme. Out the window too would go the Norris bill to remake America into seven electrified Utopias modeled after the Tennessee Valley authority.

Although the administration's wage and hour bill was so drastically modified by the senate labor committee that it will receive little opposition in the senate next week, there is some doubt whether final action will be reached in the house, where the bill is still tied up in committee.

President Roosevelt is not at all pleased with the movement in congress to "let everything go" and adjourn, according to representations at the White House. He feels, it was

said, that the crash of 1929 might have been averted had not the attitude of "everything's lovely; don't rock the boat" prevailed during the Coolidge administration.

**Anxious for Farm Action.**

The President was represented as being particularly desirous of obtaining action on the farm program at this session. There will be a 14½ million bale cotton crop this year, which is more than can be used or exported, and the surplus will depress prices, the President believes.

Senator Hugo L. Black [D., Ala.] reflected this view in a senate exchange with Chairman Smith of the agriculture committee, bitterly protesting the shelving of the farm bill. Black said he would offer an amendment to the Pope resolution authorizing hearings to provide for action before adjournment.

But Vice President Garner plainly has no sympathy with such objectives and he apparently is going to have his way about adjournment.

The conference arranged by the Vice President between Mr. Roosevelt and Senator Burke, one of the most implacable foes of the court packing scheme, was not intended to bring about a reconciliation on that issue, which Mr. Garner hopes is dead. The President made no mention of his humiliating defeat, but Senator Burke told him the judiciary committee would seek to carry out as many of his objectives for the expedition of justice in the lower courts as may be possible under "the limitations of our agreement."

**Other Parleys Planned.**

Mr. Garner is expected next to arrange a White House conference for Senator Tom Connally [D., Tex.], then for Senator Burton K. Wheeler [D., Mont.], and some of the other court packing foes. The opposition senators say there can never be any reconciliation on the court packing issue and that they welcome any "reprisals" the administration may attempt by carrying the question to the people in the 1938 and 1940 elections.

## HUNTS FOR SALVAGE

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—[Special.]—From the wreckage of his program to pack the United States Supreme court, President Roosevelt today was represented as finding some comfort over the fact that all his objectives were not lost.

Although that senate action was his greatest defeat, the President feels its bitterness is offset because he believes the Supreme court has undergone a liberalization in attitude which promises to continue.

Another offset, in presidential eyes, lies in the senate judiciary committee's attacking a revised court bill which will contain procedural changes in lower courts.

**Looks Toward Future.**

There was more resignation than the sounding of a militant battle call for the future in the President's attitude at his press conference this morning. Under the constitution, he argued, the President proposes and congress disposes.

The President was represented as finding, next to the new liberalism of the Supreme court, great comfort from the belief that the people are more court conscious and constitutionally minded.

The presidential belief on the new liberalism of the Supreme court arises from his own survey of court decisions before and after he submitted his plan to congress last Feb. 5. Prior to Feb. 5 the court outlawed the AAA and after that date it upheld the constitutionality of the social security act, which constitutes, in White House eyes, a reversal of the AAA decision.

A second instance of reversal, again in White House eyes, was outlawing of the Guffey coal act before Feb. 5 and the upholding of the Wagner labor relations act after Feb. 5.

**Cites Third Decision.**

A third instance was given as the decision against the New York minimum wage law last year and the decision for the Washington minimum wage law since Feb. 5.

The net result of the three decisions cited, all since Feb. 5, was that the administration was enabled to achieve certain well defined objectives, Mr. Roosevelt feels.

Mr. Roosevelt was said to feel that the court fight goes back to the time of his namesake, Theodore Roosevelt, who through the progressive movement agitated for the recall of judges and the overriding judicial decisions by popular vote. Again in 1924, when the elder Robert M. La Follette ran for the presidency with Senator Burton K. Wheeler, chief of the court packing bill foes, on the ticket as Vice President, there was agitation for court reform, according to the White House.

On Capitol hill there were rumors that two or more justices were planning to resign, now that the court packing plan had been defeated. In various circles it was buzzed about that Justices McReynolds, Brandeis, and Sutherland were ready to end their service on the highest bench.

### *Expect House Will Get Measure Soon.*

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—[Special.] A bill to permit the sale of helium in commercial quantities to foreign countries has received the approval of the house military affairs committee and will be reported to the house next week.

Agitation to permit the sale of helium abroad was started in congress soon after the crash of the German zeppelin Hinderburg at Lakehurst, N. J. last May 6. Thirty six persons were killed. A department of commerce report last Wednesday found that a spark of static electricity ignited a mixture of free hydrogen and air in the airship, enveloping the ship in flames.

**Helium Noninflammable.**

Helium, a gas of which the United States has a virtual monopoly, is noninflammable. It has previously been prohibited from sale abroad, except for medical purposes, because it was felt that such sale might promote the use of the zeppelin as a war weapon. The legislation introduced will be hedged with amendments intended to restrict the use of helium to aircraft which may not be used in warfare.

So confident is Germany that helium will be sold to it in the future that work is in progress at Friedrichshafen, Lake Constance, on a successor to the Hindenburg, a new zeppelin, at present known as the LZ 130, which will employ helium instead of the dangerous hydrogen.

**Costs More than Hydrogen.**

In addition to the weaker lifting power of helium, another German objection to its use has been its huge cost in comparison with hydrogen. Hydrogen for a zeppelin of the size of the Hindenburg costs about $15,000. The same amount of helium will cost approximately $500,000. But the safety factor of helium has caused Germany to decide upon its use in order to prevent the recurrence of the Hindenburg disaster.

## *EDEN HAS NEW PLAN TO KEEP OUT OF SPANISH WAR*

[Chicago Tribune Press Service.]

LONDON, July 23.—Another plan by Capt. Anthony Eden, British foreign secretary, to unravel the international tangle centering about attempted nonintervention in the Spanish civil war is under consideration by the British and French governments. That was learned tonight, but details of the new Eden plan were kept secret.

The foreign secretary's proposals to establish observers in Spanish ports, restore land frontier control, withdraw volunteers, and give Gen. Francisco Franco, rebel chief, belligerent rights seem to be pretty well up a blind alley.

Consultation held since the subcommittee adjourned its session indefinitly on Tuesday have been fruitless. The Italians and Germans want belligerent rights granted to the rebels before other steps are taken. The French are adamant on having volunteers withdrawn first. The British support the French.

### *5,000 N. Y. Kosher Markets to Shut; Prices Too High*

New York, July 23.—(AP)—Samuel Jacobi, secretary of the Federation of Kosher Butchers, said tonight owners of 5,000 kosher meat and poultry stores in New York had voted to close indefinitly as a protest against the high prices they must pay wholesalers for meat.

# REPORT BIG REBEL SETBACK; FRENCH BORDER IS CLOSED

## Hear Catalan Loyalists Take City of Huesca.

HENDAYE, French-Spanish Border, July 23.—(AP)—Reports of a serious Spanish rebel setback were received here tonight from the Aragon front in northeastern Spain.

The reports said Spanish government forces had captured Huesca. There was no confirmation, and soon after the reports began to circulate the rebel authorities closed the French-Spanish frontier. This step has been taken before when important developments were impending.

Huesca, 150 miles west of Barcelona, has long been the objective of Catalan forces allied with the Madrid-Valencia régime.

**Claim Madrid Front Advance.**

Reports from rebel sources, meantime, said their forces, seizing the offensive in the great battle for Madrid, were reducing the government's new salient on that front and had penetrated into the important town of Brunete.

Brunete, 15 miles west of Madrid, lies at the southern tip of a thumb-shaped bulge which the government offensive begun two weeks ago made in the rebel lines, which before that ran generally westward from the northwest corner of Madrid.

This 100 square mile salient is a menace to the rebel siege lines along Madrid's western fringe, and since Sunday the men of Gen. Francisco Franco have been fighting desperately to wipe it out.

**Battle in Cemetery.**

The government defenders of Brunete, rebel dispatches said, still were holding part of the town and making a stubborn stand behind fortifications in the cemetery.

*[Madrid reports said rebel attacks at Brunete and elsewhere around the salient had been repulsed.]*

Rebel versions of the battle said detachments which already had passed to one side of Brunete last night entered the town and after half an hour of house-to-house fighting forced the government troops to fall back to the cemetery. There machine gun nests stalled the rebel drive.

**4 Die, 30 Hurt in Rebel Air Raid.**

BARCELONA, Spain, July 23.—(AP)—Three tri-motored rebel planes bombed the nearby town of Tortosa tonight, killing four and injuring 30 persons.

**Bomb Rebel Air Bases.**

VALENCIA, Spain, July 23.—(AP)—The defense ministry said today six rebel planes had been destroyed in a bombardment of the airfield adjacent to the Alberche river. The announcement said rebel air bases at Avila, Escolona and Almorox were bombed, several planes at the latter field being set afire.

## *NAZIS TO TAX MEN WHO AVOID FULL TRAINING IN army*

[Chicago Tribune Press Service.]

BERLIN, July 23.—German youths who now are 21 years old must pay a special tax until they are 45 if they fail to fulfill the full conscription service, which lasts two years. The new "military tax" for two years equals 50 per cent of the income tax, and thereafter is 6 per cent annually. While the tax is expected to produce only a small yield, it will make the conscripts happy to think that those staying at home are not gaining unfair advantage over them. The annual classes of 1914, 1915 and 1916 are the first liable to pay the tax.

## *SEAPLANE RAMS HARBOR FERRY; SIX ARE INJURED*

Edgartown, Mass., July 23.—(AP)—A seaplane crashed broadside into a small ferry tonight as it taxied after landing in Edgartown harbor, injuring six persons, one seriously.

The wrecked plane sank with its occupants in 12 feet of water. Coast guardsmen plunged into the water and freed the trapped pilot and four passengers. A passenger on the ferry suffered a possible skull fracture when he was knocked down by the impact. About 200 craft were in the harbor for a regatta.

### *U. S. and Mexico Treaty on Stolen Vehicles in Effect*

MEXICO CITY, Mexico, July 23.—(AP)—A treaty between the United States and Mexico for the return of stolen vehicles became effective today.

## *REBEL SETBACK*

*(Story in adjoining column.)*

Dispatches reaching France from the Aragon front in northeastern Spain last night said the loyalists had captured Huesca, rebel stronghold (indicated by arrow). On the Madrid front the rebels claimed they had reoccupied part of Brunete, west of the capital. Loyalist territory is the dotted area.

## *BRITAIN TO PUT GUNS ON ALL ITS MERCHANT SHIPS*

### *Plans Training for Officers and Men.*

BY SAM BREWER.
[Chicago Tribune Press Service.]

LONDON, July 23.—Plans to provide guns for all British merchant ships in case of war and teach every British skipper to defend his ship against submarines or other raiders were revealed today.

The British have been worried in the last year or two because of constant danger that war will come and catch the nation unprepared.

Recent high pressure work to build up the navy, army, and air force has relieved their minds somewhat. But until today there had been apprehension about the ability of merchant ships to defend themselves against raiders when they were not convoyed.

**Discussed in Commons.**

Alfred Duff Cooper, first lord of admiralty, revealed in the house of commons on July 14 that the British were collecting guns to arm merchantmen.

Today the British were told of plans for the seven training centers where merchant marine officers will be given a whirlwind course in naval matters to prepare them to use those guns.

Capt. Evan Wallace of the department of overseas trade revealed the plans when he spoke at a merchant navy week luncheon aboard the liner Warwick Castle at Southampton. He was acting for Sir Thomas Inskip, minister of defense.

**Location of Training Centers.**

The training centers will be in London, Liverpool, Glasgow, Tyneside, Southampton, Cardiff, and Hull.

Vice Admiral Studholme Bronrigg, commanding the reserves, will direct the new scheme.

## *2 LEWIS UNIONS HIT ROOSEVELT ON STEEL STRIKE*

Washington, D. C., July 23.—[Special.]—Two unions of the John L. Lewis group turned on the Roosevelt administration in surprise statements today, accusing it of indifference to "flagrant and wanton violations" of the rights of the steel strikers and of failure to act against law violations by the big steel companies.

The charges were made by the United Mine Workers, which backed President Roosevelt for reëlection with large contributions and by the Steel Workers' Organization committee. Lewis is president of the mine union.

The executive bard of the United Mine Workers adopted unanimously a report on the steel strike submitted by the Steel Workers Organizing committee and supplemented the criticism of the administration which it contained with resolutions of its own amplifying this criticism.

One of the criticisms by the S. W. O. C. was against indifference of the administration toward the refusal by four steel companies to sign a contract with the union. The companies, it was declared, had violated the national labor relations act by this attitude.

The resolutions by the mine union board demanded that national and state authorities hold to account those responsible for the slaying of the seventeen steel workers and protest against "the complete lackadaisical and unconcerned attitude on the part of the national and state authorities with flagrant and wanton violations of the civil rights of the steel workers by the state and local authorities and officials of the steel corporations."

# JAPS DIG IN; CHINA SEES TWO MORE PROVINCES LOST

## Charges Tokio Now Aims to Separate New Area.

BY JOHN POWELL.
[Chicago Tribune Press Service.]

SHANGHAI, July 23.—The dangerous situation in North China, which threatened for a time to result in war between China and Japan, appeared tonight to have been settled definitly—for the time being.

Foreign observers, however, were skeptical of the lasting qualities of the "settlement." Belief was freely expressed that new "incidents" would be forthcoming which would again shatter the peace.

**"Hostile" Troops Withdrawn.**

The recent crisis, which began on July 7 with a clash between Chinese and Japanese troops near Peiping, was liquidated when local Chinese authorities accepted Japanese demands for the withdrawal of Chinese troops branded as "hostile." These troops have been replaced with Chinese soldiers friendly to the Japanese.

Chinese leaders, however, declared this was merely a "local" settlement which had not been accepted by the central authorities at Nanking. The fundamental Chinese-Japanese differences, which have disturbed relations between the two countries for many years, still remained.

Japan, it also is pointed out, now has thousands of troops in North China which have been sent over since the July 7 incident and which the Japanese have as yet shown no inclination to send back to the homeland. Chinese officials charged that the Japanese, now that the troublesome "hostile" Chinese troops have withdrawn, will proceed with their intention to separate the Hopei-Chahar territory from China, as they did Manchuria and Jehol.

**Says Japs Rule Tientsin.**

The Peiping correspondent of the North China Daily News telegraphed today:

"It is all over. With more than 20,000 Japanese troops on Chinese soil, it is childish for China to claim it did not sign any documents and only agreed verbally to the Japanese demands. The Japanese have seized Tientsin and are behaving there as they did in Mukden [Manchuria] in September, 1931, even putting censors in the postoffice.

"The presence of a large Japanese force in the heart of Chinese territory is the main factor in the situation. The Japanese do not intend to relinquish Hopei province. Already they have announced that not a single Japanese soldier will be withdrawn, and therefore the Lukowkiao incident is likely to be the turning point in North China, as the Mukden incident in 1931 was the prelude to the separation of Manchuria.

"Already there are charges that Gen. Sung Cheh-yuan [chairman of the Hopei-Chahar political council] 'sold out.' But Sung had no alternative to acceding to the Japanese demands. Hence Nanking is really to blame for leaving Peiping in the lurch and causing the residents 'to make the best of the situation, as the Manchurians were compelled to do.'"

**Sees New Chinese Splitup.**

Dr. Shuhsi Hsu said today that Japanese activities in North China in the past fortnight "constitute a further detachment of the region from the rest of China."

Dr. Hsu is a graduate of Columbia university. He recently was professor of political science at the American missionary Yenching university, and now is director of the Nanking council of international affairs.

"This is the most serious attempt since the Japanese first launched their project four years ago," Dr. Hsu said.

### *3 Shot, Another Beaten in Akron Truck Strike Clash*

Akron, O., July 23.—(AP)—Three men were shot and a fourth was beaten as violence flared near Akron late tonight in a clash between striking truck drivers and owner-operators of freight trucks. The clash occurred when the operators, deadlocked with union drivers over signed agreements, posted pickets along the highways to picket union pickets.

## NOMINATE BAILEY FOR SENATE SEAT VACATED BY ROBINSON'S DEATH

Little Rock, Ark., July 23.—(AP)—Overriding demands from some factions that a special primary be called, the Democratic state committee today nominated Gov. Carl E. Bailey to be Joseph T. Robinson's successor in the United States senate. Gov. Bailey is 42 years old.

Carl E. Bailey.

He will enter the special election which he himself will call, probably for Sept. 14, to fill the vacancy.

Traditionally, Democratic nomination to major office in this state is tantamount to election. Whether Bailey will be opposed in the special election by a Republican or by fellow-Democrats running as independents remained in doubt.

J. Rosser Venable, Little Rock world war veteran who ran against Robinson in the 1936 Democratic primary, announced this week he would seek the seat as an independent if the state committee nominated Bailey.

Osro Cobb, state Republican chairman, called for support of an independent Democrat, or a Republican candidate, in opposition to Bailey.

## *SERB PATRIARCH DIES AS DEPUTIES O.K. PAPAL PACT*

BELGRADE, Jugo-Slavia, July 24.—[Saturday].—(AP)—The patriarch Varnava, head of the Jugo-Slav Orthodox church, died early today after a long illness. He was 57 years of age.

The patriarch's death came at a dramatic moment. While he lay on his deathbed, the fight over his nation's ratification of a concordat signed with the Vatican in 1935 caused serious political division and led to riots in which many were injured.

The patriarch, while an ardent opponent of ratification of the concordat, did not participate in the current political fight, but his followers waged a campaign against approval on grounds that it will give the Roman Catholic church greater privileges in education and politics.

The lower house of the Jugo-Slav parliament approved a bill for ratification of the concordat yesterday by at vote of 166 to 128. It will be presented for senate action in the fall.

The patriarch, whom 7,000,000 Orthodox Jugo-Slavians regarded as the supreme religious leader on earth, became ill last month. Physicians said his death was caused by pneumonia following a gradual decline in health.

## *1,500 REFUGEES REACH FRANCE ON BRITISH SHIP*

BORDEAUX, France, July 23.—(AP)—The British steamer Macgregor, which reported that it had drawn the fire of a Spanish rebel warship, arrived off Bordeaux tonight with 1,500 refugees from Santander. Members of the crew said the vessel was fired upon by the cruiser Almirante Cervera soon after leaving the north Spanish port. The ship was directed to go to Pauillac, twenty-seven miles from here, to land the refugees.

A French navy officer who boarded the Macgregor for an inquiry said the rebel vessel withdrew upon the arrival of a French and two British warships, which cleared for action. It previously had fired several shots near the refugee ship.

One of the British warships, the battleship Royal Oak, arrived tonight in St. Jean-de-Luz. The crew said it was cleared for action at the time of the incident because that was the normal procedure now on such occasions.

### *10 of Tacoma's Department Stores Closed by Strike*

Tacoma, Wash., July 23.—(AP)—Tacoma's ten largest department stores were closed tonight by a strike of the clerks' union, American Federation of Labor affiliate, throwing 700 persons out of work. M. J. Muckey, director of the Tacoma industrial conference board, in line with an agreement he said store owners and union officials had made, refused to discuss the cause of the strike.

## *TAX RETURNS OF ROOSEVELT SON MADE AVAILABLE*

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—[Special.]—The special congressional committee investigating tax avoidance this afternoon voted to permit any member of the group to examine the income tax returns of James Roosevelt, secretary and son of the President, and Secretary of the Treasury Henry Morgenthau Jr.

The decision was made during an executive session at which Representative Allen T. Treadway [R., Mass.] proposed that the reports be made accessible to the committee. Chairman Robert L. Doughton [D., N. C.] said the committee interpreted the proposal as a request and voted to make the returns of young Roosevelt and Morgenthau available for inspection.

# BAIL IS DENIED GIRL ACCUSED IN GOSSIP KILLING

## Prisoner Insists She Shot in Self-Defense.

Coushatta, La., July 23.—[Special.]—The story behind the "gossip" killing of a 17 year old girl by her school chum was told in District court today as the pretty young slayer sought without success to obtain her release from jail on bond.

At a preliminary hearing Judge J. W. Jones late today denied the request of the defendant, Jessie Pepper, also 17, of Crichton. Her attorney said he would apply to the Supreme court for a writ of habeas corpus to obtain her release pending a grand jury investigation expected in October.

**Clash 3 Days Before Shooting.**

A cow pasture fight between the two girls and their mothers, on July 5, which resulted in the death of May Elvin Allen, was the outgrowth of gossip Jessie allegedly spread concerning the birth of a baby to her unmarried school mate.

"She told May Elvin's fellow, Percy Methivin," testified Mrs. Mary J. Allen, mother of the victim, "that May Elvin had left town to have a baby."

Examination of witnesses brought out that the girls clashed on the night of July 2, three days before the fatal shooting, in a chance meeting at a gasoline service station.

**Denied Telling Any Lies.**

Mrs. Allen said her daughter approached Jessie and demanded an explanation about "the lies you've been telling on me." Miss Pepper denied telling any lies, whereupon the other girl slapped her face. Further difficulty was averted by the arrival of Jessie's father, who took her home.

The account of the shooting was given by Mrs. Allen. She said she went for her cows on the night of July 5 and met Mrs. Minnie Pepper, mother of Jessie.

Mrs. Pepper struck her on the head with a pistol she carried, Mrs. Allen testified. The two clinched in a tussle for the weapon. While they were struggling Jessie came running down hill toward them, carrying her five months old baby sister in her arms. Placing the baby on the ground, she joined in the scuffle. One shot was fired but no one was struck.

Jessie testified she finally got hold of the gun and about that moment saw May Elvin running toward the scene.

**Elvin Carries Big Stick.**

"She came at me with a big stick about two and a half feet long and as large as my wrist. That's when I shot her," Miss Pepper said calmly.

"Just why did you kill her?" asked her attorney, S. R. Thomas.

"Simply because I knew that if she came on down to me she would take the gun away from me and kill me and my mother," answered the girl.

Mrs. Allen said she did not see the actual shooting of her daughter, being still engaged in the tussle with Mrs. Pepper at that time. At the sound of shots she stopped and saw her daughter lying on the ground, dead, she said.

**Two Tell of Shooting.**

Two eye witnesses to the shooting were Charles Baldwin, 13 years old, and his mother, Mrs. Rosa Baldwin. The boy, whose testimony was corroborated by his mother, said Jessie fired five shots at the other girl, the first when May Elvin was about 20 feet away.

Miss Pepper, who has been in jail since the shooting, was the only defense witness. She was not cross-examined by attorneys for the state.

# VIEW THROUGH PEEPHOLE TOLD AT DEAN'S TRIAL

## Attributes Gun Assault to What He Saw.

Greenfield, Mass., July 23.—[Special.]—What Stephen Allen Norton, retired cashier of the Mount Hermon School for Boys at Northfield, spied through a peep hole figured today in the trial of Thomas E. Elder, former dean of the school. What he saw, he said, was the white haired Elder and his secretary petting. Later Elder prayed for forgiveness, Norton added. Norton prayed with him.

Elder, 66 years old, and peppery, is charged with assault with intent to murder Norton, 71, and with assault with intent to put him in bodily fear. The twin assaults took place last May 25. Conviction on both charges entails a possible maximum sentence of 12½ years.

**Tells Birdseye View.**

The case presented today against Elder by District Attorney David H. Keedy was pretty much a one man case, the one man being Norton. Norton testified calmly, and he was calmest when telling about the peep hole scene. That happened back in 1931.

A partition, Norton said, separated his office from Elder's, and one day he bored a little hole through this partition. It afforded him an excellent vista of the goings on, he admitted. In 1931, Norton testified, Elder had a pretty little secretary. She had flaming red hair.

One day, testified Norton, he looked through the peep hole, and he saw, he said slowly, and in emphatic tones, Elder, the dean, kiss and embrace the secretary.

**Forgiveness Asked.**

"I reported the incident to Dr. Henry F. Cutler, then headmaster," continued Norton. Later Elder, Mrs. Elder and I met in Dr. Cutler's office, and we talked over the matter. The discussion ended in a session of prayer for forgiveness in which we all participated."

Elder listened to his former colleague's story until the latter had finished. Then he chuckled.

The peep hole kissing scene was served as an incident tending to show apparent bitterness between the two former school officials. Norton testified earlier that he and Elder had clashed over school affairs for a period of ten or twelve years. He had felt, he said, that Elder had interfered with the cashier's office. The breach was intensified with Norton's expose of the kissing incident.

**Recognizes Elder.**

Then came May 25. Norton drove his car to the garage in the rear of his home. He saw a man sulking nearby. Norton alighted and started toward the man as the latter called out—according to Norton—"Mr. Norton, I want to talk to you. Norton testified he recognized the man.

"He warned, 'Get back in that corner,'" Norton continued. "I continued to advance because I had nothing to fear. Then he brought out a shot gun. It put me in terror of my life. I ran into the kitchen."

Prosecutor Keedy asked Norton to name the man with the gun and Norton promptly said, Thomas Elder.

Elder's lawyers then took up cross examination, but they didn't do much with the determined Norton except to bring out a little more detail on the peep hole vista.

Elder's trial recalls the strange murder of Elliott Speer, headmaster of the Mount Hermon school, who was 36, the day before opening of the 1934 term. The crime still is unsolved.

## $500,000 BLAZE DESTROYS BOILER CONCERN'S PLANT

Damage estimated at more than $500,000 was caused last evening by fire which destroyed the plant of the Hamler Boiler and Tank company, 6025 West 66th street, in the midst of the Clearing industrial district. The one story brick and sheet metal building was burned to the ground, but the easterly direction of the wind saved other large factories in the vicinity from the flames.

The cause of the blaze was not determined but it was believed to have started in the center of the factory where valuable steel plate manufacturing machinery is located. The fire was first noticed at 5:30 p. m. by the night watchman, Gus Ristau, 6122 South Damen avenue, shortly after the other employés had left. A 3-11 alarm was sounded and 25 pieces of apparatus were sent to the scene under command of Chief Deputy Fire Marshal Anthony Mullaney.

## FATHER OF FOUR SHOT TO DEATH; POLICE BAFFLED

Carlo Alegro, 61 years old, was shot to death yesterday in his second floor flat at 2304 Butler street, Chicago Heights, under circumstances that baffled police. The only entrance to the flat is through a back porch, but Alegro's wife, Bernice, who was on the porch when she heard the shots, said she saw no one enter or leave the home.

Police Chief Louis E. Smith questioned Alegro's four sons, Anthony, 39 years old; Paul, 37; Michael, 25, and Vincent, 18, but they denied knowledge of the shooting. Alegro was shot while standing up, three bullets striking him in the neck, two in the back, and one in the head.

Police were further mystified because Alegro's home was comfortably furnished, although his only known source of income was from the local relief agency. An inquest will be held this morning in the undertaking rooms at 211 East 22d street, Chicago Heights.

# Britain's Easier Divorce Bill Passed by Commons

BY SAM BREWER.
[Chicago Tribune Press Service.]

LONDON, July 23.—Cheers from the house of commons and a scathing attack from the bishop of St. Alban's greeted Alan Patrick Herbert's divorce reform bill today when it ended a long and stormy trip through parliament with a final vote by the house of commons which was little more than a formality.

A. P. Herbert.

It is expected to be signed by the king within a week and will become a law Jan. 1.

So certain was the public that the house of commons would pass the brief amendments introduced by the house of lords that the bill was spoken of as passed since the lords approved it.

**Bishop Stands Pat.**

But the Anglican bishop of St. Alban's, the Rt. Rev. M. B. Furse, stood pat among the diehards after even the primate of all England, the Archbishop of Canterbury, had decided it at least was the lesser of two evils, calling it an improvement over the present 80 year old law. He did not vote for or against the bill when it was before the house of lords.

"It is just frankly a bill to encourage divorce," the bishop charged in an article published today in a diocesan leaflet.

Others felt differently, and Herbert, who heretofore has been better known as an editor of Punch than as a legislator, had to ask his friends not to talk about a "personal triumph." Even his opponents congratulated him.

**Grounds for Divorce.**

Grounds for divorce under the new bill are adultery [which previously has been the only cause], desertion for three years, cruelty, incurable insanity for five years, unnatural offenses by a husband.

A marriage may be annulled on grounds of willful refusal for consummation of the marriage, insanity, a communicable venereal disease at the time of marriage, and pregnancy at the time of marriage by some person other than the petitioner.

No clergyman in the Church of England or Wales shall be compelled to solemnize a marriage of a divorced person whose former spouse still is living.

The Church of England will make a fight in parliament and in the country to bring changes in the marriage laws. It wants a law to make a civil marriage ceremony before a registrar a church ceremony for those couples who accept the church's teachings on divorce.

## HUNT PAROLEE FOR KILLING OF POLICEMAN DURING AN ARREST

Alton, Ill., July 23.—[Special.]—A posse of fifty deputy sheriffs, city and state police spent the day searching wooded tracts along the river bluffs north of here today for Clyde Wagner, a paroled convict, who yesterday shot and killed Policeman Addis Miller in front of the city hall here. It is believed he escaped toward Chicago.

Wagner, who is 19 years old, was paroled from the state reformatory at Pontiac on Aug. 23, 1935, after serving one year of a one to twenty year sentence for theft of an automobile. He violated his parole and a warant for his arrest was received here several days ago. Yesterday afternoon Policeman Miller recognized him and was taking him to the city jail when the shooting occurred.

Suddenly Wagner fired four shots into Miller's chest, then fled.

## BANDIT SLAYER SHOWS GAINS AS 2D VICTIM DIES

Lige Debowski, heroic chef, who was critically wounded Saturday night while fighting two bandits who attempted to rob a liquor store at 1007 Leland avenue, was reported by physicians at the county hospital last night to have a fair chance to recover. He was operated on Thursday when an abscess developed in his thigh from one of the bullets. A fever caused by the infection continued yesterday.

Debowski wounded both bandits fatally. Edmund Blut, 38 years old, a paroled convict, one of the bandits shot by the chef, died yesterday morning at the Bridewell hospital. The other robber, George Carson, 45 years old, also an ex-convict, died several hours after the shooting.

Blut, before he died, told detectives that a woman drove him and Carson to the liquor store. He refused to name her.

## 11 BANDITS GET $17,000 LOOT IN THREE HOLDUPS

Boston, Mass., July 23.—[Special.]—Eleven robbers obtained a total of $17,000 cash in three holdups in New England today. No one was injured and all the bandits escaped.

Two gunmen confronted J. Murray Slater, a brewery collector, in New Haven, Conn., and ordered him on threat of death to surrender the $6,000 he carried.

In Worcester, Mass., Frank E. Cross, vice president of the E. J. Cross Building Construction company, was robbed of a company pay roll of $7,000 by four bandits.

At Pawtucket, R. I., five robbers, one armed with a shotgun and the others with pistols, took $4,500 from the office of the Pawtucket Manufacturing company.

**Bank Robbed of $10,000.**

Cleveland, O., July 23.—[Special.]—Five clerks and half a dozen customers in the Central National bank branch were held up at noon today by four robbers who escaped with about $10,000.

## CHICAGO POLICE JOIN IN HUNT FOR TRIPLE SLAYER

Chicago police joined temporarily yesterday in the search for Jens Thompson, sought for the murder of Joe, Louis, and Anton Lukes, brothers, who were shot to death Thursday while they were working in harvest fields near Austin, Minn.

St. Paul police telephoned Sergt. Thomas McDonald of the detective bureau that Thompson might be in Chicago because he boarded a Chicago bound truck at Stewartville, Minn., driven by Clarence Gustafson, who usually stopped at Lavin's gasoline station at 19th street and Western avenue here.

At the gas station last night Gustafson said his passenger left him at Spring Valley, Minn.

## AILING MOTHER KILLS CHILDREN, THEN HERSELF

Flagstaff, Ariz., July 23.—[Special.]—Grieved by her lack of discipline over her four children and the fear they would contract her own intestinal ailment, a sick mother strangled and stabbed them to death and then fatally shot herself.

The body of the mother, wife of James Walkup, chairman of the county board of supervisors, was found this morning near a golf course. The bodies of the children were in their beds at home.

A coroner's jury later reported the deaths as murders and a suicide. Three of the children had been stabbed twice in the heart with an ice pick, apparently while they slept, but the fourth evidently awakened and struggled. She was strangled.

The children were Phoebe, 2 years old; Jackie, 5; Rose Marie, 8, and Danny, 10. Rose Marie was strangled.

Mrs. Walkup left notes to her husband and a physician who explained her fears.

# DELIA C. FIELD, STORE FOUNDER'S WIDOW, IS DEAD

## Victim of Pneumonia at Summer Home.

[Continued from first page.]

70 years old, and Mrs. Caton. The marriage took place a few days later.

Mrs. Field continued to live at the Prairie avenue home for many years after Mr. Field's death. Her niece, Mrs. Albert J. Beveridge of Indianapolis, spent much time there with her.

About 25 years ago, after the death of her sister, Mrs. Field took up her permanent residence in Washington, D. C., where her fame as a hostess acquired 'ts brightest luster.

But for many years she kept the Chicago house staffed with servants and ready for occupancy. She returned annually for a time for brief visits.

Several years ago Mrs. Field turned the property over to Marshall Field III. to dispose of as he chose. The furniture was given to grandchildren and family servants with the stipulation that none of it ever should be sold.

**House Given to School.**

In January, 1936, it was announced that the house had been given to the Association of Arts and Industries to be used as an industrial art school. The association plans to start remodeling the 25 room mansion, designed by Richard Morris Hunt of New York, in a week or two and it is expected the school will be opened in the autumn.

The only time in many years the house has been ablaze with lights and the scene of a gay party similar to those that formerly were given there was last spring when the association lent the building to a group of young people, including the Shreve Badgers, Alfred Wolfes, Ambrose Cramers, and John R. Winterbothams for a dinner-dance. The guests wore costumes of the '90s.

While Mr. Field was called the world's richest man at the time of his marriage, his bride also was comfortably situated in her own right.

Mrs. Field's fortune was reputed a few years ago to be about $5,000,000. In addition to a settlement made on her at the time of their marriage, Mr. Field left her $1,000,000 by his will. The balance of his fortune, then estimated at $100,000,000, was divided among his children and other relatives. Mrs. Field had no children by either marriage.

## *JAMES MONDI JR., 3 OTHERS SOUGHT ON GIRL'S CHARGE*

Police last night were searching for three men and a woman to serve them with warants obtained yesterday by Miss Dolores Stock, 817 Lakeside place, a pretty brunette, who charged them with a strange kidnaping.

Those named, police said, were James Mondi Jr., an alleged loop handbook owner; his wife; John Doe, alias George, and John Doe, alias Stewart. Their address was given as 4917 Washington boulevard. The warants were issued by Judge Joseph B. Hermes.

Miss Stock told Judge Hermes that the four persons named kept her a prisoner in a second floor apartment at the Washington boulevard address Thursday night, and forced her to make telephone calls to the home of a woman friend of hers. She was to have invited the woman to the apartment. However, Miss Stock could not reach her. The alleged purpose was to bring the woman into the apartment where another woman, whose husband she had stolen, was to have been given a chance to beat her.

## *A HOME-MADE BURGLAR ALARM RINGS THE BELL*

Leonard Price, 19 years old, 3409 North Ozark avenue, and Earl Dankert, 21, of 3350 North Opal avenue, attempted to loot Samuel Landsman's drug store at 7643 Belmont avenue, Elmwood Park, once too often yesterday.

They visited the store last month, and Landsman fashioned a homemade burglar alarm. When they broke into the store again yesterday the alarm sounded, waking Landsman, who called police. The thieves were arrested as they were leaving with $50 and cigarets.

# TRANSFER DIMES DIVIDED; 6c TO 'L,' 4c TO STREET CAR

## Commerce Commission Splits $3,000,000.

Advantages accruing to riders of the surface and elevated lines because of interline transfer privileges were recited yesterday by officials of the Illinois commerce commission upon entering an order for the division of transfer fares between the systems for the year ending Sept. 21, 1936.

In that period the transfer fares totaled $2,997,472 of which the Chicago Rapid Transit collected $1,293,713 and the Chicago Surface Lines $1,703,758. The commission ruled that of each dime spent for a transfer ride over the two systems, 6 cents should go to the elevated and 4 cents to the surface lines, and directed the latter to pay over $504,769 to the elevated.

**Applies to First Year's Fare.**

The companies are still engaged in presenting evidence before the commission as a basis for a permanent order on the division of transfer fares. Yesterday's order applies only to fares collected during the first year and the permanent order may change the 6 to 4 ratio.

"With the entry of this order another step has been taken toward the ultimate coördination of local transportation service in Chicago," said James M. Slattery, chairman of the commission.

There have been advantages to both systems, according to Merrill B. Knox, commission transportation engineer. He said the elevated company has obtained large numbers of passengers delivered to its lines at 55 transfer points, and the surface lines have been relieved some of its overcrowded loop service.

**Rule on Mayor's Request.**

The transfer plan was installed originally on a commission order issued at the request of Mayor Kelly and the city council.

Of the 29,974,720 transfer riders, 17,037,587 originated on the surface lines and 12,937,133 started on the elevated.

The two systems could not agree on a division of the transfer fund and asked the commission to decide the matter.

## *Drop Alimony Plea as Hope of Reconciliation Brightens*

Attorney Charles R. Sercomb yesterday withdrew his motion for temporary alimony for Mrs. Irene Sterling Baker, 524 Maple avenue, Wilmette. Sercomb and Attorney Robert Cantwell Jr., counsel for her husband, Samuel F. Baker, vice president of the Hydrox Beverage corporation, told Judge Walter J. La Buy they hope to arrange a reconciliation. Mrs. Baker is suing for separate maintenance. They have three children.

**BODY RECOVERED FROM LAKE.**

The body of an unidentified man, about 60 years old, wearing a truss, who had been dead two days, was recovered from the lake off 8th street yesterday.

## THE NAVY RECRUITS WPA CAT (AND DOG) FOR A TICKLISH TASK

New York, July 23.—(AP)—There are two ways to run a telephone cable through a subterranean pipe. One is the way the navy did it today.

Instead of ripping up the wood and cement floor of the naval air reserve base at Floyd Bennett field, Chief Radioman Harold A. Williams and Ralph Cabanillas Jr. recruited a cat from the WPA.

To the cat they attached a gauze harness, hooked the harness to a line, put the cat at the mouth of the tunnel and said, "Scat!" The cat didn't scat. So, a police dog was called, the cat ran through the pipe, and the job was done.

## *DOCTOR'S SLAYER SAYS HE DID NOT GET FAIR TRIAL*

(Picture on back page.)

Poplar Bluff, Mo., July 23.—(AP)—Insisting he did not get a fair trial, young Robert Kenyon, Ozarks mountaineer farmer, sentenced to die Sept. 2 for the slaying of Dr. J. C. B. Davis of Willow Springs, Mo., was cheerful tonight and said, "I'll come out of this trouble and marry the girl I love."

Kenyon was brought here for safe keeping today from Alton, Mo., where he was convicted.

The condemned 23 year old youth, without signs of emotion, stood before Judge William E. Barton when the latter sentenced him to die on the gallows for the kidnap-slaying last January.

He said he went to St. Louis "in an effort to get money" so he could marry Opal Welch, 17 year old Ozarks girl, but that he failed and returned home.

## *STONY ISLAND AVENUE OPENED TO 130TH STREET*

The extension of Stony Island avenue from 95th to 130th street was opened to trafic yesterday on order of F. Lynden Smith, state director of public works. This four mile extension with two grade separations is expected to relieve congestion at Chicago's southern and eastern automobile gateway. The only work still incomplete is the posting of guard rails and the landscaping of shoulders.

Motorists leaving the lake shore at Jackson Park can now proceed along Stony Island avenue to 130th street, thence east to Brainard avenue, southeast to Burnham avenue and reach U. S. highway No. 6 or the Lincoln highway for the drive into Indiana. Both Ewing and Torrence avenues now are being repaired.

# COUNTY SINGERS HAVE 3 DAYS TO ENTER FESTIVAL

## Deadline 6 P. M. Monday for Vocalists.

BY PHILIP MAXWELL.

Only three days remain for Cook county vocalists to enter the preliminary voice contest of the eighth Chicagoland Music Festival. The deadline is next Monday at 6 p. m. Signed entry blanks must be in the festival office, room 1418 Tribune Tower, at that time. An entry blank accompanies this story. The deadline for out of Cook county participants is Monday night, Aug. 9.

Josephine Swinney.

Already several hundred young men and young women have enrolled in this competition which has proved to be the most popular of all festival contests.

The festival will be held on the evening of Aug. 21 at Soldiers' field.

Golden voices have come from the competition in years past. Mrs. Edmund J. Tyler, chairman of the vocal contests, believes the quality of contestants is steadily getting higher. "At first we let the singer choose his own contest number," she said. "This worked out all right until a baritone chose as his number "Tell Mother I'll Be There." Now the Chicago Council of Teachers of Singing selects a required list and only trained singers compete.

The public is invited to attend all the festival contests, which in addition to vocalists include solo instrumentalists, bands, choruses, drum corps, and baton twirlers. The voice competition for contestants from the north side will be held at 7 p. m. Thursday, Aug. 5, and 7 p. m. Friday, Aug. 6, at the Edgewater Beach hotel. The contests on the west side will be held at 7 p. m. Tuesday, Aug. 10, and 7 p. m. Wednesday, Aug. 11, at the Chicago Woman's club. The contests for the south side will be held at 7 p. m. on Thursday, Aug. 12, and 7 p. m. Friday, Aug. 13, at the same location.

The contests are divided into six voice ranges—soprano, mezzo-soprano, contralto, tenor, baritone, and bass. There will be six singers, three men and three women, chosen on the three sides of the city.

A bass contestant from the south side of Chicago is David R. Austin. Born in Appleton, Wis., he came to Chicago in 1934 to study music and is now soloist at St. James Episcopal church. Another aspirant for festival honors is Miss Josephine Swinney, mezzo-soprano, of 5135 Blackstone avenue. She is a member of the Chicago City opera chorus.

## *6 SINGERS CHOSEN FOR CHICAGO'S MUSICAL FETE*

Minneapolis, Minn., July 23.—[Special.]—Selected from among twenty, six young, amateur singers were chosen tonight as winners in finals of the Minneapolis Tribune's vocal solo contests. They will make expense paid trips to Chicago to compete Aug. 21 in the eighth annual Chicagoland Music Festival sponsored by THE CHICAGO TRIBUNE.

The six winners are Estelle Kronick and Miriam Swanson, soprano and mezzo soprano; Doris Bergh, contralto; Paul Haselnus, tenor; Charles Wilbour, baritone, and Rolf Sand, bass.

Selections were on the basis of quality, pitch, diction, and interpretation, factors which also will determine winners at Chicago.

Judges were Dr. H. S. Lloyd of Mankato, C. A. Thornton of St. Paul, and Dr. James Davies of Minneapolis.

## *Squirrel Bites Evanston Teacher Sprinkling Lawn*

While watering her lawn yesterday, Miss Louise Hagerty, 55 years old, 2310 Marcy avenue, Evanston, a teacher, was bitten on the left wrist by a squirrel she tried to frighten away. A milkman killed the squirrel and turned the body over to health authorities for examination. Miss Hagerty was given an anti-rabies treatment.

## *SUE FOR $500,000 ON STEEL MADE FOR 2 SCHOOLS*

Suit for $500,000 alleging breach of contract in connection with construction of the Dvorak and Rembrandt Junior High schools, which were never completed, was filed against the board of education yesterday in Circuit court by three trustees of the Vanderkloot Steel works, now out of business.

The bill charges that the board awarded the company two contracts in 1931, each for $94,979, and suspended the contracts ten months later after the firm had fabricated the steel. The balance of $310,042 sought by the company is for storage and painting of the steel, as well as other alleged losses arising from the board's action.

Ralph Condee, an attorney for the board, said several other suits are pending against the board because of the halt in construction of the schools.

## *Ex-Aid Sues Townsend for Malicious Prosecution*

Damages of $30,000 for malicious prosecution are sought from Francis E. Townsend, founder of an old age pension movement, in a counter claim to a suit filed yesterday in Circuit court. The damages are asked by J. W. Brinton, 40 East Oak street, former official of the Townsend National Recovery plan, and grow out of his arrest several weeks ago on a warant charging embezzlement sworn out by Townsend. Brinton was acquitted before Judge Frank M. Padden in Felony court on July 7. Brinton's counter claim is to a suit filed by Townsend asking an accounting of funds of various Townsend enterprises.

The certificate above, differently numbered, appears each day except Sunday. 12 Mark Twain Certificates, each differently numbered, qualify the holder to receive a set of two volumes of "The Complete Works of Mark Twain" (in twenty-four volumes) in accordance with the terms of the Chicago Tribune's Good-Will Offer.

# DR. F. W. BAYLOR KILLED AS AUTO UPSETS IN FIELD

## Chicago Physician Victim in Indiana Accident.

Dr. Frank W. Baylor, chief surgeon for the Yellow Cab and Chicago Motor Coach companies, was injured fatally yesterda in an automobile accident near Lebanon, Ind. In the automobile with him were a son, Wesley, 16 years old, and their chauffeur, John Johnson, 621 Waveland avenue. Both were injured.

The Baylors were en route to Dr. Baylor's farm at Georgetown, Ind. The son was driving while the chauffeur was resting on the back seat. Wesley lost control of the car, according to reports to Lebanon police, which rolled over three times and landed upside down in a field.

**Widow Flies to Scene.**

Mrs. Adrena Baylor, the widow, was at the Baylor home at 3800 Lake Shore drive with their other son, John, 18, a Princeton University student. She flew to Lebanon with an associate of Dr. Baylor, and an ambulance was sent from Chicago to bring the chauffeur back for treatment. The son was not seriously hurt.

Dr. Baylor, who was 54 years old, was born in New Albany, Ind. He was an attending surgeon at the Alexian Brothers, Henrotin, Chicago Memorial, and Columbus hospitals, and a fellow of the American Medical association. He had practiced in Chicago for thirty years.

In 1933 and 1934, he was head of the emergency hospital at A Century of Progress exposition. His office was at 166 West Van Buren street.

**David Smythe Is Killed.**

David Smythe, 69 years old, a telegraph operator known to operators throughout the country because of his former position as loop chief in Chicago for the Postal company, died yesterday in the Jackson Park hospital of trafic injuries incurred Thursday night. He was struck by an automobile while crossing Stony Island avenue at 88th street. He lived at 8910 Blackstone avenue.

An inquest into his death was continued until July 28 for a further investigation. Bruce E. Duff, 22 years old, 7359 South Michigan avenue, driver of the car, did not testify at the inquest, but told Burnside police Smythe walked suddenly in front of his car. Witnesses at the inquest corroborated his story. He was booked on a charge of reckless driving.

George Dodrv, 74 years old, 4521 North Keystone avenue, was fatally injured yesterday when he was hit by an automobile driven by Charles Schwartz, 58 years old, 6621 North Fairfield avenue, a watchman, in front of 4525 North Pulaski road.

**Woman Killed in Collision.**

Mrs. Erma Magner, 46 years old, 5215 Waveland avenue, was killed last night in a collision of two cars at Touhy avenue and Mannheim road, south of Des Plaines. She was in a car driven by J. H. Watson, 58, 5051 Sunnyside avenue. He was slightly hurt. Albert Krail, 22, of 6147 South Major avenue, the other driver, and John Sovinie, 18, of Elizabeth, N. J., a hitch-hike passenger, were also slightly hurt.

John Hughes, 13 years old, 1024 Belden avenue, was killed yesterday when hit by a truck as he was hooking a ride on the rear of an eastbound Webster avenue street car in the 1100 block.

John Grecco, 25 years old, 742 South Oakley boulevard, died in County hospital of a skull fracture suffered Thursday nigh. when the car in which he was riding struck a taxicab at Oakley boulevard and Madison street. The driver of the car, Vito Monaco, 25, of 2249 Campbell Park avenue, was charged with reckless driving.

**Dies of Trafic Injuries.**

Thomas Hoyle, 79, of 4834 West Hubbard street, died in St. Anne hospital yesterday of injuries suffered on July 9 when he was struck by an automobile at Carroll and Cicero avenues. The driver of the automobile, Andrew Levin, 27, of 530 Diversey parkway, told Austin police at the time that Hoyle stepped into the street from between two parked cars.

On June 30 the state legislature, because of a patronage feud, missed its last opportunity to enact a drivers' license law which has reduced trafic accidents in some states. Since then, and up to 4 p. m. yesterday, 42 persons have been killed and 1,558 injured in automobile accidents in Chicago. Since Jan. 1, trafic accidents have killed 566 persons in the county, including 441 in Chicago, according to the coroner's office. During the same period, 12,159 have been injured in auto accidents in the city.

# COUNCIL MOVES TO SAVE $500,000 ON CITY CURRENT

The city council special revenue committee yesterday instructed Corporation Counsel Barnet Hodes to ask the Illinois commerce commission for an order equalizing rates for current bought by the city from the Commonwealth Edison company.

Ald. B. A. Cronson [4th], who made the proposal, said that if all rates paid by the city were based on the lowest it pays, about $500,000 would be saved. The committee is seeking $800,000 to restore predepression salaries of city employés. The rates, Ald. Cronson said, vary from 6.3 mills a kilowatt hour for power at pumping stations to 3 cents a kilowatt hour for subway and signal lighting.

Her attorney, Charles C. Cooley, told Judge Joseph B. David that Mrs. Harsha will receive an out of court settlement.

# GANG OF GIGOLOS SEIZED IN N. Y. AS JEWEL THIEVES

## Women Lured to Den, Robbed and Beaten.

(Picture on back page.)

New York, July 23.—[Special.]—Four suave and immacuately dressed jewel robbers, who ingratiated themselves to wealthy women by posing as well-to-do acquaintances of mutual friends, invited their victims to parties in hotel rooms and then beat and robbed them, were arrested here today.

A fifth member of the gang—the alleged "master mind" who prepared the elaborate stage setting for each robbery—is still being sought. It was he, police said, who acted as "finger man" for the thieves, cultivating the friendship of intended victims and obtaining the names of persons they knew. The finger man then communicated these names to the actual robbers and the latter went to work.

**Hunch Leads to Arrest.**

A detective's hunch that there was "something suspicious" about two overly well groomed men as they left a Broadway restaurant led to the gang's undoing.

The prisoners, booked on charges of assault and robbery after three of their women victims positively identified them as the thieves, gave their names as Frederick Mangerie, Meyer Lembersky, Murray Cohen, and Jack Saunders, all of New York.

With the arrest of the four, police announced they had recovered $6,500 in jewelry taken from Mrs. Elizabeth J. Williams, a divorcée of Narragansett, R. I., after she had been beaten in a room at a Boston hotel last Wednesday night.

**Loot Placed at $50,000.**

Police officials also revealed that in the last six months more than a dozen well-to-do women, most of them originally from other cities and with few friends in New York, had been victims in similar robberies. The total loot was estimated at $50,000.

As the result of hours of questioning, the four prisoners were linked definitly to the theft of $4,000 in jewelry from Mrs. Anna Wilson of Texas on April 8; the theft of a $100 wrist watch from her friend, Miss Dolores Chandler, on the same day; the robbery of Mrs. Lucile Douglas, who lost $5,000 in jewels on May 18, and the theft of an $800 mink coat and jewelry from Miss Celia Miller on Feb. 11. All the latter robberies occurred in New York City hotels.

# TRAIN KILLS GIRL RIDING CYCLE ON GLENCOE STREET

(Pictures on back page.)

Frances Goodrich, 12 years old, 922 Vine street, Winnetka, was struck and killed by a North Shore train last evening as she rode her bicycle on the Woodlawn avenue crossing in Glencoe.

Witnesses said that the girl appeared to be blinded by the setting sun and did not see the northbound express until she was on the track and could not pedal out of the way. She was dead when taken to the Highland Park hospital.

Frances' father is Wallace Goodrich, head of the Goodrich Electric company, 2901 North Oakley boulevard. He said he would start an investigation to find out why there are no gates at the crossing which is guarded by flash and gong signals. The girl was a 6th grade pupil in the Hubbard Woods school.

# CALLS ACCIDENT CHASERS JUST A BIG HAPPY FAMILY

## One Lends His Wife for Another Claim, Court Told

George L. West, rotund expert ambulance chaser, pictured the esprit decorps and camaradie among ambulance chasers and their claimants in the fake injury racket in his testimony yesterday before a jury trying four men on charges of defrauding the surface lines through fake injury claims.

The case is being heard before Judge Peter Schwaba. The defendants are Murphy O. Tate, Leo M. Tarpey and George N. Welch, lawyers, and Dr. Andrew Rotche, a physician. West is the state's star witness against them. In his recital yesterday he revealed that one veteran faker even farmed out his wife to a fellow conspirator to give his bogus claim a genuine complexion.

**Empty Car in Crash.**

The specific case involved in the trial concerns a collision last Nov. 20 between two street cars, one of them empty, at 18th and Clark streets. Twenty-three claims for injuries were filed, all but three by the defendant lawyers and Attorney Drake H. Berg, their former associate who turned state's evidence. But most of the claims, it developed, were filed by "passengers" in the empty street car.

The rotund Mr. West, who had been on the witness stand earlier in the trial, was recalled to tell of two other accidents in which phony claims were filed. Judge Peter H. Schwaba ruled that Assistant State's Attorney James A. Brown might introduce such testimony to show intent and a possible relationship between the defendants and the claims, and not their guilt.

**A Pleasant Association**

There was an Edward Foley [or was it Feeley? Mr. West could never remember], brought to him in 1935 by two chasers from Attorney Tate's office, said the witness. He fixed up the claim, said the witness, and Mr. Foley [or Feeley] collected $75 for a street car accident he had never even seen.

This led to a pleasant association, continued Mr. West, who has shown a willingness to tell all against former associates. And Foley [or Feeley] was sitting in his office in June, 1936, when a sub-chaser brought news of another street car accident at Adams and Dearborn streets.

"Foley [or Feeley] took notes," Mr. West testified, mopping his forehead with what appeared to be a luncheon cloth. "Then he said we should file a claim for a relative, Henry Foran, and his wife. Only Foley said he would substitute his own wife, for Mrs. Foran, as she wasn't busy at the time."

**Explanation for Foran**

All of which was done, said Mr. West, the claimant Foran explaining simply that he couldn't trust his wife. And it really was a windfall for Foran, said West, because he had just been in a fight and had two black eyes which made good accident evidence. The Foran claim, he said, was settled for $125.

This was not the first time the Foleys and the Forans made a little extra. In fact they picked up some Christmas money after the accident last November which involved the empty street car, according to West's earlier testimony.

Foley's [or Feeley's] wife was homeward bound on a street car, said Mr. West, after obtaining a $300 settlement in the office of Lawyer Tarpey for a claim against the Chicago Motor Coach company.

**Sees Crash and Phones**

It was she who saw the accident, and quick as a flash, Mrs. Foley telephoned West at the Tarpey office and told him to get busy. Mrs. Foley filed a claim for herself, and urged Susie Foran to do likewise.

"Well, this will be a chance for me to get something for Christmas," Mrs. Foran replied to her friend, the witness related, and forthwith filed her claim.

Then, said the roly-poly Mr. West, he really went into action. He got in touch with one McGovern, an ex-ambulance chaser who produced a bartender and two roustabouts as claimants.

Then West called on a colored chaser, with whom he formerly worked. This friend added six more claimants of his own race. All, said Mr. West, signed the dotted line of their contract with the lawyers, who then sent notice to the company that these claims were filed and for the company not to settle without consulting the attorneys.

# TAX PAYMENTS REFLECT REAL ESTATE GAINS

## $3,000,000 Received in Week on 1936 Bills.

BY JOSEPH ATOR.

(Pictures on back page.)

Improved condition of Chicago real estate was the reason assigned yesterday for substantial payments on 1936 tax bills in advance of the statutory penalty date.

Although the tax penalty deadline does not fall until Aug. 1, approximately $3,000,000 has been received during the present week in payment on 1936 bills, according to George Hagenauer, auditor of the treasurer's office. Bills now due are the first instalment on 1936 real estate taxes and the full amount of personal property bills for that year.

**Hold Back Payments.**

The payments to date are unusually large in comparison with recent years, Mr. Hagenauer said. Ordinarily the rush to pay taxes does not begin until the final week before the deadline, and large taxpayers invariably hold their payments until the final day, to save interest.

Both the treasurer's office and the office of Assessor John S. Clark reported a number of protests by taxpayers at increases in their bills. At the assessor's office those who protested real estate bills were told that these assessments remained virtually unchanged from the levels established in the 1935 reassessment, and that the 1936 increase was due to a higher tax rate, which in Chicago rose from $8.37 to $9.52 on each $100 of assessed valuation.

To real estate owners this meant an increase of 13.7 per cent, although the total taxes levied by Chicago local governments increased only about 10 per cent. Real estate is bearing a slightly larger proportion of the tax load under the 1936 levies than in 1935.

In making 1936 personal property assessments Assessor Clark dropped from the rolls all assessments largely on household goods, with a full value of less than $400. This decreased the number of personal property bills from 765,000 to 300,000. As a result, the total personal property valuation in the county decreased 11.75 per cent. In making his 1937 assessments, Clark has obtained copies of federal income tax returns, with which he expects to add a large amount of previously unassessed property to the rolls.

**Records Show Decrease.**

Records on a number of homes of typical Chicago families, selected at random yesterday from the files at the assessor's office, showed that while tax bills are higher this year, they are still 29 per cent below the 1930 bills issued at the depth of the depression in 1932 and reflecting the tax wasting activities of a former city administration.

The buildings chosen were brick bungalows and brick two apartment buildings, the most common type in Chicago occupied by owners. They ranged in value $7,500 and $4,300, according to the full value appraisals, were between 11 and 19 years old, and were listed as in fair repair.

# KANSAN HELD FOR CAR THEFT; DELAY ACTION ON 2 BROKEN WINDOWS

Elmer Enlow, the college boy from Kansas who smashed several plate glass windows last Sunday with an automobile that he didn't own, was held to the grand jury yesterday in bond of $1,000 by Municipal Judge Francis Borrelli in the Automobile court on a charge of automobile theft. Two charges of malicious mischief, based on the broken windows, were continued generally pending action by the grand jury.

According to the charges Elmer forced an attendant in a garage at 4072 Broadway, to let him take an automobile which he then drove into two nearby store fronts. He was held in jail, unable to put up bond.

# ACT TO ENFORCE SUBSTITUTE FOR DRIVER LICENSE

Springfield, Ill., July 23.—[Special.]—A system for enforcement of the measure passed by the legislature last month as a substitute for the drivers' license law is being organized by Gov. Henry Horner pending a renewal of his efforts to enact such a law at a special session this fall.

F. Lynden Smith, the governor's director of public works, is forming a bureau for a state-wide check on convictions and enforcement of the substitute law. This law authorizes a court to prohibit a defendant from operating an automobile for a period not to exceed a year after a conviction for drunken, reckless, or hit-and-run driving.

A form is being drafted by which all courts of record will report such convictions to a central bureau. After the system starts to function all city police, sheriffs, and state police will receive daily lists of names, addresses, and car license numbers of persons barred from driving.

## THE VOTE THAT SAVED THE REPUBLIC.

The court packing bill is back in the senate judiciary committee. The vote to recommit it was 70 to 20. The retreat from Moscow, slowly begun some weeks ago when the Logan-Hatch compromise bill was introduced, ended on the dead run. It is the understanding that a new bill making certain changes merely procedural in the lower courts of the federal judiciary will be reported out within ten days. It has been agreed that there will be no change in the Supreme court, there will be no proctor to supervise the affairs of the lower courts, and there will be no roving judges sent out to serve administrative purposes in judicial hearings.

In that agreement is the death sentence. The Supreme court remains the citadel of a free people.

It is to be hoped that Americans will never learn what they have escaped and from what they have been delivered by the refusal of the senators to obey the White House when they were told that the abolition of the Supreme court as an independent branch of government was the imperative desire of Mr. Roosevelt and must be accomplished with the utmost speed.

The Republican opposition in congress would have been powerless as sword and buckler to stop the attack upon the republican form of government if a number of Mr. Roosevelt's closest friends and stanchest supporters in the senate, and later in the house, had not drawn the line at this encroachment of the executive on the judicial power.

Although the terms of the bill with which Mr. Roosevelt astonished the country when he sent it to congress Feb. 5 were intended to convey the impression that the reorganization was required by the inability of the judicial system to carry the burden of its work, no doubt was left as to the real purpose.

The President made it plain that what he wanted and demanded was a court which would not declare any acts of his administration to be outside the constitutional limitations of his power and the power of congress. Proof was immediately offered that the Supreme court was abreast of its calendar and therefore the argument that more judges were needed to keep up with the work was immediately exploded. There was no concealment thereafter that the purpose was to make the court subservient to the chief executive. Congress was to be required to extinguish its own convictions of right, its fears for the future of the country, and its conscience, thereby proclaiming itself not an independent branch of government.

The Democratic senators responsible for the defeat of the proposal then began their opposition, although they knew what they risked in standing out against the will of the White House. Great pressure was put upon them. They not only resisted it but they gained converts. The judiciary committee of the senate began hearings on the bill and a majority of the committee members, including O'Mahoney of Wyoming, King of Utah, McCarran of Nevada, Hatch of New Mexico, Burke of Nebraska, Connally of Texas, and Van Nuys of Indiana, all Democrats, and Borah of Idaho, Steiwer of Oregon and Austin of Vermont, Republicans, submitted a report in which they said:

"We recommend the rejection of this bill as a needless and futile and utterly dangerous abandonment of constitutional principle.

"It is a measure which should be so emphatically rejected that its peril will never again be presented to the free representatives of the free people of America."

In addition to the signers of the report of the judiciary committee the fight against the peril was led by Senator Bailey of North Carolina, Senator Wheeler of Montana, Senator Copeland of New York, Senator George of Georgia, Senator Clark of Missouri, and Senators Glass and Byrd of Virginia.

The blasting report should have killed the bill and, as it now turns out, it may be said to have done so.

Mr. Roosevelt, in his speech to the Democratic state convention of New York last September, said it was entirely false that there was any administrative intention to change the American form of government. Following his election came the C. I. O., with its communistic agitators, and following his inauguration for his second term came the bill to break down the protections of the American people.

The hope expressed is that they will never learn the full measure of their deliverance by having to experience the consequences from which the United States senate has saved them. The enactment of the law Mr. Roosevelt wanted would have been followed by an abrupt turn to the extreme left. The country has seen that the violence attending the activities of Mr. Lewis and his C. I. O. depended for success upon the suppression of judicial process.

Where the courts could be openly ignored and administrative government thrown on the side of the rioters, Lewis, with his sitdown strikes, his military invasion of industrial properties, and his denial of the rights of working to men who wanted to work, was getting somewhere. It was only when the law officers, sustained by an indignant public opinion, were able to give protection to the citizens deserving it and not to the lawless that the C. I. O., along with its communistic agitators, found itself in a losing fight.

If the Supreme court had been made a subservient agency, as was the intention of the court packing bill, the leaders of the attacks upon the police in the bombings and destruction of property would not have hesitated to speed up their activities in renewed confidence that they could adopt the Moscow tactics of the blood purge to gain control of the country's industrial structure.

Dictatorship was just around the corner awaiting the passage of the bill to deprive the Supreme court of its authority.

We may hope that this threat of dictatorship, carrying with it the loss of rights which have prevailed for 150 years in the only stable republic in the world, was banished by that vote of 70 to 20 by which the senate declared Thursday that the government of the United States consisted of free, independent branches, the executive, legislative, and judicial. The vote not only preserved a free court but it reëstablished a free congress.

Rule by violence is not to be recognized and upheld. Government accepts its limitations. The dictator fades out of the picture.

The people retain their liberties. The constitution still governs.

## A 286,000 ACRE FARM.

John J. Raskob, in partnership with Tom Campbell, the so-called Montana wheat king, has bought 286,000 acres in the Rio Grande valley in New Mexico at a dollar an acre. This vast holding is to be farmed as a unit. What crops are to be grown has not been announced, but it is said that large sums will be spent on irrigation and soil building.

No doubt the announcement will start another wave of forecasts of the end of the traditional American agricultural system. It will be said that the family farm cannot compete against the mechanized, large scale farm. These gloomy propnecies overlook the facts that mechanization is not new but large scale farming has not displaced the family farm in this country. The cotton gin and the reaper were in use before the civil war. Experience shows that the large scale farm can exist only in circumstances peculiarly favorable to it, and these circumstances are rather rarely found in combination.

Large scale farming tends to be one-crop farming, on cheap and flat land which is particularly well adapted to the use of machinery. Good land, close to the consuming markets, is too valuable to permit this type of exploitation. The richer and better land is commonly used in a balanced agriculture, with the feeding of meat and dairy animals as a principal source of income.

Just what the optimum size of such farms should be is a question to which there is no precise answer, but when a corn belt farm becomes so large that there is heavy dependence on hired labor and when the owner can no longer keep close watch on the animals in the feeding lot and the dairy barn, then inefficiency creeps in.

Mr. Raskob and Mr. Campbell may find their new venture profitable, but there is little likelihood that a farm of anything like that size can be operated successfully as a unit in more favored regions.

## THE FALL RIVER LINE.

The old Fall River Steamship Line has discontinued operations. The announcement doubtless awakens memories in the minds of millions scattered over the United States and Canada. No definite news regarding the disposition of the Commonwealth, the Mohawk, and the famous Priscilla has been released, but they will not resume service between New York and Fall River, Mass.

Early in the history of America, the stage route from Boston to Fall River, where passengers transferred to schooners for New York, was a popular highway of travel. When steamboats were substituted for the sailing vessels they became involved in the legal dispute between the states that followed the granting of a monopoly of New York waters to the Livingston-Fulton interests. The end of these controversies was the decision of the United States Supreme court that the interstate commerce clause in the constitution necessarily conveyed to the federal government complete control over interstate facilities of commerce.

The present company was organized over ninety years ago, and for nearly a half century a trip on the Fall River Line was an active competitor for a trip to Niagara falls for New York and New England newlyweds. The combination of a visit to Boston and New York with a sea voyage was the principal attraction. Those past middle age will remember the songs and melodramas woven around the old Fall River Line.

In recent years easy automobile routes have destroyed much of the glamor of the Fall River trip, and the company has had difficulty in making both ends meet. More recently a C. I. O. agent organized the 250 crew employés of the corporation. A strike followed, and the operators, knowing well that they could not pay advanced wages from diminishing earnings, decided to discontinue efforts to keep the romantic old institution alive.

## *Editorial of the Day*

### A FARM DILEMMA.

[Detroit Free Press.]

Crops in Michigan this year, with one or two exceptions, are expected to be bigger than last year.

And the visible supply of labor to take off these crops is reported to be only 68 per cent of the amount needed, if they are to be harvested without loss to the farmers.

This disparity between the supply of and demand for farm labor is nothing new in Michigan and other states where the conflicting requirements of agriculture and industry tend to create a disbalance.

The industrial pickup, which has drawn workers back from the farms to the cities and local, state and federal work projects, which offer wages higher than the farmers can profitably pay, although wages on the farms have gone up 28 per cent in a year, are held responsible for the present shortage of farm labor.

Some relief can be obtained by the wider use of labor saving machinery on the farms, but there are certain harvesting processes for which no machine has yet been invented, and which consequently must still be done by hand.

Suspension of work relief projects during seasons of heavy demand for labor on farms has been tried in some states, but not every one who can hold down a relief job can stand up in the harvest field.

While Secretary Wallace is toying with the idea of an ever normal granary, some one else might try to find out how an ever normal supply of help can be assured the farmers when they put in their crops and when they take them off.

That labor is a half material thing
Which one can cast to windward and retrieve.

I scatter seed upon this hillside soil
And then I garner it in yellow shocks.
I dream through winter, then begin my toil
About the time the ducks go north in flocks.

**SET FOR SOPRANO.**

Of classical flavor is the tale told by Maurice L. of the Hometown minister, noted for his eloquent sermons, whose false teeth wore out. A new set was imperative, money was short and the pastor at last decided to take some home measurements and send an order for uppers and lowers to a mail order house. In due time they arrived and the minister went to his pulpit. His subject matter seemed to have weakened and his voice was high, shrill, squeaky. This was distressing, and the good man wrote a note of complaint to the mail order firm. A few days later there was a letter expressing deep contrition, also another set of teeth. "We find," the writer stated, "that a serious mistake was made. We sent you a set of women's teeth."

### DANGER LURKS IN HEAT AND SUN.

DWELLERS in the tropics particularly have acquired a wholesome respect for the sun's rays. They realize that death may come quickly if overexposure occurs.

Excessive quantities of light or heat or both produce powerful reactions upon the body, even in the temperate zone. One form is termed heat exhaustion or prostration in which there is pronounced weakness and dizziness. Both pulse and respiration are rapid. The skin is pale and, as a rule, is bathed in a profuse perspiration. There may be intense cramps in the muscles of the abdomen and legs and if the temperature is taken by mouth it will be normal or but slightly above. The attack may come on even when the individual is seated in his own back yard in the shade and is the result of continuous and sustained high temperatures. Even before the symptoms appear the patient may complain of headache, loss of appetite, and general muscular weakness.

At times the condition may be serious. If one can lie down in a cool place where the air is circulating actively the danger will be over in a short time. In most instances a brisk cathartic is indicated and both glucose and alkalis [sodium bicarbonate] may be given by mouth, as most of these victims are likely to display signs of acidosis. A half teaspoonful of soda dissolved in water may be administered hourly.

Sunstroke, on the other hand, is quite a different matter. Here the body is utterly unable to rid itself of energy in the form of heat and the temperature rises to heights which threaten life. The regulating machinery of the body is thrown out of gear completely. One may be working along complacently and suddenly drop unconscious. In some cases there is a preliminary headache, dizziness, nausea, and disturbance of sight. The most spectacular manifestation is collapse with coma. The face is flushed, the skin dry and hot, and the temperature as high as 107 or 108 degrees F.

This latter situation presents a real emergency. If death is to be avoided the affected person must be cooled and that promptly. As soon as possible ice should be applied to the exterior of the entire body, especially the head. A better plan is to immerse the sufferer in a bath to which ice has been added. Ice bags may be packed about the patient in lieu of a tub. If circumstances permit the rectum may be irrigated with ice cold water. As soon as the temperature drops to 102 degrees cool or cold water should be substituted. Some stimulant may be required. Alcohol is not advised, as this adds to the difficulty, but aromatic spirits of ammonia will be helpful.

Heat cramps, so called, are due to water poisoning and a number of years ago the fact that the chlorides excreted were reduced in amount furnished the hint that water containing this material would give relief.

Occasionally the cramps are excruciating in character, involving not only the feet and lower limbs but the hands, the abdomen, the neck, and the head. Ordinary pains may be guarded against by insisting that those who perspire freely shall drink salty water. The reason for this is obvious when we realize that during excessive perspiration 300 grains of minerals may be lost each day. The general practice of urging every one to drink a weak solution of common salt has prevented many injuries to those who are exposed to high temperatures. The one who is sweating freely must take nearly a half ounce daily. Many establishments provide dispensing machines where one can obtain a tablet, place it in a glass of water, and use it immediately.

We are not concerned primarily with statistics, but it appears that fatal cases of heat stroke follow rather accurately high temperatures whenever there is at the same time a high humidity [moisture] with little movement of air. If a breeze is blowing workmen are in far less danger. As we can readily understand, humidity is an important factor because when the atmosphere is saturated with moisture the cooling effect of evaporation is lost.

Clothing should be thin, porous, and loose, and a daily bath will keep the sweat glands functioning at par.

**MIGRAINE.**

MRS. B. H. writes: What is migraine? Is there any treatment?

REPLY.

Migraine or sick headache is a very severe type of nervous distress. As a rule, it affects only one side of the head. It is likely to occur when the body resistance is low, when the mind has been occupied by worry, or when one is brooding over some unpleasant subject. The hurry and noise of city life may bring on this condition in a person of nervous temperament. The attack is over in a day or two, although in some cases it may last for several days. Treatment between seizures consists of a light, nourishing diet, proper rest, and avoidance, if possible, of mental strain. Ergotinine tartrate is highly recommended by some investigators.

**EPILEPSY.**

E. C. writes: My sister, aged 17, has fainting spells. Her body stiffens and jerks at this time and she pounds her head on the floor. When coming out of the attack she rolls her eyes and breathes very hard. What is this and is there a cure?

REPLY.

Probably epilepsy. Your sister should be taken to a physician for a thorough examination to determine the nature of the attacks. When the cause is found, treatment can be advised intelligently.

**BRITTLE NAILS.**

Worried writes: Why do my finger nails grow very slowly and always split—not only in one but in two or three places?

REPLY.

A nutritional deficiency or some disease such as arthritis, psoriasis, or eczema. Try soaking your nails in hot olive oil for ten minutes morning and evening. This will aid growth and flexibility.

**HAIR DYE.**

Mrs. R. writes: Is a person who has used hair dye for a number of years in danger of brain poisoning or of poison going through the system?

REPLY.

Not brain poisoning! The skin is irritated frequently by certain dyes which contain poisonous substances. Others are quite safe.

## FRIEND OF THE PEOPLE

*Letters to this department must be signed with names and addresses of writers.*

**SIDEWALK DISPLAYS.**

Chicago, July 20.—[Friend of the People.]—Many dealers on Chicago avenue between Kedzie avenue and Pulaski road utilize the sidewalk for display of their merchandise to such an extent that only a narrow lane is left for pedestrians. As the street is being widened by cutting off several feet of sidewalk, the practice is becoming a decided nuisance. At times fish boxes leaking their odorous water and chicken crates full of evil smelling fowls make the sidewalk a most unpleasant place to pass along. What can be done by the authorities? F. D.

The complaint has been investigated. Due to the fact that Chicago avenue is under repair from Kedzie to Cicero avenue, no sidewalk displays are allowed. Merchants leave produce on sidewalk only while they are transferring it from trucks to store. Strict surveillance is given this location to see that no further cause for complaint will be made. JAMES P. ALLMAN, Commissioner of Police.

**CHICKENS IN YARD.**

Chicago, July 14.—[Friend of the People.]—Is it against the health laws to keep 50 or 60 chickens in a small yard, and if so, what can I do about it? That number of chickens is kept by a neighbor and, although rat poison has been spread throughout the neighborhood, my flat and basement are now full of rats. I attribute them to the presence of the chickens and the necessary feed. J. H.

The inspector who was assigned to make a thorough investigation reported that 40 small chickens are kept on premises. The yard and coops are in a clean condition and there is no present nuisance or evidence of rat infestation.

DR. HERMAN N. BUNDESEN, President, Board of Health.

**GUTTERS ARE FIXED.**

Chicago, July 18.—[Friend of the People.]—My neighbor's gutters are in bad shape. When it rains the water comes into my yard and even gets into my basement. A. B.

Report by our sanitary inspector showed that the condition complained of waranted action by this department; therefore, notice was served to repair or replace defective roof gutters and downspouts. Recent reinspection revealed that the owner of the premises complained of has complied with our orders.

DR. HERMAN N. BUNDESEN, President, Board of Health.

**MOORINGS NEEDED.**

Chicago, July 21.—"Why No Yachts?" asks your editorial in today's paper.

You state that there are more yachts at Detroit and Cleveland than Chicago, but declare "our facilities are much superior."

Several hundred Chicago yachtsmen would like to find out where those "superior facilities" are. In proportion to its population, and in proportion to the boat-owning part of its population, Chicago provides fewer accommodations, and poorer accommodations, for the harboring of small boats than probably any other city on the Great Lakes. Many of the less important ports afford better facilities, comparatively.

The Chicago yacht harbors—Belmont, Diversey, Monroe street, Jackson park, etc.—do not begin to provide facilities sufficient for the number of small boats seeking them, and as for visiting boats from other ports, there is absolutely no anchorage available to them. Every dock and every mooring in all the Chicago yacht harbors is occupied, and this season the Chicago park district had to reject several hundred applications of other boat owners because of lack of further facilities. If a boat owner, who has a mooring permit, lets it be known that he is leaving on a cruise for a week or two, six or more other boats come scooting out of dirty, inconvenient and unsafe mooring places along the branches of the Chicago river and fight to use the temporarily abandoned mooring.

Chicago has never done anything to encourage the small boat owner as other cities have. Instead, every obstacle is placed in his way. In the face of the conditions above described, there are now rumors that soon, possibly by next boating season, Diversey harbor in Lincoln park, which at present affords docks for about 54 boats, is to be closed as a harbor and the docks removed. Here, from the standpoint of protection for the smaller boats [16 to 50 feet in length] is what could be the best harbor in Chicago. There is ample room for building two or three times as many docks, and for anchorage for perhaps 50 additional boats besides. If such facilities were provided they would be snapped up immediately—there is a waiting list of enough boatowners seeking accommodations to use all such facilities. But, instead, it appears that this harbor is to be abolished and some fifty or more boats left without a place to go. I have a small cruiser still in dry dock because of harbor inadequacies and there are hundreds of others in the same position.

**HERRIN.**

Herrin, Ill., July 19.—In the July 18 issue of THE TRIBUNE a full page of the Graphic Section was devoted to "The Massacre of Herrin 15 Years Ago."

We people of Herrin resent this misrepresentation of facts and the warped views you have on our citizens. We consider ourselves a decent sort of people, not to be ridiculed by a tabloid paper 300 miles away. We have tried to live down your "Bloody Herrin" title and we heartily believe that more men from surrounding cities participated in the "massacre" than our own citizens.

You blamed the unions in our city, but we are proud of them. Our working conditions and standard of living probably range higher than any other city in the state and we want the country to know that we are not thugs and mobsters. W. BOREN.

**CHIGGERS.**

Chicago, July 19.—We should like to know why you consider of public interest Safety First's letter on jiggers at Turkey Run, which was plainly calculated to injure that locality.

Of course there are chiggers [not jiggers] at Turkey Run. So are there chiggers in Illinois, Wisconsin and Tennessee, from first hand experience. The writer and family have spent three July vacation periods at Turkey Run and collected no more than four or five of the pests in a three week period each time. However, if people will go around with four-fifths of their epidermis exposed, roll in tall grass, and sit on rotten logs they must expect to become the answer to a chigger's prayer.

*Good Morning!*

"My, MY! I never knew newspapers were like THAT . . . !" is apt to be one naïve comment elicited by contemplation of "Exclusive."

Well, my, my, neither did we. But almost anything CAN happen in the world known as "the fourth estate" and practically everything does in the sizzling melodrama crackling interestingly on the Chicago's screen.

Now once upon a time it seems there were two newspapers. One was a good little sheetie with an ultra noble staf, and the other was a dirta, lousa, meanie poipa got out by F-I-E-N-D-S in H-U-M-A-N F-O-R-M. . . . Tch! TCH!

Among the good men and true laboring [we now revert to present tense because it's easier to fuss around with] for law, order, and assorted decency on the Mountain Despatch—I think that's the good paper's name—are the papa and fiancé of a pretty girl employed by the R-A-T who publishes The Sentinel, and who OUGHTA be in jail and WOULDA been if a certain jury HADN'T BEEN bribed. . . . She's a nice girl and doesn't know that she's being used as a C-A-T-S-P-A-W. [Puzzle: How can a rat use a catspaw?]

With this newspaper house, as it were, divided against itself, the most amazing and spectacular events transpire. Falling elevators, gangster killings, libel suits, and police sirens startle the town. Beer and gore flow freely. And the finale is a thrilling fox hunt with Publisher Gillette [I believe I called him a rat before, but does it matter?] playing fox and the entire community impersonating baying hounds.

O, it is a MOST satisfactory chase! Because the dogs get the divil—and for a long, long time you've been sitting on the edge of your chair with your ears laid back, torn between a desire to bite Gillette and the wonder as to whether you'd be poisoned if you did.

The picture is fast paced, smartly acted and directed. It scorns not to wring a tear and it's pretty comical in spots. . . . You know those iceboxes where the light goes on when the door opens and goes off when it's closed? Well . . .

HOW DO YOU KNOW that the light DOES go out? How COULD you know? You can only trust the salesman's word unless . . .?

Messrs. MacMurray and Ruggles essay to learn about iceboxes FROM one, and hold my sides but they ARE funny . . .!

*See you tomorrow.*

### Niece of Joan Crawford with Actress for Summer

Culver City, Cal., July 23.—(AP)—There is a new boss at the Franchot Tone home. She is Joan Le Sueur, age 3, Joan Crawford's niece, her namesake and her favorite. Miss Crawford said today little Joan would be their star boarder for the summer—"at least."

## THROUGH THE LOOKING GLASS

We are almost a fanatic about the ill effects of sun on hair. Too much sun, that is. A little is probably good. But ninety per cent of us should protect our hair if we go in for sun bathing and should give it intensified good care.

That's why we're pretty crazy about a little kit—the first of its kind that we've ever seen—which we think should be tucked into every vacationer's bag. It isn't expensive; it's small and in it there are three precious aids to hair beauty that have particular merit in hot weather.

There is a bottle of tonic—enough to last the length of even a long jaunt. This will keep dandruff at bay and help maintain scalp health. It should be used every day.

There is also a jar of a cream wave set. And you know how tumbled your hair gets in the summer time. If you swim or get terribly windblown your wave is going to need attention immediately. With this cream you can do it yourelf very skilfully. Just rub some of the cream between both hands and smooth it over the surface of the wet hair, then proceed with setting your wave. It's an especially good wave setting assistant for dry hair.

But perhaps the most important item in the kit is the one we're mentioning last—an oil to be sprayed on the hair to protect it. It should be sprayed on before you venture out in the sun. It helps to keep the hair in place as well as counteract the drying effects of the sun's rays. We think all dry haired women who're vacation-bound should tote this along. Hair will look better and be better for using it.

There is even a pretty bandanna tucked into this kit. The people who make it share our belief that sun can be an enemy.

## Front Views and Profiles

*By June Provines*

IN the morning mail [from La Crosse, Wis.]: "The whereabouts of the Asp in the Warbucks story [Little Orphan Annie] is no longer a mystery. An item in the La Crosse Tribune announced that 'Mr. and Mrs. Asp and family spent the week-end in Victory, Wis.' Is there a reward?

**Discovery—Wiscasset.**

"The Norwegian."

* *

THE strange and pleasing tale that in Wiscasset, Me., there was a white New England house called the Marie Antoinette house, which had been prepared as a haven for the French queen could she make her escape from France, led us to Wiscasset in search of such a house on our recent New England motor trip. Wiscasset, situated at the end of an arm of the Atlantic in southern Maine, probably is one of the few real villages left in America. A handful of old white houses of fine architectural style stand amid ancient elms and spreading lawns, and the peace and charm of the place are an invitation to linger there in search of a life slower paced and more tranquil.

* *

THE Marie Antoinette house was not one of these, but by diligent search we did find a house across the bridge and up another road that tradition says was once expected to house the French queen. No bronze plate marks it and various wings and interior changes have been made in recent years. The house is owned and occupied in the summer by a family from White Plains, N. Y., and the son of the family, the only one at home the day of our visit, said the original furnishings had been sold years ago to various persons of the countryside. He seemed little interested, but said he had heard that a Maine sea captain named Clow had sailed to France to have his ship ready in case Marie Antoinette's escape could be effected and that the house had been prepared for her occupancy. His family had bought it thirty years previously and made various changes, he added.

* *

WE turned away a little disappointed at the end of the search for the Marie Antoinette house, but pleased that it had brought us to the enchanting village of Wiscasset. A day or so later in an antique shop in Bar Harbor we stopped to examine a tea service of antique china.

"We bought that two years ago from an old banker in Wiscasset," said the young man in charge. "He said he had bought it years ago from the Marie Antoinette house there. It had been sent over with other furnishings for her use. We have no documents to prove it, however, only the former owner's word for it, so its price is based only on the intrinsic value, not on any historical significance it might have."

* *

SO far no documentary proof of any of the tale has been unearthed, but the lines of some verses written about it come to mind:

*Suppose Marie Antoinette had come to Wiscasset,*
*Escaped from Paris violence, escaped from fear,*
*Would she have lived, soberly and quietly,*
*Talking to the women in the square white houses there?*
*Where they saw gray water, she would have seen steel flashing . . .*
. . . . . .
*And when she saw women go out into the barnyards,*
*Then she would have felt her tired heart fail,*
*Remembering the Trianon and a dress of flowered satin,*
*And herself going milking with a silver milking pail.*

## Racing, Music, Sailing Hold Interest Today

BY JUDITH CASS.

WHERE you will go this afternoon depends upon which is your chief interest, horse racing, sailing or music. If it is racing, Arlington Park will be your destination; if it is sailing, Belmont harbor will be the place near which you will park your car while you watch the start of the Mackinac race.

But if music is your hobby, then you will go to Ravinia Park, not, however, to hear music, but to see ten members of the Chicago Symphony orchestra use bats instead of bows and play baseball against a team of the Ravinia Festival association.

You may hear some music, at that, if you get to the park before the game starts at 4 o'clock, for the orchestra, under Hans Lange, will be rehersing just before the game. After the rehersal Mr. Lange will lead a parade, headed by the brass band section of the orchestra, from the pavilion to the baseball diamond, and then the fun will commence.

Upholding the honor of the musicians will be Carlo Morello, Carl Racine, Sam Dolnick and Edward Gradman, violinists: Theodore Ratzer, Harry Sturm, and Alois Trnka, cellists; Joseph Mourek, French horn player; Charles Linke and Milton Preves, viola players.

### Name Players for Festival Association.

Playing for the association will be Durand Smith, Charles Z. Henkle, Howell W. Murray, Renslow P. Sherer, Howard R. Will, Willard Boyden, Ralph H. Poole, Thomas Hart Fisher, Ambrose C. Cramer, and Francis M. Knight. The public is invited to attend the game; there will be no charge for grandstand or bleacher seats, just the usual 75 cents admission to the park.

The opposing teams will have supper together at the park before tonight's concert. Tomorrow night Mr. Knight, whose wife is in Europe, will give a buffet supper at his home in Highland Park for Mr. Lange, associate conductor of the orchestra and guest conductor of this week's Ravinia concerts. The John Welcher String quartet will give a program at the party.

### Classic to Be Run at Arlington Today.

Every one who counts racing his spectator sport will be at Arlington this afternoon to watch the running of the rich Classic. The list of luncheon reservations at the Post and Paddock is long and includes the names of all those who make it a point to spend many afternoons each July at the track.

John Hay Whitney is flying from the west to watch his chestnut colt, Flying Scot, make a try for the thirty thousand dollars which constitutes the Classic stake. Mr. and Mrs. Jesse Jones of Texas, Mr. and Mrs. Fred Fisher of Detroit, and Mr. and Mrs. E. C. Romfh of Miami, Fla., are among other out-of-towners here for the race.

Some of the many who will have luncheon parties are Mrs. Gustavus F. Swift, Mrs. Picher Purcell, Harry C. Watts, the Warren Wrights, Mr. and Mrs. John D. Hertz, the George Van Hagens, the Benjamin Behrs, the Richardson Revells, the Weymouth Kirklands, the Charles McCullochs, the Robert J. Thornes, Mr. and Mrs. Walter Cummings, the Thomas E. Wilsons, and Mrs. William M. Collins.

### Ray Johnsons Will Bring Boat Home.

For the first time in six years Ray P. Johnson Jr. will not be sailing in the Mackinac Island race, which for the 30th time is being started today from the Belmont harbor. Mr. and Mrs. Johnson have a handsome new boat, the Collette, which is at Charlevoix now, but which soon will be seen here, for they are leaving for Charlevoix today to bring her back to Chicago.

Mrs. Johnson and her sister-in-law, Mrs. Barney Goldwater, have been spending a few weeks in Charlevoix at the summer home of the senior Mrs. Johnson, who is abroad this year.

Johnson Davis, Mr. Johnson's cousin, expects to be a member of the crew of a fast new boat that is being brought here by some Toledo friends.

Another new boat which soon will be cruising in Lake Michigan is the schooner built in Nova Scotia for Mr. and Mrs. Richard S. Bull. The Bulls and their daughters, Miss Ellen, Miss Sally, and Miss Mary, were sailing her home through the Great Lakes when

## Praises Ganz Concert Given at Grant Park

BY EDWARD BARRY.

Versatility, thy name is Ganz!

When a single hour of music holds both a Haydn symphony and a Strauss waltz, and when both are performed with careful regard for their respective idioms, then a conductor, whether he wants it or not, deserves and must listen to such an apostrophe as stands at the head of this column.

The occasion for this generous handing out of titles was the twenty-third of the free Grant park concerts, played at the lake front band shell last night by the Chicago Civic Opera orchestra under the baton of Rudolph Ganz. The assisting artists were Dorothy Crost and Bernice Jacobsen, duopianists.

The Haydn symphony [No. 13, in G] was as cool and classical as any one could ask. Mr. Ganz set brisk tempi in every movement except the second and conducted with such precision that the almost architectural aspect of this rare old music was allowed its proper prominence.

In the slow movement he let the fabulously beautiful theme seem to set its own tempo, careful all the time, of course, that this comparative freedom should not be tainted with sentimentality. The actual quality of the music of this movement owed much to the remarkable cello of Johann Lingemann.

The Strauss was the "Emperor" waltz. Mr. Gantz knows how a crafty and well managed rubato can add to the attractive if somewhat beery sentiment of such music. Knows, too, of the suspense value of carrying a rhythm a split second behind the expected beat. The orchestra yearned very satisfactorily in this most yearny of all waltzes.

Miss Crost and Miss Jacobsen chose the first movement of the Mozart double concerto. Here were numberless opportunities to glory in an exquisite balance of phrase against phrase. The pianists have refined their dynamics and polished their technique to the point where both are adequate to the performance of Mozart. This seems like high praise, and it is so intended.

Tonight is a gala evening at the band shell. Marion Claire, well liked soprano of opera, radio, and [more recently] movies, has returned to Chicago and will appear as soloist with the W-G-N-MBS orchestra under the baton of her husband, Henry Weber.

## *Offer Contrast in Two Works by Americans*

BY CECIL M. SMITH.

In the first half of his program at Ravinia park last night Hans Lange placed side by side two American works of contrasting racial point of view, the Concerto Grosso for string orchestra by Ernest Bloch and the "Afro-American" symphony by William Grant Still.

Mr. Bloch, a naturalized American of Swiss birth, has made a name for himself by virtue of the intense yet sensitive Jewish feeling which pervades his music. Mr. Still is rapidly coming to the fore as one of the most convincing musical figures of his own colored race.

The Bloch Concerto Grosso is one of the fairest flowers of American music of the post-war decade. Written during an age of widespread disillusionment, it speaks with an affirmation still rare in the music of this North American continent.

The outward structure of the Concerto Grosso is a good deal like that of the familiar concertos of Bach and Handel. The inner style, however, is modern and often dissonant. Historically one of the first pieces to make music written in two keys at once seem palatable to an untrained audience, the Concerto Grosso last night showed that it possesses more than enough eloquence and power to keep it alive long after its novelty of style has worn off.

The performance of the Bloch work by the strings of the orchestra [with the assistance of Jane Anderson at the piano] demonstrated both the virtues and the weaknesses of that section. Chief among the virtues is a rich, round body of tone, full of warmth in sustained passages. Chief among the weaknesses—and this is chronic—are an unqualified heaviness in passages which ought to sparkle and glitter, and a positive uncleanliness in the playing of repeated notes and rapid figures.

Mr. Still's symphony, which is not a symphony at all, but four separate movements which do not build into a total unit, won the audience again as it did last January by the frank sentimentality of its nostalgic Negro tunes and by the dash of its jazzy scherzo.

After the intermission Mr. Lange brought to light the solo artistry of John Weicher and Robert Quick, first desk violinists of the Chicago Symphony orchestra, by presenting them in Bach's Concerto for two violins. This "sisterly discourse," as one critic has described the concerto, was played by both soloists with a happy balance between individual expressiveness and feeling for the ensemble.

Two brilliantly played war horses concluded the evening, Smetana's "The Moldau" and the standard excerpts from Berlioz' "The Damnation of Faust."

Tonight Mr. Lange will conduct a program including the first Chicago performance of Sir Henry J. Wood's arrangement of Purcell's "A Trumpet Voluntary," Rachmaninoff's Second Symphony, the Concerto Grosso by David Van Victor of the Chicago Symphony orchestra, Debussy's two Nocturnes, and the waltzes from Johann Strauss' 'Die Fledermaus."

### Mormon Pageant Marks 90th Year of Utah Trek

Palmyra, N. Y., July 23.—(AP)—Thousands of Mormon gathered here—the spot revered as the birthplace of their faith—tonight to see the history of Mormonism depicted in a great open air pageant. Members of the Church of Jesus Christ of Latter Day Saints took part in the drama on their sacred hill of Cumorah. The drama will mark the ninetieth anniversary of the arrival of Brigham Young and his band in Utah.

## Subtle Makeup Is Needed by Every Woman

BY ANTOINETTE DONNELLY.

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

It wouldn't seem necessary to advise women today to use makeup! But you'd be surprised if you knew how many still eschew its use and not for any puritanical reasons, either. They just never have acquired the habit. They have a conviction tucked away in their minds that their friends will like them just as well without makeup as with it. Sometimes they make a sort of challenge to friendship out of this stand of theirs.

Naturally, we would not agree that a warm, devoted friendship depended upon a woman's keeping her appearance topnotch. But we will say this, that the friend who likes you without makeup gets a greater kick out of the friendship when she doesn't have to say: "Anne doesn't care anything about fixing herself up, but she's a grand character, nevertheless."

We don't mean that one need paint her cheeks to excess, but with no chance under heaven of getting a glow into the cheeks and a ripe color into the lips without artificial means, we think the artificial means should be adopted.

We speak of lips, particularly. That pale, often bluish looking lip is not pleasant to view. We are not talking of elderly women, but of women getting on toward 40 or in the 40s. Their cheeks are drained of color, their lips, ditto, normally. Well, a little color would brighten their own lives and those of the people with whom they come in contact. But, of course, women who have nursed some sort of inhibition about makeup use just can't plunge in suddenly and wear it well and becomingly.

They'll need the practice a bit.

### Barbara Stanwyck Roughed by Cop in Crush at Preview

*(Picture on back page.)*

Hollywood, Cal., July 23.—(AP)—Barbara Stanwyck, mistaken for an autograph hunter, got "the works" from a policeman—and was rescued by Robert Taylor—at the preview of her newest film last night.

An old hat pulled down on her head and her coat collar flipped up, the actress was not recognized by the policeman who shoved back autograph hunters swarming around Taylor, her escort.

Miss Stanwyck attempted to follow the actor.

"No, you don't," commanded the policeman, forcibly putting her into reverse.

Once safely through the mob, Taylor found it was a strange young woman who had hold of his coattail. He rushed out again.

Miss Stanwyck sat weeping on the curb, rigorously guarded by the law.

"I'm going to sock you if you don't let her go," threatened Taylor.

By this time the policeman had discovered his mistake.

The Goldwyn press department chief, Jock Lawrence, said Miss Stanwyck suffered bruises on her arms and shoulders, for which she received a physician's treatment.

If the star was in tears before the preview of "Stella Dallas," most of the audience was red-eyed afterwards. Critics called her performance worthy of the 1937 Academy acting award.

## *Length of the Courtship Is a Minor Matter*

BY DORIS BLAKE.

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

"I noticed your article requesting that readers give their opinions on courtships," writes Jean C. "Having spent three years, prior to marriage, in a co-educational college, it interested me, too.

"I think the first consideration is not the length of time of courtship but the circumstances! I know I have many friends who, after leaving school or college, start 'going around' with some boy or man at home. One friend went with a boy for three years and then married him, but in talking with me she confided that she never knew him before they were married half as well as girls at college knew boys with whom they'd gone with for only six months or a college year. Neither did she know the boy's family well, although they lived fairly close together.

"The boy worked hard, sometimes at night. She probably saw him only four or so evenings a week and missed many Sundays. He either had to go away, or she visited school friends, while the girl at school saw her future husband every day, had classes with him sometimes, and they saw each other not always under favorable conditions. After all, one can't always be at her very best. The college pair saw each other in many moods and had plenty of time to become tired of each other. I think it much closer to a fair trial when one sees some one in many different circumstances, not only in the evening, when he calls all dressed up, looks his best and is generally on his best behavior.

"The next most important thing, I think, is seeing one's future husband, or vice versa, in your home. And going into his home, not for lunch or dinner, but for a visit, if possible. Although lots of people think they can, and a few people do, get away from their families, most often families do enter into married life to a certain degree, particularly if one has been brought up in a large, close family. If a family is honest and not snobbish, often they see further than you can into the person that you're choosing to live with the rest of your life!

"These two and three week 'whirlwind' courtships certainly are not a fair trial. I think it is more coincidence than anything else if they do work out.

"I still think the circumstances under which one sees a person mean much more than the length of time one knows them. The more normal, everyday living conditions on which you can get to see your 'choice,' the more likely the information will be correct, and you won't wake up with a shock six months after you're married, wondering who this man is to whom you are married."

### Audience Salutes Hitler; Bayreuth Festival Opens

[Copyright: 1937: By the New York Times.]

BAYREUTH, Germany, July 23.—The Bayreuth festival opened here today with Chancellor Adolf Hitler's triumphal entrance. The fuehrer rode from Haus Wahnfried through rows of storm troopers, crowds of townsfolk and visitors to the princess portal of the festival hall, where he was received by Winifred Wagner. The audience, which had assembled in advance, rose and gave the Hitler salute as the fuehrer entered his box. The series of twenty-one performances opened with "Parsifal."

### *Oxford Conference Takes Middle Ground on Church and War*

[Copyright: 1937: By the New York Times.]

OXFORD, England, July 23.—Protestant church leaders and lay members who tried to write a statement of principles regarding war revealed today that they were unable to outline a clear cut course of action to guide Christians in that emergency. Their report, adopted tonight by the world conference on church, community and state, is considered the best possible settlement on the subject.

They condemned war as an instrument of world policy, but refrained from indorsing either the extreme pacifist view or that of the man who feels that in an extreme emergency it is proper to take up arms for his country.

War itself was termed "a defiance of the righteousness of God."

### Says Hollywood Is More Puritan than Colleges

Hollywood, July 23.—(AP)—College has more temptations—and fewer chaperons—than scandal-frightened Hollywood. Take the word of young Gordon Oliver, who has been both places. Oregon State's football player of 1929-30 said today no college faculty watches its students as closely as a studio supervises its younger players.

# "I Devise and Bequeath"

**By Louise Bargelt and Fielding James**

[Copyright: 1937: By Chicago Tribune-N. Y. News Synd., Inc.]

**SYNOPSIS.**

On his return from abroad Michael Siden, heir to millions, postpones his marriage to Katharine McCann because his foster father, John Millis, tells him his foster mother is ill and needs him. Katharine's roommate, Joan, is engaged to Michael's friend, Terry Newton. From all sides Katharine is warned to break Michael away from John Millis. Millis asks Michael to sign a will making him Michael's heir. Michael signs, expecting to change the will after his marriage to Katharine. Mrs. Millis attempts suicide when she discovers her husband flirting with her nurse. Michael rescues her and agrees to take her away from Millis. Millis tricks Katharine into a ride with him and forces his kisses on her. Amos Newton, uncle of Terry, believes that Millis killed Terry's father, who was Michael's co-guardian. Michael returns to the home of Amos Newton and Katharine and he plan to be married next day, though Michael is not well. That night Michael, in delirium, returns to the Millis home, desperately ill with typhoid fever. Katharine obtains Dr. Kittredge to attend him. He refuses to send Michael to a hospital, though he installs his own assistants. Newton tells Katharine that the exhumed body of Michael's real mother showed she died of poisoning. Newton gets the assistant district attorney to hold a private hearing in the Millis home, to present his evidence against Millis. He has a witness, a self-confessed poisoner.

**INSTALMENT XXXVI.**

**EXONERATED.**

Sullivan coughed protestingly.

"Newton," he said irritably, "is this getting us anywhere?"

"He has only talked forty-five seconds, Mr. Sullivan," Katharine said scathingly. "I think it is interesting. Go on, please, Mr. Ferenzi."

The man had stood in utter dejection while Katharine spoke, and resumed with difficulty.

"My name is Ferenzi. I have a shop on lower State street, a chemist's shop. I started it to concoct face creams and hair bleaches and that sort of thing. I soon found that men came to me who wanted all manner of strange things. Drugs—cocaine and that sort of thing—I never handled. I do not mind quick, merciful death, but the living death I do not care for. But I sold ink removers for forgers, and I sold counterfeiters the tools of their trade, and I gave useful information to little cheap manufacturers about adulterants. I also gave clear directions as to useful poisons, and furnished the poison.

"As I have said, the first customer I ever had who insisted on getting acquainted with me was my friend who just referred to me so appropriately as carrion. He dropped in last June to ask me about some simple powder for rose lice. It worked well for him, and in gratitude he brought me some roses. I gave them to—to a member of my household who was ill. Mr. Millis seemed touched by her pleasure, and did her several little kindnesses.

"One day, quite without warning, he opened up his heart to me. I tried to head him off, but he laughed, a big hearty laugh, and really overwhelmed me by his animal vigor, in which he is somewhat superior to me.

"'My technique, Ferenzi, is unlike yours. I wish no silly self-deception. You deal in death. I am in the market for what you sell. You tell me how. I do it. We are partners. We profit gloriously, but we take equal chances. You will sign me a paper, saying you have sold me what I want, with a full consciousness of what I plan to do with it. Then if you choose to squeal we hang together.'

"That day I knew how low I had sunk. I was, indeed, on a level with that man. I accepted the offer, took the advance payment of $500. I prepared for the man the bacteria he wished, the typhoid germs. 'Nice and fresh and kicking?' he demanded. And I obeyed.

"I was to have a very generous sum when it was quite clear that the germs had done their work. The man did not come back. I had never troubled to so much as learn his name. I paid no attention—merely marked it off as a bad debt—until a terrible need rose in my household. Then I set my wits to work to find my patron, and groveled before him, begging abjectly for money. He kicked me downstairs. Tonight I am back. Not for money. The need is past. It is too late. I am here tonight, Mr. Thomas Sullivan, assistant state's attorney of Grand county, to ask you to arrest us both, and see that we get what is coming to us."

He turned away, and looked idly and indifferently out of the window.

"Take him out, Hobson," Millis said quietly.

"Keep your hands off, Hobson," Newton said, quite as softly, but his voice cut like sharp steel. He bowed to Ferenzi. "I think that you may go, Mr. Ferenzi," he said courteously. "You might remain within call."

When Ferenzi had walked out Newton turned a blandly inquiring gaze upon the group in the library. Millis, too, looked closely from one to another.

"Is it possible that there is anybody in this room who believes that?" he asked incredulously. "Mr. Newton must know how susceptible to blackmail in every hideous form every man is who controls a great fortune. Only one thing could excuse giving credence to this tale, and that is that Mr. Newton knows the credibility of the witness. May I ask, Mr. Newton, if you know anything about this Ferenzi?"

"Not one thing."

Kittredge had been listening absorbedly.

"Mr. Millis," he said in a defiant tone, "I know that man. I have known of him since he was a brilliant research assistant at A—— Z——. He is a degenerate. His word would be considered worthless in any court of law."

Sullivan rose to his feet.

"Now you're talking," he cried. "I have been asked to sit in tonight on one of the most refined spectacles of senseless persecution of a patient, long suffering gentleman that it has ever been my lot to witness. But we have had enough, more than enough, Mr. Newton, you have made a very poor showing. You could get no hearing in any court of law. It's tough on you, for you've gone to a hell of a lot of trouble to smear the good name of John Millis."

"Just a minute," Kittredge said, in a clear ringing voice which could not be ignored. "You interrupted me, Mr. State's Attorney. I repeat, the man Ferenzi is a degenerate. His word is worthless. And—I believe every word he said."

With which Kittredge turned on his heel and walked out of the room.

"A lot of nuts, John," Sullivan said disgustedly. "I'll go now and get the little dago. I'll lock him up. In a prison or in a madhouse. Either suits me."

He bowed, with exaggerated politeness, to the three left in the room, and departed.

"Well," said Amos Newton, "the gentleman who symbolizes the majesty of the law seems to have exonerated you, Mr. Millis. We bid you good night."

Millis looked at them, with what Katharine characterized later as a beautiful forbearing smile.

"It's downright peculiar," he protested, "that you folks don't like me, for I swear I like you all, a lot."

Katharine caught sight of Dr. Kittredge on the landing and excused herself to go to speak to him.

"Dr. Kittredge," she said hurriedly. "Will you please take me home? You go right by the house."

"Delightful suggestion!" he said heartily.

Katharine sent Hobson to break the news to her friends. Newton glanced up and bowed indifferently. Terry did not even bother to do that. They were living in their own world, those two.

"What the devil ails them?" Kittredge demanded. "I wanted to get a word with Amos, but I think I'll give it up." He looked after them as they went away together, with a troubled glance. "You may have guessed," he volunteered, "that I have reversed myself as to Amos's suspicions. I think he's damned right. . . . What is it, Hobson? A call for me? . . . Just a minute, Miss McCann."

He was back almost at once.

# "No Habit" May Harm Child

BY GLADYS HUNTINGTON BEVANS

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

It is generally believed that the average person hates to admit he's in the wrong.

But in my experience, mothers seem to be the exception. So many of them are so honest in their self-examinations and so ready to see and acknowledge their mistakes, which is, of course, the first step toward improvement. For example:

"Dear Mrs. Bevans: I am first writing you to let you know what a favor you've done for me. I've just read your column on the 'No Habit' of Mothers and I am very sorry to say I am a 'No Mother.' I might say I am the 'No Mother.'

"I have a little boy of 6 years. He's a good child, and being the only one, another no. I am not one to play with him. I know this sounds hard, but somehow I just can't do it. I find myself getting mad at nothing at all and yelling at him as if he were to blame. I have no patience with him. I've gotten into the habit of saying no, sometimes even before I know what he is going to ask."

If this mother may seem pretty hard on herself, the fact remains that many mothers do slip into such states and they not only do real harm to their children, as this mother realizes, but deprive themselves of much of the joy they could experience.

These mothers could, I believe, get practical help by doing some reading that would give them an understanding of what children are really like inside, what their deep needs are.

**Mrs. Bevans' column also appears in The Sunday Tribune.**

**The booklet, "Baking the Perfect Cake," contains 37 cake recipes, 11 frosting recipes and many pages of instruction on how to bake perfect cakes. On sale at the Tribune Public Service offices, 1 South Dearborn street and Tribune Tower, for 20 cents. By mail, 23 cents in stamps.**

BY MARY MEADE.

[Copyright: 1937: By The Chicago Tribune.]

Two layers of rich, dark devil's food floating in billows of marshmallow frosting, or two layers of tender white Lady Baltimore cake with fruity filling and fluffy topping, either of these will make a Sunday porch supper an occasion to be remembered long and lovingly.

The electric mixer will make short work of either cake, but a careful adherence to the steps in the recipe will produce a hand beaten cake of even texture and tender crum.

**Three Egg Devil's Food Cake.**

[Two 9 inch layers.]

2 cups sifted cake flour
2½ teaspoons baking powder
¼ teaspoon salt
⅔ cup butter or margarine
1½ cups sugar
3 eggs, well beaten
6 squares unsweetened chocolate, melted
¾ cup milk
1 teaspoon vanilla

Combine flour, sifted before measuring, with baking powder and salt, and resift three or four times. Cream shortening well, add sugar gradually, and beat together until the mixture is light and fluffy. Add beaten eggs, beating them in well. Next add melted chocolate and beat until smooth. Add flour alternately with milk, beating well between additions. Add vanilla last and pour into two greased layer pans. Bake at 350 degrees [moderate] for 35 minutes. Spread marshmallow seven-minute frosting between layers and on top of cake.

**Marshmallow Seven Minute Frosting.**

2 unbeaten egg whites
1½ cups sugar
5 tablespoons water
1½ tablespoons light corn sirup
1 teaspoon vanilla
1 cup quartered marshmallows

Combine egg whites, sugar, water and corn sirup in top of double boiler and beat with rotary beater until well mixed. Place over rapidly boiling water and beat constantly for 7 minutes, or until frosting will stand in peaks. Remove from boiling water. Add vanilla and marshmallows and beat until thick enough to spread.

**Lady Baltimore Cake.**

[Two 9 inch layers.]

3 cups sifted cake flour
3 teaspoons baking powder
½ cup butter or margarine
1½ cups sugar
1 cup milk
½ teaspoon lemon extract
4 egg whites, beaten stiff

Sift flour before measuring. Resift three or four times with baking powder. Cream shortening thoroughly and add sugar gradually, beating until the mixture is light and fluffy. Add flour alternately with milk, a small amount at a time, beating the batter smooth after each addition. Add flavoring and fold in egg whites quickly but thoroughly. Bake in two layers, greasing only the bottoms of the pans. The oven should be preheated to 375 degrees. Time, about 30 minutes. Spread the cooled layers with Lady Baltimore filling and frosting.

**Lady Baltimore Filling and Frosting.**

1½ cups sugar
½ teaspoon light corn sirup
⅔ cup boiling water
2 egg whites, beaten stiff
1 teaspoon vanilla
6 figs, chopped finely
½ cup chopped raisins
½ cup chopped nuts

Combine sugar, corn sirup and water. Bring quickly to a boil, stirring only until sugar is dissolved. Boil rapidly, without stirring, to the soft ball stage, or the threading stage [240 degrees]. Pour sirup in a fine stream over the egg whites, beating constantly. Add flavoring and continue to beat for 10 or 15 minutes, or until frosting is cool and of spreading consistency. Add enough frosting to fruit and nuts to make a filling which will spread easily. Spread over one layer of cake, cover with the other, and frost with the remaining cooked frosting.

## WEDDING

The marriage of Miss Jean Colver, daughter of Mrs. Arthur Colver of 215 Chestnut street, to William G. Sofield, son of Mr. and Mrs. George A. Sofield of Jersey City, N. J., will take place at 1 o'clock today at the John Timothy Stone chapel of the Fourth Presbyterian church, with a breakfast following at the Pearson hotel. The bride is a graduate of North Park college. The bridegroom is a graduate of Newark academy and is engaged in business in Gary, Ind., where he and his bride will make their home after a wedding trip to Mackinac Island.

# One Pattern—Two Dresses

**JUNIOR MISS' DRESS.**

Hard to believe, but this one simple pattern fashions two distinctly different frocks. At the left is a "partified" model ideal for all informal afternoon events and dates with one's best beau. At the right is a plainer model perfectly suited for hours in the home. It's the type of styling which flatters youthful silhouettes and shows off all their graceful lines.

The dressier model edges the square neckline with ruffling, which also is applied to the puffed sleeves in lieu of cuffs. One panel extends all the way from the neckline to the hem, whereas the other panels extend only from the waist. The result is a flatteringly long line. The sash which extends from the front panel and around the back is soft and full. All types of sheers, especially the pastel ones, are grand for this model.

The tailored version of the pattern uses rickrack braid to edge the neckline, butterfly sleeves, and sash ends. Sturdy cottons and linens are perfect for this versatile model, and dark shades are especially recommended.

Style No. 1865 is designed for sizes 11, 13, 15, 17, and 19 years. Size 15 requires 3¼ yards of 39 inch material, with ⅝ yard of 39 inch contrasting and 1½ yards of ruffling for the puffed sleeve dress.

## *Culbertson's "Gold Book of Bidding and Play"*

**Herewith is presented another portion of Mr. Culbertson's latest work on contract, the "Gold Book of Bidding and Play," which is being reproduced in this column in daily instalments.**

### THE FOUR-FIVE NO TRUMP CONVENTION.

[Copyright: 1937: By Ely Culbertson.]

A bid of four no trump, at any stage of the bidding [subject to exceptions which will be discussed later] is unconditionally forcing, requiring partner to make one response. A bid of four no trump shows either: [a] any three aces; or [b] two aces, and the king of any suit previously bid by either partner.

Since the four no trump bid is forcing for one round, it must virtually guarantee a contract of five-odd in some previously bid suit. Simply because a player has a good dinner and holds a couple of aces and a king with a smattering of queens, he does not have to rush into the danger zone of four no trump and hang partner on a losing contract of five-odd.

As a rule, players should not bid four no trump until the level of four-odd has been reached by more or less natural stages, in order that every opportunity may be had to exchange all possible information. Exceptions occur when a player holds an established suit, or such powerful support in partner's suit that no further information other than about aces and kings is necessary, or when an immediate jump to four no trump is used to prevent partner from bidding five in a minor suit.

**TODAY'S HAND.**

The bidding:

| West | North | East | South |
|---|---|---|---|
| 1 heart | Pass | Pass | 2 spades |
| Pass | 3 spades | Pass | 4 spades |
| Pass | Pass | Pass | |

West opened the heart king, then shifted to the diamond king. Dummy's ace won, and declarer immediately ruffed a low heart with the spade six. A club was then led to the jack, and a third heart ruffed with the eight. Dummy's second club entry was used to ruff a fourth heart with the nine spot. The ace of clubs then was laid down. So far declarer had run virtually no risk. West hardly could have had a singleton club, as in that event East would have had a seven card suit and would not have passed to the one heart bid.

If the club ace had been ruffed, dummy would have overruffed, and declarer's search for the spade queen would have been that much nearer a successful conclusion. West did not oblige, however. He discarded a diamond, and dummy did likewise.

Now all that declarer had to do was exit from his hand with a diamond and turn the problem of the missing trump queen over to the defenders. West could not exit without clinching the contract for declarer.

The average player probably would meet defeat on this hand, since his impulse would be to draw trumps either by straight leads or by "taking the natural finesse" through East. The safest way, by far, is not to draw trumps at all, but to get in all the low trumps through ruffs.

**TODAY'S QUESTION.**

**Question:** In response to a take-out double of one heart, should the spades or clubs be shown on the following: ♠ J 9 8 6 ♥ 10 3 ♦ 7 ♣ A 10 8 6 5 3?

**Answer:** The clubs should be shown first.

## *Lack of Addresses Rules Out Number of Letters to Sally*

BY SALLY JOY BROWN.

[Activities of the Sally Joy Brown department are sponsored by Tribune Charities, Inc.]

Some of you boys and girls are going to be a bit disappointed tomorrow when you look for your names in the list of winners which will be published, but in most cases it's your own fault. When writing your letters you'll have to be more careful, because no matter how good your letter I can't select you as my guest if you don't tell me where you live.

One little girl would most certainly have been a winner, but she signed herself simply "Mary Jones, Chicago, Ill." Too bad, but Mary won't be among the girls selected as my guests.

# Actor Leaps in Alligator Pool for Scene

BY GEORGE SHAFFER.

[Chicago Tribune Press Service.]

Hollywood, Cal., July 23.—[Special.]—For a scene in "Look Out, Mr. Moto," in which Peter Lorre plays a sinister oriental, Chick Chandler and Robert Kent, as American newsreel photographers, have a somewhat ticklish scene in which they pilot a boat through a jungle stream.

Chandler's part in the script called for him to fall out of the boat and be rescued from a pool infested with crocodiles. To do the scene realistically, Twentieth Century-Fox studio leased four eight foot alligators from the Los Angeles alligator farm.

Chandler didn't feel pleased but there was the script and there were the alligators, and Kent, who didn't have to fall out of the boat, kept cheering him up.

C. J. Sweet of the alligator farm came to the pool on the back lot of Twentieth Century-Fox studio and reassured the two actors. Sweet put on hip boots and plunged into the water with his "pets" whose snouts had been tied shut.

"See, they're perfectly harmless," said Mr. Sweet. "These are just little fellows, only eight feet long. By the time they reach a good age, say about 125 years, they'll be eighteen or twenty feet. But right now they're only playful."

While he was reassuring the actors, Sweet turned. Suddenly there was a sharp "crack" and one of the pets had slapped its trainer across the back with its long, abrasive tail. The blow nearly cost the trainer his footing, and the scales on the beast's tail tore a series of rips in Sweet's shirt.

Chandler, who had been getting ready to do his fall, looked at Kent and at the cameraman and the director and they all decided to get out of the boat and smoke one more cigaret before the scene. Chandler finally did the fall, but he was only in the water long enough to make a splash for the sound track and was climbing back into the boat almost as soon as he hit the water.

Sweet stood outside the camera range after maneuvering his four gators where the snouts and beady eyes showed to the camera. The gators were so scared when Chandler fell in that they barked like sea lions and swam away.

Another visit of the stork is expected by the Robert Youngs. The actor, now playing in "The Bride Wore Red," announced he will make no picture commitments which will take him away from Hollywood during September, when the addition is expected.

Young's wife is the former Betty Lou Henderson, a nonprofessional, with whom he attended Lincoln High school in Los Angeles. They have one daughter, Carol Ann, 3.

Four of filmland's leading names have been cast in "The Four Marys" by M-G-M. They are Myrna Loy, Franchot Tone, Rosalind Russell, and Melvyn Douglas. The story is from the original by Fannie Heaslip Lea and will be directed by Richard Thorpe. It has a New York, Connecticut and English background.

Prospects of W. C. Fields' early return to the screen were seen today when Dr. H. J. Strahearn, Paramount studio physician, gave the comedian a double okay and told him he no longer needs to report for weekly examination.

This means that Fields will go into "The Bg Broadcast of 1938" when it begins production in September. It will be the comedian's first screen appearance since "Poppy," which was released over a year ago.

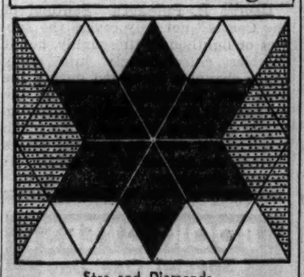
## *Hexagonal Quilt Pattern Is Most Effective Design*



Star and Diamonds.

**Patterns of this design are 5 cents, stamps or coin. Address Nancy Cabot, Chicago Tribune, or call at one of the Tribune Public Service offices, 1 South Dearborn street or Tribune Tower.**

BY NANCY CABOT.

"Star and Diamonds" is one of the most unusual of hexagonal patterns yet does not require a hexagonal block. The six pointed star and the diamonds combine to create a most effective pieced design. The entire quilt is composed of pieced blocks and set together forming an all-over pattern with vertical stripes of stars and diamond chains. It is finished with a three inch border and a one-half inch bias binding. The historical background of the quilt is lost and its exact age is unknown, but one quilt of this pattern is known in Springfield, Ill., and is 75 years old.

# *News of Radio*

BY LARRY WOLTERS.

Both the Mutual network and NBC are to broadcast the College All-Star Green Bay Packers' football game at Soldiers' field Wednesday, Sept. 1, in its entirety on a coast-to-coast basis. W-G-N, however, will be the only station carrying it in Chicago. NBC may not use any outlet within 150 miles of Chicago. The W-G-N-Mutual report of the game will be handled by Bob Elson with Coach Layden of Notre Dame and Coach Lynn Waldorf of Northwestern adding expert comment. The broadcast is to start around 8:30 p. m. and run for two hours and a quarter.

The scissors and paste crew at NBC was filling large books the other day with clippings about such matters as what Shakespearean character was interpreting John Barrymore last Monday when an onlooker observed:

"That Barrymore-Shakespeare business must have been just about the most successful publicity stunt in NBC's history?"

"Nope," one of the pasters replied, "Shakespeare didn't do as well as Minnie, the singing mouse."

Opening of Radio City was the only event that brought in more clippings than the warbling rodent. NBC's tenth anniversary—on which the network's publicist pushed the hardest—fell the flattest.

Joe E. Brown, movie comedian, arrived in town yesterday to take over a three week job of baseball broadcasting on WJJD, where he will assist John Harrington, the regular reporter. . . . Jeannette MacDonald has picked some rather tough competition for her new air series on CBS. She will have Jack Benny opposite her on NBC. . . . Ben Bernie expects to move permanently to Hollywood on Aug. 24. His picture was a box office success and so he expects to make a good many more. . . . Hollywood, by the way, will carry more than 35 major network airings this fall, 16 on NBC alone. . . . NBC has bought rights to the Louis-Farr fight on Aug. 26 with that same auto concern sponsoring it as handled the last one. . . . Francia White and Conrad Thibault are the new headliners of the Cavalcade of Music series on Wednesday evenings.

Attilio Baggiore, popular W-G-N-Mutual tenor, has gone to Hollywood to make a guest appearance tomorrow night, along with Mary Pickford, on the variety hour that regularly features W. C. Fields, Edgar Bergen, and Charley McCarthy, Don Ameche, and Dorothy Lamour. Another guest appearance or two is said to be in store for the W-G-N favorite while he is in the west.

NBC will observe a minute of silence at 11 a. m. Monday as a tribute to Anning S. Prall, chairman of the federal communications commission, who died in Maine yesterday. This will be the second such tribute in the week, the first one having been last Wednesday in memory of Marconi.

AMUSEMENTS.

Miss Ellen was stricken with appendicitis, and operated on in Buffalo.

Mr. Bull and Sally came on to Chicago, leaving the boat in Buffalo. They plan to go back east to resume the homeward journey on Tuesday, when Miss Ellen will be able to travel. The eldest Miss Bull will return to her studies at Bradford Junior college in the fall, and it is likely that she will not be introduced to society until next year.

### *Rubaiyat Will Be Strong Contender.*

A strong contender in the Mackinac race will be Nathanial Rubinkam's Rubaiyat, a fleet sloop he had built two years ago from plans by John Alden. Mr. Rubinkam is commodore of the Columbia Yacht club and of the Great Lakes Yachting association, and is one of the most enthusiastic yachtsmen on the lake.

Henry B. Babson's Maruffa is another big boat that will be out for honors in the Mackinac race. Frederick L. Spencer and Joe Moller are among the men in Mr. Babson's crew. Mrs. Babson will go north by train to join her husband at Mackinac after the race. His brother and sister-in-law, the George L. Babsons, and their sons, Jack and Joe, also will join the Maruffa there, and the six will cruise through Georgian bay for a fortnight.

The Theodore Tiekens [Betty Babson] are not going on the cruise. They are spending the summer in town. Nearly every week-end Mr. and Mrs. Tieken go out to the Babsons' farm at Grand Detour, near Dixon, Ill.

### *Gives Party Tonight for Patricia Nash.*

Miss Nancy Knode is entertaining informally at a small party tonight for her brother, Oliver M. Knode Jr., and his fiancée, Miss Patricia Nash. Their wedding will take place on Labor day at the summer home of her parents, Mr. and Mrs. James Bertram Nash of Wisconsin Rapids, Wis., on Madeline Island in Lake Superior.

Miss Frances Brinkman is giving a dinner tonight at the home of her parents, Mr. and Mrs. Harry A. Brinkman, in Hinsdale, for Miss Marianne Hoover and Carl B. Davis Jr., who are to be married Aug. 12.

The John T. Beattys are giving a cocktail party tomorrow at their new home, 1220 Locust road, Wilmette. Mrs. Beatty's sister, Miss Miriam Confer of Minneapolis, is visiting them.

### *Two Debutantes Will Have Tea Dance Sept. 11.*

Mr. and Mrs. John H. Harmon and Mr. and Mrs. George R. Jones of Highland Park have set Saturday, Sept. 11, for a tea dance they will give at the Exmoor Country club to introduce to society their daughters, Miss Emily Boulton Harmon and Miss Annette Roberts Jones. The debutantes, their assistants and escorts will stay at the club for dinner and dancing following the tea.

Miss Harmon and Miss Jones both attended the North Shore Country Day school. The former will return to Smith college in the fall, and the latter will go back to her studies at Bradford Junior college.

Mrs. Charles H. Bosworth and her daughter, Mrs. Gordon Padley, sailed Wednesday for the latter's home in England. Mrs. Bosworth will remain abroad until after Christmas.

Mr. and Mrs. John B. Morse are going to California next Thursday.

Mr. and Mrs. James Simpson are sailing from New York on the Europa today to spend several weeks abroad. They plan to visit Austria, Czechoslovokia, and Germany before sailing home from Southampton in the Bremen Aug. 28.

Mr. and Mrs. Otto Schulz [Jane Lawrence] are receiving congratulations on the birth of a son, their second child, Tuesday at St. Luke's hospital. The infant's sister is Barbara, who is nearly 2.

### *Victory Workshop.*

Mrs. Harry Kunin will open her home at 1201 Sheridan road, Highland Park, next Friday from 12 until 5:30 o'clock for an exhibit from the Victory workshop. The workshop was established four years ago to provide training for deaf and hard of hearing young people.

### WOMAN'S WORK

*By CALEB*

IT seems to me an old maxim once spoken with considerable truth and frequency is rarely heard today. "A man's work is from sun to sun, but a woman's work is never done."

Long after women stopped looming the materials used in the apparel of their families, and even after most women stopped kneading the dough for the breads their families consumed, they were still worked too hard. There was a long period through which women had a direct or indirect responsibility for old-fashioned washing and ironing and for cooking and housecleaning, which kept them quite confined within the boundaries of the family walls or yard.

Men, it was said for many years, had all the new inventions and all the conveniences. And it was largely true.

But times have changed. And with but modest means a woman nowadays may flit from morning until night and still somehow, even if she is responsible for her own housework, get everything done.

One of the latest of these housewife releasing devices is an electric stove which simply takes charge in the absence of its mistress. Would a woman like to have a well cooked dinner in the evening and yet be gone all day? She simply prepares the food for cooking and places it in her robot stove. She sets a few dials and blithely blows out of the house in mid-forenoon to be gone until twilight.

In her absence—and while her husband earns a living, we trust—she may play bridge or golf, attend garden club lectures, sew for under-privileged children, rescue mongrel dogs, or play croquet. When she comes home in the evening she will find that the stove has turned the current on at precisely the right minute, has turned it off when the food was done, and has then kept the food hot!

No man has reached the place where he would presume to trade responsibilities with a woman, I dare say, but certainly we will have to look far for something which once set in motion in the morning will do our work for us until evening.

Will we some day say, "A man's work is from sun to sun, but a woman must only get things begun"? The department store is helping to speed such a day.

# U. S. JUDGE CITES 10 C. I. O. MEN FOR COURT CONTEMPT

## Charges They Violated Picket Injunction.

Danville, Ill., July 23.—[Special.]—Contempt citations against ten C. I. O. members were issued by Federal Judge Walter C. Lindley here today.

Judge Lindley ordered them to show cause on July 28 why warants shouldn't be issued for their arrest on charges of violating an injunction he issued against mass picketing and violence at the strike-bound Bike-Web Manufacturing company in South Bend.

**Actions on Company Petition.**

The action was taken upon the petition of the Kendall company, of which the Bike-Web concern, makers of athletic appurtenances, is a subsidiary.

Three thousand C. I. O. members flouted the federal court injunction yesterday by resisting five attempts of authorities to conduct 60 workers into the South Bend plant, which has been closed since June 21. United States marshal's deputies escorted the workers on three of the tries.

**Jailed Six Days and Fined $25.**

The ten men and women cited by the court are headed by Alex Garber of Chicago, a professional C. I. O. organizer who started his agitating in South Bend after Rochelle, Ill., had been made "too hot" for him.

After spending six days in jail in Rochelle, Garber was fined $25 and costs on his plea of guilty to a charge of unlawful assembly in connection with a meeting in the Rochelle city park. After police averted a clash between C. I. O. members and loyal workers of the Caron Spinning mills there, the workers drove all of the organizing party except Garber and a companion out of town.

Garber and his henchman were locked up in jail. The other organizer, John Malone, was subsequently fined $100 on an unlawful assembly charge after he was found guilty by a jury. Garber thereupon pleaded guilty on July 1 and was fined.

**Organize Men Sympathizers.**

A week later his presence among disgruntled Bike-Web workers at South Bend was noted. Groups of men sympathizers were organized to support the striking plant workers, most of whom are women. The organizers' efforts were climaxed with their resistance of federal authorities yesterday.

The others named by Judge Lindley in his citation order are Harold Gibbons, another C. I. O. organizer from Chicago; Peter Szabo, Robert Wersiting, Alice Polcyne, Josephine Kryza, Beatrice Schonberg, Catherine Molnar, Dorothy Filcak, and Vendetta Baughman.

# DELAY ORDERED IN GREEN TRIAL BY MINE UNION

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—[Special.]—Trial of William Green, president of the American Federation of Labor, on charges of "treason" against the United Mine Workers of America was referred to the January convention of the miners' union by its executive committee today.

By countenancing the delay John L. Lewis, president of the mine workers and chairman of the federation's foe, the Committee for Industrial Organization, sidestepped tangling with his rival until after the federation takes action at its convention this summer on expulsion of C. I. O. units from its ranks. The federation will hold its convention next month in Denver.

The so-called "treason" charges against Green grow out of granting A. F. of L. charters to the progressive mine workers, a rival organization of Lewis' U. M. W. A. When he was notified of the executive committee action, Green declined to say what he would do when the convention meets.

"I am of the opinion that I could not comment on this action now," he said. "My decision as to what I shall do will be determined by the nature of any notice I may receive."

# LIONS MEMBERS URGED TO AID WAR ON SYPHILIS

*(Picture on back page.)*

A resolution urging its members to assist in dissemination of knowledge and means of control of syphilis and gonnorhea was adopted by Lions International yesterday as its 21st annual convention came to a close in the Civic Opera house.

Resolutions also were adopted indorsing a tribute to Helen Keller and the American Foundation for the Blind, approving legislation to allow blind persons to operate concessions in federal buildings, and designating the second Friday in April as Children's Appreciation day. Child welfare work and blind assistance programs have long been major activities of Lions clubs.

Edwin R. Kingsley, Parkersburg, W. Va., retiring international president, turned over the gavel to the incoming president, Frank V. Birch of Milwaukee. Oakland, Cal., was chosen as the 1938 convention city.

## *Richard Bennett, Actor, Bankrupt; Owes $6,157*

New York, July 23.—(AP)—Richard Bennett, father of Constance and Joan Bennett, movie actresses, filed a voluntary petition in bankruptcy today. The veteran actor, a star on stage and screen, listed liabilities totaling $6,157 and no assets aside from insurance policies with a contingent value of $50,000, payable to Angela Raisch Hastings Bennett, his second wife, whom he wed in Chicago in 1927. They have been separated since 1934.

# *CITY-WIDE POLL SEEKS VIEWS ON SYPHILIS TESTS*

## *Every Home Is Urged to Support Drive.*

[Continued from first page.]

Frank J. Jirka, state health director; Dr. Oliver C. Wenger, specialist in the United States public health service under Dr. Thomas Parran Jr., surgeon general, who launched a nation-wide drive, and Dr. Bundesen.

As returns from the poll come in, the health agencies will have a basis for planning the laboratory needs for giving the blood tests.

**How Tests Will Be Made.**

Citizens taking the test, it is planned, are to go to their own private physician who will take blood samples. These will be sent to the laboratories under code numbers. It will be secret, no names on the laboratory records, only numbers. Results of the tests thus will be confidential between the individual and his physician.

After it is found who have the disease and who are free from it then will come the next step, that of treatment. Once it is out in the open, the medical agencies hold that syphilis can be brought under control just as diphtheria, typhoid, cholera, scarlet fever, or tuberculosis.

Backing the poll are women's and civic clubs, social workers and an array of leaders in industry, medicine, religion, business, labor and education on Mayor Kelly's committee of 400. Ministers are to be asked to indorse the poll from their pulpits.

**Indorsements of Program.**

To some 2,000 different organizations, the Illinois Social Hygiene league has sent a letter through Dr. Rachelle S. Yarros, its secretary, saying: "The Chicago syphilis control program is now under way. A poll will soon be conducted to ascertain how many Chicago citizens are interested enough to have a blood test made on themselves and family to see if they are free from syphilis. We are thoroughly in sympathy with this effort, because it is an outstanding step towards syphilis control, and urge your coöperation."

To the members of the Chicago Urban league, A. L. Foster, secretary, yesterday sent a letter regarding the poll to find out how many citizens are willing to have a blood test taken. It read: "We understand that this test will be given by the individual's personal physician and will be without cost to the applicant. We also understand that the person making the vote will not be required or expected to sign the ballot. After very careful consideration, the Chicago Urban league indorses the plan and expresses the hope that you will consent to participate in this voting."

**Mothers to Be Contacted.**

After the first batches of ballots have gone out, a postcard is to be sent out by Dr. Bundesen to 350,000 Chicago mothers, saying:

"On many occasions in the past, I have written you on important matters pertaining to the health of your baby. Never during that time have I sent you a more urgent message than this. Within the next few days, the postman will leave with you a very important message concerning the health and welfare of your family as well as the entire community. When you receive this letter, read it carefully, consider what it means to you and your children, the young men and women, the citizens of tomorrow."

Chicago was chosen as the first city for a referendum on syphilis control by voluntary secret blood tests because of the lead taken by THE TRIBUNE in its long campaign to bring the scourge of venereal disease into the open where it can be fought.

**Long Campaign Is Cited.**

"The reason Chicago was selected by the public health service for this poll," said Dr. Schmidt, "is because it is the community in which THE TRIBUNE has hammered away year after year for the treatment of syphilis as a public health menace, as a medical problem rather than a social offense. The attitude of the Chicago public has now been changed until the problem has been lifted out of superstition, ignorance, and false modesty.

"Chicago is thus the logical city for the first popular referendum and actual census on abatement of syphilis. This plague can be brought under control just as was tuberculosis a few decades ago. Other cities are already inquiring about the drive projected in Chicago."

Chicago is syphilis-minded as a result of THE TRIBUNE'S long campaign," said Dr. Wenger. "That is why it was selected by the public health service for this referendum to line up the citizens voluntarily and in secret behind the drive of the health authorities to wipe out this scourge. What this program aims at is to put the 3½ million population of Chicago voluntarily through a sieve by means of voluntary, secret, and free blood tests. Those free from the disease will pass through the sieve; the others will be sifted out and for the first time we will have an actual census of syphilis and it will be out in the open where we can combat it with medical methods."

## *Edna Millay's Poetry Turns Conversational*

### *Brilliant Effect Achieved in This Volume.*

BY FANNY BUTCHER.

*"Conversation at Midnight," by Edna St. Vincent Millay.* [Harpers, $2.] Published Wednesday.

IMAGINE a group of eight men, ranging in age from young to old, ranging in both temperament and politics from ultraconservative to ultraradical, sitting down to talk after a good dinner in a pleasant house, unhampered by womenkind and the demands of chitter - chatter. Imagine yourself an invisible guest.

Edna St. Vincent Millay.

That is the setting for "Conversation at Midnight." With high dramatic skill Edna Millay has put into their separate and so very divergent mouths poetry, at times of the first water as sheer poetry, always a poetic speech which seems as truly each man's language as the most idiomatic prose. She has succeeded in one of the most difficult of all creative feats. She has created character through conversation alone, and she has done what all great and true poetry does—made an essence of essentials.

As conversation, these flowing lines give the effect of a literal transfixing of modern talk, and yet they are in the true form and in the sense of poetry.

These eight men disagree about love, about politics, about the state of the world and its future. One is a passionate communist and gifted with arguments; his opponent is quite as passionate and quite as gifted a protestant for the capitalistic state. Humor interlards the deadly serious talk. Conversation flies from religion to a horse race. One man declares that in two wars in one generation:

We have lost our innocence . . . of which it might be said
That it is not like hair, which renews
Itself, but like a tooth which once extracted does not grow again.

Another, in reply to "midnight in New York; it must be almost dawn now in Paris," says:

I fear not friend; I fear that in Paris, too,
It is midnight. Midnight in London; midnight in Madrid.
The whole round world rolling in darkness, as if it feared an air raid,
Not a mortal soul that can see his hand before his face.

Another, rebutting the declaration, "that's what you are, a colony of ants," asserts:

A man will never be such a good ant as an ant is.

And then a final cry of:

O, God, why live, to breathe prescribed and rationed air!—All free
Opinion, all interchange of vigorous thought, suffocated
By the poisonous motor exhaust of motor minds!

Profundities about our life today essenced into words fill the pages of "Conversation at Midnight." It is a remarkable poetic indictment of modern life.

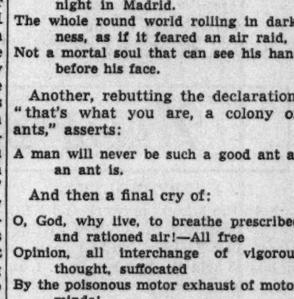
## *Volume Lists 'Best' Books Published in Recent Years*

The 400 "best" books published between 1926 and 1935 are listed in "The Best Books of the Decade" by Asa Don Dickinson [H. W. Wilson, $2]. The books were selected by a consensus of "best book lists" compiled by competent authorities.



"The whistle shrilled, and in a moment I was chugging out of Grand Central, bound for the movie world, followed only by the anguished cries of relatives who would now have to go to work. . . . ## Book Views in Brief

### *An Englishman's Ideas About Edgar Allen Poe.*

*"Edgar Allan Poe," by Edward Shanks.* [Macmillan, $2.]

In this little volume Mr. Shanks tells us [1] that Poe was a genius, which we know, and [2] that Poe was a drunken bum, which most of us have had the decency to forget. He reminds us that America was a terrible place in the early 1800s and that in cultured England Poe might have become really great [like Mr. Shanks?]. Dickens and Mrs. Trollope did this sort of thing much better than their countryman has been able to do. C. L.

### *Lewisohn's New Novel Scans Wide Panorama.*

*"Trumpets of Jubilee," by Ludwig Lewisohn.* [Harpers, $2.50.]

Ludwig Lewisohn's first novel in three years is part tract and part prophecy, which would be an indictment of any story less infused by the fire of intense conviction.

From a story of racial conflict in Germany, Mr. Lewisohn's novel rises to apocalyptic heights. It begins in a spirit of bitter realism with the tragedy of Kurt Weiss, an attorney who has bartered his cultural heritage as a Jew to be wholly German. Then his beloved Germany, under Hitler, disowns him and finally he is brutally assassinated by the Nazis.

His wife and son, Gabriel, flee to the United States. The boy grows up in a world locked in a death struggle between democracy and the armies of Fascism and communism. Gabriel fights on the side of the angels, and the social program which he advocates—Zionism, peace, interdenominational discussion, and education—is Mr. Lewisohn's attempt to find the righteousness among us which would spare the world from the fate that overtook the Cities of the Plain.

But America is swept into the world's last struggle, and Gabriel leaves wife and child for the front. Then the mood of the novel changes again, and in an epilogue that has the grave simplicity of a myth, Mr. Lewisohn writes of a new race of primitive men beginning again the long, hard road upward against the forces of intolerance, ignorance, and tyranny. R. P. Mac.

### *Quartet of Good Books with a Sea Salt Flavor.*

*"The Masts of Gloucester: Recollections of a Fisherman," by Raymond McFarland.* [Norton, $3.]

*"The Sea Made Men," by Roger W. Babson.* [Revell, $2.50.]

*"Tigers of the Sea," by Col. Hugh D. Wise.* [Derrydale Press, $10.]

*"Sentinel of the Coasts: The Log of a Lighthouse Engineer," by George R. Putnam.* [Norton, $3.50.]

Two of the above four books on the sea are about the world famous Gloucester seamen. "The Masts of Gloucester" is a finely written, vivid picture of the days of sail, when the fishing fleet of the famous Massachusetts town was known 'round the world. Through this picturesque portrayal of deep sea fishing along the New England coast the author has woven the exciting exploits of one of the famous skippers of Gloucester, his uncle, Capt. John McFarland. The book is splendidly illustrated.

"The Sea Made Men" is a quaint but spirited autobiography of a Gloucester man's life at sea from 1822 to 1842. These two decades cover nearly the entire world and are full of interesting and picturesque incidents.

Col. Hugh D. Wise, in his "Tigers of the Sea," tells of the comparatively unknown sport of fishing for sharks with rod and reel. In addition to being an outstanding book on salt water piscatorial pleasures this unusually attractive volume tells just about everything one would like to know about the much dreaded ocean gangster.

George R. Putnam's "Sentinel of the Coasts" not only covers the subject of lighthouses thoroughly, but it rambles entertainingly into many other channels navigated during the long and interesting career of the author. It is an absorbing autobiography of a man who has done much government work in far-flung places—from the tropics to the arctic. It is well illustrated. A. C.

## *Lamson Writes Second Tale on Unusual Theme*

### *It's New Story of False Murder Conviction.*

*"Whirlpool," by David Lamson.* [Scribners, $2.50.] Published yesterday.

DAVID LAMSON, author of "We Who Are About to Die," one of the remarkable documents of our day—the true record of an innocent man's arrest, indictment, conviction, and sentence to death—has used in a novel called "Whirlpool" the material which he gathered so grimly in his years as a condemned murderer.

It is a story of a man falsely accused of murdering his brother, convicted on purely circumstantial evidence, and by a vicious circle of politics, his own unsociableness and the business and social friendships of a community.

Just like its author, the book's hero found himself accused of a murder which he had not committed, but, unlike its author—with friends who created powerful public opinion for him to oppose the frenzy of the public—Hannibal Norfolk passed his bitter days almost unbefriended and came in the end to a fate ironic as well as tragic.

Mr. Lamson brings back the "murdered" man too late to save his brother, but not too late to wreak on himself the vengeance of a community which hated almost as much being proved wrong as it hated murder.

This novel lacks the profound factualness of "We Who Are About to Die," and I suspect that is not so good a novel as the uniqueness of the theme leads the reader to think, but it is a book you won't forget.

### *Divorce As It Is Viewed Through a Child's Eyes.*

*"Nothing Is Safe," by E. M. Delafield.* [Harpers, $2.50.] Published Wednesday.

E. M. Delafield has deserted her charming "Provincial Lady" for a charming young lady, aged ten, in "Nothing Is Safe." Through her eyes the reader sees what life can be like for the children of divorced parents.

The child is not emotionally affected by the divorce—except when it also divorces their dog — and she is more uncomfortable than unhappy in her shiftings from one household to another, never knowing from one day to the next what to tie to. But she is terribly upset about what all the moving about and sharp words on the part of stepfather and casualness on the part of stepmother are doing to her two and a half years older brother.

Julia is an amusing little creature [it sometimes just a wee bit more all-knowing that most of the 10 year olds we know] and this is an intriguing as well as a convincing picture of divorce from a child's eyes. F. B.

## BILL MEHLHORN'S 70 LEADS IN CHICAGO OPEN GOLF

## PLAYS MEDINAH NO. 3 COURSE IN SHOT UNDER PAR

### Laffoon, Dodson and Penna Get 72s.

BY CHARLES BARTLETT.

*(Pictures on back page.)*

Wild William Melhorn, the Louisville professional, came to his old home town yesterday for its biggest golf event, the $10,000 Chicago open tournament, and when the day was over he was leading a field of 440 pros and amateurs with a fancy 70, one under par for the Medinah Country club's championship No. 3 course.

Wild William, who was born and reared on the north side, belied his sobriquet as he swung over the No. 3 lot with a cigaret functioning steadily beneath the brim of his ever present sombrero. He was the only one in the huge party to lick par, either on the No. 3 or No. 1 course. He fired four birdies at the yardage which usually has our best golfing citizens quaking in their knickers, including a 65 foot chip shot at the third hole.

The No. 1 course, reckoned to be a slightly softer touch than No. 3, proved to be even more difficult for those assigned to it for yesterday's first 18 holes. Three young men came fairly close to approximating its par of 70. This trio of 72 shooters consisted of Ky Laffoon of Northmoor, Charley Penna of the home club, and Leonard Dodson of Springfield, Mo.

**Sarazen Gets a 72.**

Two shots back of Mehlhorn in the struggle with No. 3 were Squire Gene Sarazen of Brookfield Center, Conn.; George Smith of Onwentsia, and Harry Ransom, a visitor from Bryan, Tex. Four 73 scorers followed them, including Horton Smith of Oak Park, Harry Cooper of Chicago, the tournament favorite who has never run second at Medinah; Jimmy Foulis of Ruth Lake, and Archie Hambrick of Decatur, Ill.

Bill Heinlein, the lean Hoosier; Paul Runyan of White Plains, N. Y., and Phil Greenwald of Madison, Wis., did 74s on the dreaded No. 3.

Following Laffoon, Penna, and Dodson on the No. 1 course were Bud Williamson of Fort Wayne and Sam Snead, who was runnerup in the open to Ralph Guldahl's world record 281, Guldahl posted a 76.

Grouped at 74 on No. 1 were Gus Moreland of Peoria, Jimmy Hines, Metropolitan open titleholder from Garden City, N. Y.; Harry Adams of Chicago, Henry Kaiser of St. Louis, Sam Bernardi of Old Elm, and Clarence Yockey, the Kansas City flyweight pro.

**Play Second 18 Today.**

Another 18 will be transacted today, when the 5,000 fans who either tramped after their favorites or waited for them in the bleachers erected about strategic greens, is expected to be doubled. The low 50 professionals and 25 amateurs, together with ties in each class, will qualify for tomorrow's final 36 holes, all of which will be argued over the No. 3 layout.

Both courses took their toll of a number of the stars in the field, although none of the featured visitors required the 20 shots taken by one hapless gent, who exhausted 20 swings in holing out on the water second of the No. 3 course.

As for those who didn't quite get away on the basis of their performance charts, there were several. Tommy Armour, the host pro; Johnny Lehman, Chicago district amateur champion; Jimmy Thomson, he of the booming drives, and Sam Parks, 1935

## TOP 3 YEAR OLDS RACE TODAY IN $30,000 STAKES

### Pompoon the Favorite at Arlington.

**The Field**

THE following is a list of the entries, arranged according to post positions, for the ninth running of the $30,000 Classic stakes:

| Horse. | Weight. | Jocky. | Prob. Odds. |
|---|---|---|---|
| Gerald | 118 | C. Corbett | 30-1 |
| Flying Scot | 123 | J. Gilbert | 7-2 |
| Gosum | 118 | I. Anderson | 30-1 |
| Eagle Pass | 118 | L. Haas | 3-1 |
| Dellor | 118 | C. Stevenson | 12-1 |
| Pompoon | 121 | W. D. Wright | 6-5 |
| Sunset Trail II | 121 | G. Smith | 20-1 |
| Burning Star | 118 | A. Robertson | 6-1 |

BY FRENCH LANE.

A small but select field of eight—the best thoroughbreds that are left in the gruelling battle for the 3 year old championship—will come together in the ninth running of the $30,000 Arlington Classic stakes this afternoon.

According to the way the betting was going last night, Jerome H. Louchheim's Pompoon will be the winner, Eagle Pass will finish second and John Hay Whitney's Flying Scot third.

But when a stake of such value and prestige is run, those who back their judgment of horse flesh with a wager are wrong just about as often as they are right. Still, if it is a truly run race, Pompoon should win.

**40,000 May Watch Race.**

Because the Classic is the most famous of all the midsummer 3 year old fixtures, a crowd of 40,000 or more will see the race. The crowd will come from every part of the country because the Classic, each year since it was first run, has played a most important part in the outcome of the 3 year old championship race.

Beaten seven times in the first eight runnings by horses from the east, the western owners believe they have a royal chance today to break up that steady parade of prize money back to the Atlantic seaboard.

Eagle Pass, the Texas colt which hit his stride more than a month ago in the Latonia Derby, when he finished a close second to Reaping Reward, may be the one to turn the trick. Since that race he has scored two impressive victories over Classic eligibles. Both races, however, were at shorter distances. On both occasions he clinched his victory by coming from behind in the stretch. He should be running fast and gamely in the final stages of today's mile and a quarter race.

**And Burning Star, Too.**

Burning Star also tuned up for the Classic with a smashing victory at Arlington Park, and so did Warren Wright's Gosum. Sunset Trail II., an Irish bred colt and the lone representative of California, also has been showing steady improvement since he started his campaign at Arlington.

Flying Scot, John Hay Whitney's color bearer from the east, has shown a decided liking for Arlington ever since his arrival two weeks ago. He is ready for his best race.

Pompoon, a front runner last year but which came from behind in the best races he has run as a 3 year old, again may make the early pace today. Many others believe that Flying Scot will make the early pace—that Pompoon will force it. Gerald should be right with them in the early stages.

Burning Star, Dellor, Gosum, and Eagle Pass are all slow beginners and "come from behind" horses. The slowest of them all to get into his stride has been Eagle Pass. So if the two easterners and Gerald do not get too far in front, the stretch battle in the Classic should add a new chapter of thrills to the history of the race.

### CLASSIC FAVORITE

Pompoon, favorite in the $30,000 Classic stakes, which will be run today at Arlington Park. An attendance of 40,000 is expected.

## CUBS TAKE LEAD OF TWO GAMES; POUND HUBBELL

### Charley Root Rescues Curt Davis.

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

New York, July 23.—The pennant seeking Cubs marched onto the famous Polo grounds, home of the Giants today and remained long enough to annihilate the team that is trying to dispute their progress toward a world series. The Chicagoans did more than register an 11 to 3 triumph. They battered into submission the monarch of southpaws, Carl Hubbell, and increased their advantage over their pursuers to two games.

It was a show in itself to see the blasting Bruins blow the great Hubbell to bits through eight innings, but this was only part of the spectacle. The other part was old Charley Root who usually turns up when the going is tough. The 38 year old wizard had to respond again as a rescuer. The call came early. So early in fact that the first inning hadn't been completed because of the frailties of Curt Davis. Root remained to the finish and the Giants never peeped above a whisper.

**Root Rescues Davis.**

Davis' start, his third of the year, was a sorry effort because he had nothing, not even control. He tried to pitch to seven batters. He hit two of them, walked one, and two others singled. This sent the Giants off to a two run start and with the bags still loaded Root came in to serve a strikeout and thus end the torture. Then he went about the business of winning his tenth of the year.

He did it on a yield of five hits, one of which was a dinky homer by Joe Moore in the third.

Hubbell held off the Cubs for only two innings, although the run scored in the third was mainly the result of comical fielding. The Cubs scored one on him legitimately in the fourth, but still were one behind. In the sixth they finally cut loose. Rip Collins sailed his No. 15 homer into the seats with a mate on base, putting the Chicagoans ahead. They added another in the seventh. In the eighth came another pair, one on Frank Demaree's ninth homer. In the ninth nothing less than four registered, but by this time Hubbell was gone. The victim of this final slapping was Tom Baker, ex-Dodger.

**Marty Does Some Hitting.**

The most valuable of the Cub hitting broke out in an unexpected spot. Because Hubbell was in action and seeking his sixth straight, Acting Manager Gabby Hartnett dropped Joe Marty, right handed swinger, in center field. The Coast league graduate singled in the third to figure in the run which Giant blunders made possible. He singled in the seventh to start another run on its way. He doubled in the eighth to account for the

## MAYOR KELLY PICKS A STRONG ALL-STAR TEAM

[POLL ON PAGE 13.]

Mayor Edward J. Kelly, whose favorite sport is football, yesterday named a College All-American team which he thinks is strong enough to put up a great battle against the Green Bay Packers, world's professional champions, in the fourth annual All-Star game at Soldiers' field the night of Sept. 1.

"I won't predict victory for my team," the mayor said, "but it will give a good account of itself against the professional champions. The city of Chicago will be the real victor. The game encourages thousands of out of town fans to visit Chicago and enjoy our hospitality. May the better team win." Mayor Kelly's team follows:

ENDS—Wendt, Ohio State; Nelson, Illinois.
TACKLES—Steinkemper, Notre Dame, and Widseth, Minnesota.
GUARDS—Reid, Northwestern, and Glassford, Pittsburgh.
CENTER—Svendsen, Minnesota.
QUARTER BACK—Guepe, Marquette.
HALF BACKS—Meyer, Army, and Drake, Purdue.
FULL BACK—Francis, Nebraska.

State's Attorney Thomas Courtney and Ald. Roger Kiley, former Notre Dame star, also picked teams. Gaynell Tinsley, Louisiana State's great end, was named on their squads, which follow:

**COURTNEY'S.**

ENDS—Tinsley, Louisiana State, and Kelley, Yale.
TACKLES—Widseth, Minnesota, and Dantell, Pittsburgh.
GUARDS—Lautar Notre Dame, and Reid, Northwestern.
CENTER—Basrak, Duquesne.
QUARTER BACK—Huffman, Indiana.
HALF BACKS—Bulvid, Marquette, and La Rue, Pittsburgh.
FULL BACK—Francis, Nebraska.

**KILEY'S.**

ENDS—Tinsley, Louisiana State, and Kelley, Yale.
TACKLES—Widseth, Minnesota, and Dantell, Pittsburgh.
GUARDS—Starcevich, Washington, and Lautar, Notre Dame.
CENTER—Stewart, Louisiana State.

### 4 RUN ATTACK IN 2D INNING JOLTS RUFFING

### Kreevich Hits Triple with Bases Full.

BY EDWARD BURNS.

The New York Yankees, the big bullies, didn't scare our White Sox yesterday. As a matter of fact the White Sox scared the Yankees into doing a lot of foolish things and gave them a 9 to 6 licking on top of everything to take a 6 to 5 edge on the champions in the season series.

The victory might have been even more decisive if the Sox hadn't impersonated the rest of the American league in the ninth, when they got panicky in the presence of the great men and gave the New Yorkers three consolation markers.

**42,000 See Game.**

The contest, played before a ladies' day crowd of 42,000, was a mighty fine show. Joe Di Maggio, main factor in the Yankees' success in terrifying the American league other than the White Sox, lived up to his billings for the ladies despite the embarrassment of his outfit. Joe drove in two runs in the first inning with a homer, later added a single and a ninth inning triple, and executed several circus catches. There was no objection to Joe's showing off, of course, so long as he was unable to bust up the ball game.

The White Sox also had a center fielder in the game. A fellow named Mike Kreevich was the No. 1 hero of the afternoon. Mike tripled with the bases full in the second inning and scored on Dixie Walker's single. Charley Ruffing, Yankee right-handed ace, never seemed the same thereafter.

**Whitehead Winning Pitcher.**

Ruffing was after his seventh straight victory and his thirteenth of the season. It was especially shocking to Charley that Mike should be the fellow to knock him loose from his ears, for he had vowed some sort of revenge when Mike clicked him for a homer with two on for a Sox victory at the Yankee stadium.

Johnny Whitehead was the winning pitcher and richly deserved the verdict though he tired in the ninth and was replaced by Clint Brown. All the Yankee runs scored while Whitehead was pitching were made on homers, that one of DiMaggio's and shots with none on by Red Rolfe and Jake Powell, but otherwise the large Texan was pretty slick. And can that guy hit! He made two singles, scoring after each, and he drove in another run on a long fly.

**Di Maggio Hits Homer.**

Di Maggio didn't wait to put on his famous homer act. With one down in the first inning Rolfe singled, whereupon Joe lined his No. 26 homer into the center field corner of the left field grand stand to get the Yanks off to a two run lead.

And here is the log of the Sox activities in the second: With one down Berger singled to center. Sewell flied to Henrich for the second out but Whitehead singled to center, Berger stopping at second. Hayes walked, filling the bases. Then Kreevich smashed that triple scoring Berger, Whitehead, and Hayes. Mike scored on the first of Walker's pro-

# 45 SAILBOATS START RACE TO MACKINAC TODAY

## Record Fleet Will Leave from Belmont Harbor.

A record fleet of forty-five yachts will start from Belmont harbor this afternoon in the thirtieth annual Chicago to Mackinac Island race. Arrangements for patroling the 400 to 550 statute mile passage have been made by the Chicago Yacht club's race committee.

Twelve yacht club burgees will be flying from the signal halyards of the competing yachts, which hail from ports in Ohio, Michigan, Indiana, Wisconsin, and Illinois.

**Southern Cross to Race.**

The commodore of the Lake Michigan Yachting association, Robert P. Benedict Jr., will be sailing his 55 foot flagship, the yawl Southern Cross, in the race. David C. Zimmerman, head of the association last year, will serve aboard Milton Friend's 36 foot cutter Betty Bro as mainsheet man.

Paul Levy, 16, reported to be the youngest member of any crew in the race, will sail on Clyde Larish's new Wind Song. Young Levy is commodore of the Lane Tech Yacht club, a club for boys in boat building and racing sponsored by the Chicago park district and the L. M. Y. A.

**Here are Starting Times.**

Starting times for the three classes, off Belmont harbor entrance today, follow:

1:30 p. m.—Half hour signal [gun only].
1:50 p. m.—Warning signal [white flag].
1:55 p. m.—Preparatory signal [blue flag].
2 p. m.—START: Universal [racing] division [RED FLAG].
2:20 p. m.—Warning gun [white flag].
2:25 p. m.—Preparatory signal [blue flag].
2:30 p. m.—START: Cruising [class B] division [RED FLAG]
2:50 p. m.—Warning gun [white flag].
2:55 p. m.—Preparatory signal [blue flag].
3 p. m.—START: Cruising [class A] division [RED FLAG].

The racing division includes all 8-meter, Q, 10-meter, P, sloops and racing schooners and yawls. Class A consists of cruising sailers more than 45 feet overall, while class B is for cruising craft under 45 feet.

The Chicago Yacht club's race committee, which has made all arrangements for the race, consists of Byron Willis, Chauncey M. Briggs, and John Steiber.

**Cutter to Patrol Course.**

Dr. Hollis Potter will be official observer for the Chicago Y. C. aboard the coast guard cutter Escanaba. The Escanaba, a 165 foot steam turbine vessel in command of Lieutenant Commander R. J. Mauerman, will patrol the course from start to finish. It will be joined by the Chicago 125 foot cutter Rush and the Two Rivers, Wis., 100 foot patrol boat Perry in northern Lake Michigan to check on the progress of the contesting yachts.

# Abandon Plans for Armstrong, Day Fight Here

Plans to present a lightweight fight between Henry Armstrong, featherweight champion, and Davey Day, Illinois' No. 1 135 pound contender, at Comiskey park next month have been abandoned by Co-Promoters Irving Schoenwald and Jack Begun following inability to obtain a definite reply from Eddie Mead, representative of Armstrong.

Day's next bout will be against Johnny Durso of Louisville, Ky., at Marigold Gardens Monday. It is for ten rounds. Among the supporting matches:

Jack Fargo vs. Bernie Bowman [5], heavyweights.
Georgie Feist vs. Henry Cullen [4], 126.
Tony Zale vs. Bob Gerry [4], 160.
Johnny Page vs. Harry Booker [4], 135.

After Monday's card is held the following encounters are proposed at Marigold:

AUG. 2—Pete Lello vs Everett [Young] Simington, lightweights; Johnny Barara vs. Henry Schaft, welterweights; Billy Marquart vs. Pat Robertson, featherweights, and Frankie Sagillo vs. Remo Fernandez, welterweights, each eight rounds.

AUG. 9—Jimmy Christy vs. Sammy Angott [10], lightweights.

AUG. 16—Harold Brown vs. George Salvadore [10], welterweights.

Frankie Jarr, Indianapolis featherweight, yesterday was signed to meet Mickey Beal in an eight round fight at Western stadium Tuesday. . . . Billy Burns, Denver, Colo., heavyweight wrestler, has agreed to make his Chicago debut against Mike Kilons in a semi-windup to the main event between Chief Sanooke and Abie Kaplan at White City Monday.

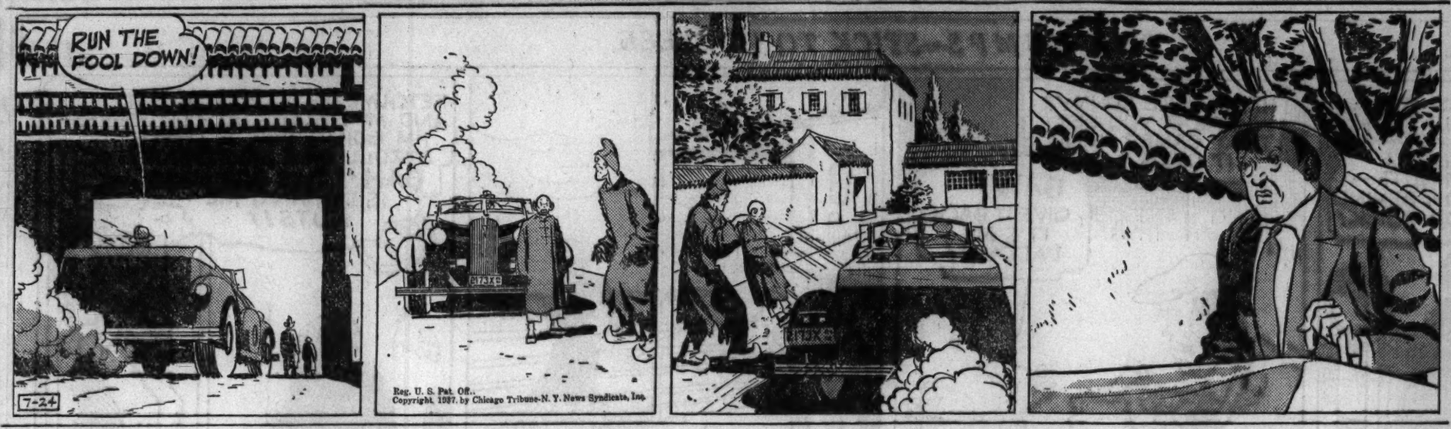
## TERRY AND THE PIRATES—EASY COME, EASY GO!



# P. G. A. Head Tries to Ease Ryder Row

The six members of the American Ryder cup squad who are competing in the $10,000 Chicago open golf tournament at Medinah yesterday received a telegram from George R. Jacobus, president of the P. G. A., asking from each an expression of regret for the verbal backfire following their recent journey to England.

Several members of the Ryder cup team were reported to have been bitter in their criticism of the conduct of the galleries at the British open, which Henry Cotton of England won after the American delegation had appeared so strong in advance that it was favored to win five of the first six places.

The general reaction of the six Ryder cup stars to Jacobus' wire was that their comments on their overseas invasion had been considerably magnified. Horton Smith, Gene Sarazen, Sam Snead, Ralph Guldahl, Henry Picard, and Johnny Revolta all praised the treatment they had received from the British P. G. A.

Guldahl, as one of the leading speakers on the subject of gallery behavior at the British open, still maintained his opinion that the fans at Carnoustie had not extended themselves in their attitude toward the American players. Revolta and Snead, both making their first European journey, were particularly high in their praise of their receptions and treatment.

Smith pointed out that a gallery of 25,000, such as followed the British open, could not be expected to be perfect in deportment. Sarazen, who was making his tenth trip across, said that the American players had received their share of breaks, stressing the fact that his ball had struck a woman spectator and had rolled on to the green.

## HERE ARE WAYS TO REACH OPEN GOLF TOURNEY

Medinah Country club, where the second eighteen holes of the $10,000 Chicago open golf tournament will be played today, may be reached as follows:

open champion, all took 79s. Johnny Revolta and Frank Walsh were in the 77 bracket. Billy Burke posted an 82, and Henry Picard and Lawson Little each needed 78.

Chick Harbert, Battle Creek, Mich., amateur, who recently won the Michigan open with a 72 hole card that was 20 under par, took an 82, but an hour later an eye specialist discovered why. The lad had been playing from the 13th hole with a left eye irritated by a sliver of glass.

Twenty-one of the 203 amateurs in the starting field broke 80. Heading all of them was Moreland, with his 74, one shot better than the card hung up by Freddie Haas of New Orleans, national intercollegiate and Canadian amateur titleholder.

The curious in the galeries were well rewarded. Mildred [Babe] Didrikson, only feminine competitor in the field, was around the first nine of No. 1 in 39, three over men's par, but climbed to a 47 coming home for an 86. Donald Dunkelberger, High Point, N. C., 11 years old, who weighs 65 pounds, shot himself a 106 and withdrew from the tournament.

## CHICAGO C. Y. O. BOXERS WIN, 7-1, FROM DUBUQUE

Won 3 year old debut, allowance race at Keeneland April 23; eighth in Kentucky Derby; won Woodlawn purse at Washington Park; second in American Derby [¾ length] at Washington Park; won mile Blackstone purse Monday.

**Gosum—Bay colt, 3, by Hot Weed-Slow and Easy by Colin. Owner Calumet farm. Trainer Frank J. Kearns.**

Racing sparingly. His first 3 year old stake test was a fifth in the Blue Grass stakes at Keeneland; won first race of year at Washington Park, June 25; won Diamond Lake purse at Arlington Park, July 1.

## President May Witness One or More Yacht Races

Newport, R. I., July 23.—(Special.)—It was reported in yachting circles here today that President Roosevelt would be a witness of one or more of the international yacht races for the America's cup. It was said that Former Commodore Vincent Astor of the New York Y. C. was coming on the Nourmahal and, as the President was aboard the yacht in 1934, he may be again this year.

HEAR JOE E. BROWN AGAIN GUEST STAR OF Kellogg's Parade OF THE Immortals

Turn to WJJD 1130 KILOCYCLES ON YOUR RADIO DIAL

HE'S in again! Joe E. Brown, America's No. 1 Baseball Fan and ace comedian of the screen, returns today as Kellogg's guest star on the "Parade of the Immortals." You heard his uproarious comments during the broadcasts at the beginning of the season. Now he's back, funnier than ever! You'll hear him speaking from Comiskey Park, while John Harrington gives a play-by-play description of the Yankees-White Sox game.

For the next few weeks Joe E. Brown will be heard daily on this great baseball radio feature.

He was the first guest star of Kellogg's "Parade of the Immortals." Then came Mordecai Brown — Johnny Evers — Joe Tinker — Tris Speaker. Now it's Joe E. Brown again. And after him will follow Walter Johnson and Lew Fonseca.

Tune in Station WJJD every day at 2:55 P. M. It's 1130 Kilocycles on your dial. Hear John Harrington's vivid descriptions of all Cubs and White Sox home games. Enjoy the thrill of listening to the famous stars who share the broadcast with him!

CALLING ALL BOYS!

Boys! Meet Joe E. Brown personally — and learn to play baseball under big league instructors! Attend the Kellogg Baseball School — directed by Lew Fonseca. For complete details on the place and the dates, listen regularly to the "Parade of the Immortals"—brought to you by the makers of Kellogg's Corn Flakes.

You'll like the flavor and crispness of Kellogg's. Delicious with milk or cream. At all grocers, oven-fresh, ready to serve.

Kellogg's are made better—packed better — taste better. One of the biggest values you can buy. Made by Kellogg in Battle Creek.

# HAINES IS 44, BUT BROOKLYN LOOKS OLD AGAINST HIM

## Wins for Cards, 4-1, Day After Birthday.

Brooklyn, N. Y., July 23.—(AP)—Jesse Haines gave himself a birthday present a day late today, holding the Dodgers to six hits as he pitched the St. Louis Cardinals to a 4 to 1 victory. Haines, who was 44 yesterday, fanned seven and pitched a shutout until the ninth, and doubled to drive in the final Cardinal run in the last inning.

sota, and Averill Daniell, Pittsburgh, for the tackle positions, stating that the two were the best linemen during the 1936 season. His team follows:

Ends—Tinsley, Louisiana State, and Kelley, Yale. Tackles—Widseth, Minnesota, and Daniell, Pittsburgh. Guards—Starcevich Washington, and Reid, Northwestern. Center—Basrak, Duquesne. Quarter back—Falaschi, Santa Clara. Half backs—Cain, Washington, and Parker, Duke. Full back—Francis, Nebraska.

Bill Spaulding, coach at U. C. L. A., also picked a team. He selected three members of the 1936 U. C. L. A. squad for the All-Star lineup, which follows:

Ends—Tinsley, Louisiana State, and Kelley, Yale. Tackles—Widseth Minnesota, and Daniell, Pittsburgh. Guards—Barr, U. C. L. A., and Bassi, Santa Clara. Center—Chavoor, U. C. L. A. Quarter back—Wilkinson, Minnesota. Half backs—Funk, U. C. L. A., and Haines, Washington. Full back—Francis, Nebraska.

Cotton Warburton, former Southern California back field star and a member of the All-American team in 1933, also submitted an All-Star eleven. His lineup follows:

Ends, Tinsley, Louisiana State, and O'Neill, Notre Dame; tackles, Widseth, Minnesota, and Daniell, Pittsburgh; guards, Pierce, Fordham, and Peters, Tennessee; center, Kuhn, Southern California; quarter back, Davis Southern California; half backs, Alfonse Minnesota, and Parker, Duke; full back Francis, Nebraska.

## A. B. C. President, Chicago Bowling Officials Confer

Albert C. Lattin of New York, president of the American Bowling Congress, arrived yesterday to confer with Chicago officials regarding plans for the A.B.C. tournament, which will be held next March in the Coliseum.

Lattin expresses the belief that the event will be the largest in the 38 year history of the Congress with an anticipated entry of 4,000 or more five-man teams.

**YALE GOLFERS WIN, LOSE.**

WOODHALL SPA, England, July 23.—(AP)—The Yale golfers defeated the northeast group, six matches to four, today in the English international trials. The northwest group defeated the Elis, seven matches to three.

**WALNUT HILLS OPENS.**

The Walnut Hills Country club, 8600 West 103d street, will have its formal opening today, it was announced yesterday by John F. Curtis Jr., course manager.

# Cubs Defeat Giants, 11-3; Rout Hubbell

[Continued from first sports page.]

second of two runs. And against Baker in the ninth he singled for the fifth hit of the four run blast.

The beating inflicted by the Cubs today was the seventh in twelve games with the Giants in the current campaign. And even if the Cubs should tumble in the next two battles with their old enemy, they'll still be leading the league when they start for home Sunday evening.

**Davis Routed in First.**

The Giants went to work on Davis after he had retired Chiozza in the first inning. Whitehead singled to right. Moore and Berger were plunked by successive pitches, loading the bases. Ott banged a deep fly to Marty, Whitehead scoring and Moore moving to third after the catch. The bases were reloaded on a pass to Leslie. Haslin slammed a torrid grounder close to third and Hack held it to a single, Moore scoring. Root then came to the rescue and fanned Madjeski.

With one out in the third Marty lifted a foul between first and the plate. Leslie was just about to make the catch when Madjeski barged into him, the ball tumbling to the ground. No error was charged. Marty then singled to center. He was forced by Root, who continued to second when Whitehead threw wild attempting a double play. Galan popped high over short, and Haslin dropped the ball, Root scoring.

**A Bargain Home Run.**

Moore led off the Giants' third with a lazy fly ball to left and in the course of its descent the ball brushed against the scoreboard attached to the second deck. The spot is only about 300 feet from the plate, but it counts as a home run target.

In the fourth, Collins and Demaree singled. Herman forced Demaree at second but Collins got home on Hartnett's single.

The Cubs got two runs in the sixth when Hack beat out a bunt and Collins arched a homer into the right field section just over the 294 foot sign.

In the seventh, Marty beat Haslin's throw to first on a slow bounder, Root sacrificed. Galan planted a two bagger in left center

# MILLIE M. WINS IN LAST STRIDE FROM FAVORITES

## Whips Rifted Clouds, Four Eleven at Arlington.

Millie M., 3 year old daughter of Cohort-Miamba, put on a thrilling rally in the stretch run of the Garfield purse at Arlington yesterday to win by a head from the two heavily backed choices, Rifted Clouds and Four Eleven.

She scored her verdict in the last stride after Four Eleven and Rifted Clouds had made all the early running. She was a long shot in the betting despite the fact that she is the little sister of the illustrious handicap horse, Roman Soldier. The mutuel price against her was $32. She ran the six furlings in 1:11 2-5.

Holl Image won his first race for his owner, William Schmidt, since he captured the Arkansas derby in 1936 by taking first honors in the mile and a furlong fourth race. It made Owner Schmidt very happy, for a few seconds later he learned the horse had been claimed from him for $2,500.

Mrs. Clarence Dale of Chicago put over the prize long shot of the day in the mile and a sixteenth seventh race decided over the turf. She was represented by Kairack, a 3 year old son of Kai-Sang-Fana Omarwrack. Jocky W. L. Johnson took the colt to the front at the start. He kept nim there until the finish to win by six lengths. His slim group of backers collected at $68.80 for a $2 ticket.

Mighty Sweet from the Bomar stable of Detroit finally delivered for her owners in the 2 year old filly race that supported yesterday's feature. She had all she could do to get the decision over the Millsdale stable's Dolly E. A distant third was Dolly Val. Mighty Sweet paid off at $4.60 for a $2 ticket.

Special trains to handle the Classic day crowd will be run at frequent intervals from 12:45 p. m. from the Chicago and North Western station today. Special trains also will be run from a number of midwest cities.

# *BABE STAPP ASKS FOR SPECIAL RACE AT FAIR GROUNDS*

Babe Stapp, pudgy California pilot, wants to battle it out with Mauri Rose, Jimmy Snyder, Boh Sall, Billy Winn, and other stars of the auto racing brigade, and may be seen in action Aug. 1 on the Fair Grounds track.

Stapp, who dominated racing at Roby three years ago, has a new car which he says can cut two or more seconds off Rex May's mark at the Fair Grounds, and his assertion is likely to bring about another race tween himself, Mays, and Snyder.

Tractors are cutting down the inside of the Fair Grounds track and this work will be completed Monday. Then the curves will be treated with calcium chloride and the straightaways will be covered with oil. Complete elimination of dust is hoped for.

At post 1 minute. Start good, from gate. Won easily, place driving.

PHARABOO, kept up while in very close quarters the first three-eighths, drew away from MIGHTILY gradually after straightening up in the stretch and, opening up a commanding lead in the final eighth, won in hand. MIGHTILY, on the inside throughout, and under strong urging from the start, drew clear on the stretch turn and held on well to the final eighth, where he tired. TIGER TEDDY, quick to begin, dropped back suddenly on the stretch turn but came again.

METAURUS, away well but widely outrun, was taken to the outside after a half mile and while slow to respond, came with a great rush in the final quarter and overtook VEEKS in the closing strides. Latter had good speed from the start, drew into a commanding lead when placed to energetic riding after reaching the final quarter but weakened in the late stages and could not withstand the winner. TORNADIC, also far back in the early racing and slow to rally, came with a rush on the outside in the last eighth.

REMINISCENT, much the best and on the inside throughout, forced the early pace under occasional light pressure, drew away from LEADING ARTICLE rapidly after reaching the stretch and sustained high speed to the end. LEADING ARTICLE had speed from the start, slightly increased his advantage as his rider applied pressure on the stretch turn but readily submitted to the winner after reaching the final three-sixteenths, yet held on well. OUR CREST, raced wide throughout and under strong urging after a half mile, held on with determination.

Winner trained by A Peltier. Went to post at 3:35. At post 2 minutes. Start good, from gate. Won driving, place same.

HOLL IMAGE, never a great distance back and saving ground early, secured room between horses on the stretch turn, got through on the inside of SHORT SKIRT when wearing the latter's caddies down and won driving clear. SHORT SKIRT, raced wide throughout and under steady restraint for seven-eighths, held on well in the drive, but could not withstand TREACY, raced wide while alternating with SQUEEZER in making the early pace, drew into command under mild urging after reaching the stretch but could not withstand the leaders.

FIFTH RACE—Five furlongs. Purse $1,100. Net value to winner, $800; second, $150; third, $100; fourth, $50.

MIGHTY SWEET, away fast and receiving a very confident ride, drew into a short lead without need of strong urging and held DOLLY E. safe to win in handy fashion. Latter, on the inside throughout, had speed from the start and stood pressure gamely. DOLLY VAL, forced to race wide, closed boldly in a fine effort.

SIXTH RACE—Six furlongs. Purse $1,200. Net value to winner, $850; second, $200; third, $100; fourth, $50.

Time, :22 3-5, :45 3-5, 1:11 2-5. Two dollar mutuels paid: Millie M., 32.00 straight, $8.20 place, $3.80 show; Rifted Clouds, $3.60 place, $2.60 show; Four Eleven, $2.40 show. Winner trained by M. Shapoff. Went to post at 4:32. Off at once. Start good. Won driving, place same.

MILLIE M., never far back and raced wide throughout, was placed to strong urging after a half mile began to wear down the leaders after reaching the last eighth, but did not get up until the closing strides. RIFTED CLOUDS, eased a trifle as FOUR ELEVEN threatened to come over shortly after the start, was put under energetic riding when clear and held on stubbornly in her fine effort but was not good enough. FOUR ELEVEN, receiving a hustling ride, cut out a terrific pace and began to weaken after five-eighths but only gave way to the leaders within a few strides of the finish.

SEVENTH RACE—One and one-sixteenth miles. Purse $1,100. Net value to winner, $800; second, $150; third, $100; fourth, $50.

KAIRACK took command quickly, was rated under snug restraint to the final turn, drew into decisive command when urged and kept under light pressure to the end, probable had but little left. AERIALIST well up from the start, held on well and came through on inside of THINK FAST in the last sixteenth.

EIGHTH RACE—One and three-sixteenths miles. Purse $1,100. Net value to winner, $800; second, $150; third, $100; fourth, $50.

# MAJOR PARTIES BACK COPELAND FOR N. Y. MAYOR

## Senator Also to Enter G. O. P. Primary.

New York, July 23.—[Special.]—The city campaign shaped up swiftly today along new lines with the Democrats plunging headlong into a stiff primary fight between Senator Royal S. Copeland and Grover Whalen and the Republicans swinging to an indorsement of Dr. Copeland.

Senator Copeland will enter the Republican primary in all probability, and, with a majority of the organization in the five boroughs backing him, Mayor F. H. La Guardia's fusion stock sank heavily with the prospect that he may lose the Republican support.

**Challenge to Roosevelt.**

New York laws permit Democrats or Republicans to enter either party's primary election.

James J. Walker, former mayor, indicated today that he would take the stump for Senator Copeland, although he made peace recently with President Roosevelt and has been chief adviser to Postmaster General James A. Farley in the city campaign. The Copeland candidacy is an open challenge to Roosevelt and Farley.

The senator expressed his pleasure over the nomination by Tammany and was delighted to have Frank Prial and Borough President Samuel Levy on the ticket with him.

**Eager for G. O. P. Support.**

"I shall make a most aggressive campaign on the radio and the speaking platform," he said.

"Are you going to make a fight for the Republican designation?"

"I certainly am," he replied. "I want that nomination as well as the indorsement of as many groups as I can get."

Charles D. Hilles, national committeeman, as the ranking Republican in the state, is reported to be strongly in favor of republican indorsement of Dr. Copeland. The New York county Republican committee will meet next week to take action.

**Dissenters Join Majority.**

The trend in all boroughs today was unmistakably to Senator Copeland in both political parties. The minority in Tammany which went to defeat last night was breaking up today as four, possibly five, of the district leaders who stood against Senator Copeland indicated they would stay with their organization majority and support the senator.

# ANNING S. PRALL, COMMUNICATIONS OFFICIAL, IS DEAD

## U.S. Chairman Stricken at Summer Home.

Boothbay Harbor, Me., July 23.—[Special.]—Anning S. Prall, chairman of the federal communications commission and former New York representative in congress, died of a heart attack at his summer home here today. He was 66 years old.

Mr. Prall, a resident of West New Brighton, Staten Island, N. Y., was stricken more than a week ago with an illness. His son, W. Mortimer Prall, had announced on Tuesday that he was greatly improved.

Mrs. Prall and Mortimer were at the bedside today.

**Born on Staten Island.**

Mr. Prall was born on Staten Island and educated in the New York public schools. He rose to the post of president of the New York city board of education and later, in 1922, was appointed a commissioner of taxes and assessments of New York.

Elected to congress, he served from the 68th to the 72d sessions, representing the 11th New York district. In March, 1935, President Roosevelt appointed him chairman of the federal communications commission to succeed Eugene S. Sykes, who was demoted.

**Second Recent Vacancy.**

Mr. Prall's death caused the second recent vacancy in the commission's membership. Vice Chairman Irvin Stewart resigned to affiliate with the national research council.

Informed circles in Washington, D. C., mentioned Carl I. Wheat of California and Hampson Gary of Texas as possible appointees to the commission. Wheat assisted in the commission's telephone investigation and Gary is the board's present general counsel.

# W. B. HUNTER OF PANA, PIONEER, IS DEAD AT 90 YEARS

Pana, Ill., July 23.—[Special.]—The death last night of William B. [Uncle Billy] Hunter, 90 years old, at the home of his son, Perry Hunter, at Hagerstown, Fayette county, removed the last of the original family of Hunters, active in the early settlement and progress of central Illinois.

"Uncle Billy" was one of six sons and three daughters conveyed to Buckeye prairie, eight miles west of Pana, in the first prairie schooner to enter this section, then inhabited by Indians and wild animals. The parents were Mr. and Mrs. William Hunter Sr. from New Philadelphia, O.

Two of the daughters died in Pana and now all six of the sons are dead. "Uncle Billy" is survived by two sons, Perry and Charles, Fayette county residents.

# FOUR 20TH WARD OFFICIALS JAILED FOR VOTE FRAUDS

Judge Edmund K. Jarecki of the County court yesterday imposed fines and jail sentences on four officials of the 25th precinct of the 20th ward who pleaded guilty to charges of permitting fraud in the 1936 April primary. The evidence was presented by Special Prosecutor John F. Cashen Jr.

The defendants and their punishment were: Hyman Zolk, 1447 West 14th street, Republican judge, 2 months in jail and a $500 fine; Mrs. Anna Liss, 1400 West 14th street, Republican judge, $500 fine; Alex Spiegel, 1445 West 14th street, Democratic clerk, 2 months in jail and $500 fine; and Meyer L. Schuster, 1400 West 14th street, Republican clerk, $500 fine.

# DOES "A BRODIE" FROM BROOKLYN BRIDGE AND DIES

New York, July 23.—(AP)—George V. Sauter, 40 year old rug salesman, and his wife were driving home tonight across the Brooklyn bridge, from which Steve Brodie made his fabled leap exactly fifty-one years ago today. Midway across the span between Manhattan and Brooklyn Sauter halted his automobile, saying he thought he had a flat tire, jumped from the car and plunged over a railing and into the East river, 133 feet below. Mrs. Sauter's screams and the frantic blowing of her automobile horn brought a policeman, and a police boat was summoned to hunt for Sauter's body.

# MRS. S. T. M'LEAN ESTATE'S VALUE $3,844,502 NET

New York, July 23.—[Special.]—Mrs. S. T. McLean, widow of a former vice president and director of the Phelps-Dodge corporation, copper company, left a gross estate of $3,980,533 and a net estate of $3,844,502, according to a state tax appraisal filed today by Deputy Tax Commissioner Jacob Manicoff. She died on Sept. 10, 1934. Her husband, James N. McLean, died several years previously. Securities total $3,634,209, with $11,540 in cash and $275,184 in various other items.

# R. B. HART DIES IN HAWAII; ON BENCH; EDITOR

Cumberland, Wis., July 23.—[Special.]—R. B. Hart, 71, former newspaper editor and one time mayor of Cumberland and Barron county judge, died today in Kekah, Kauai, Hawaii, following a heart attack. Mr. and Mrs. Hart had been living there with a daughter since last October.

Born in the town of Oakland, Jefferson county, Mr. Hart graduated from the University of Wisconsin with the degrees of bachelor of letters and law. He practiced law in Cumberland and Shell Lake and was city attorney here at one time. He published the local paper for 21 years, retiring last fall.

# 4 NO MAN'S LAND CAFES RAIDED BY HIGHWAY POLICE

Four cafés in No Man's Land, the unincorporated strip of shore line property between Wilmette and Kenilworth, were raided and closed last night by the Morton Grove county highway police for selling liquor unlawfully in dry territory. The cafés—Murphy's tavern, Lacoda Beach, the Cottage, and the Sheridan Barbecue—adjoin each other on Sheridan road.

The owners were released on $100 bond on the liquor charges and will be arraigned in the Morton Grove police court. The highway police also closed the River inn, an alleged handbook at Wagner road and Lake avenue, west of Wilmette.

## Michael J. Collins Leaves $200,000 Trust to Children

Judge John F. O'Connell yesterday admitted to probate the will of Michael J. Collins, purchasing agent of the Santa Fe railroad, who died June 6 at the age of 76. After specific bequests of $4,500 the will left his $200,000 estate in trust for seven children. A daughter, Mrs. Ellen C. Gormley, was made co-trustee with the Northern Trust company.

# FIND BODY OF GIRL IN STREAM; DEATH IS CALLED ACCIDENTAL

Elkton, Md., July 23.—(AP)—Dr. R. C. Dodson, Cecil county coroner, returned a verdict of accidental drowning late today in the death of 18 year old Janet Wohlson of Lancaster, Pa.

Janet Wohlson. [AP Wirephoto.]

The girl's body was found in the North East river today, almost 48 hours after she disappeared while fishing from an anchored rowboat near here. It had moved a short distance downstream from where the empty rowboat was found.

Dr. Dodson gave his verdict after an autopsy disclosed no signs of violence on the body. "The case is closed," he said.

Miss Wohlsen, daughter of John O. Wohlsen, a Lancaster, Pa., manufacturer, would have celebrated her 18th birthday Monday. She also would have taken her first job in a Lancaster office on Monday.

# A SHIP BUILDER BUSY AT HIS ART JOLTS OAK PARK

*(Picture on back page.)*

Oak Park residents nearby rubbed their eyes in astonishment yesterday, for in the yard in front of 731 North Marion street in the suburb, they saw the keel and ribs of what will be a thirty-six foot cabin cruiser.

The frame of the boat and the blocks, about ten feet high, hadn't been there the night before. Oak Park police were summoned and learned that the boat belongs to Andy Schoch, 32 years old, in whose yard it stands. Schoch, a filling station attendant, said that he and two friends, Raymond Limback, 22, of 1000½ North boulevard, and David Harris, 31, of 823 Cuyler avenue, both in Oak Park, are building the boat and expect to launch it next spring. He agreed to move it to the back yard.

# 300,000 ATTEND MARCONI BURIAL IN HIS HOME CITY

BOLOGNA, Italy, July 23.—(AP)—The body of Guglielmo Marconi, inventor of wireless telegraphy, today was placed in the family vault of the Marconis.

Three hundred thousand residents of this industrial city, his birthplace, paid their last respects as the cortège moved to the 14th century monastery where final rites were held. The body had arrived earlier today from Rome, where the inventor died Tuesday.

Marconi's burial place was near the tomb of Luigi Galvani, the 18th century Bologna scientist who discovered electricity in chemical action. The body will remain there until the government selects a final resting place, which will be a national shrine.

# PRESS HUNT FOR SCOUTMASTER MISSING IN EAST

Rochester, N. Y., July 23.—(AP)—State police and Boy Scouts redoubled a search for Morris B. Close, 23 years old, Rochester scoutmaster, today after the body of a man found slain near Kingdom City, Mo., was tentatively identified as that of a Missouri man.

Members of Close's family said they were convinced the slain man was not the Rochester scoutmaster, who disappeared while driving from Albany to Rochester Monday night.

However, a faded and torn Indian blanket found covering the body at Kingdom City was definitly identified by members of the Close family as one carried by the missing man in his automobile.

A coat found on the dead man also was identified as the property of the scout leader. It bore a Rochester firm's label.

Authorities expressed the belief that Close, who was known to pick up hitch-hikers when traveling, was waylaid and robbed of his car and clothing as he drove home Monday night.

# EXCAVATOR SUES FOR UNEXPECTED LINK BRIDGE COST

Charging that the Chicago park district misrepresented the condition of the soil at the site of the new Outer Drive bridge, the Great Lakes Dredge and Dock company yesterday filed suit in Superior court asking $500,000 for unexpected costs involved in carrying out the firm's contract for $928,505.

The excavating firm stated that their diggings were filled with subsurface water, shifting soil, boulders, pilings, old boat hulls, and other surprising impediments. Test borings made by the park district had shown none of these, the complaint states.

"We furnished the company with all the information we had, after what we believed to be an adequate number of tests," said George T. Donoghue, superintendent of the park district. "The Great Lakes Dredge and Dock company should have known the risks attendant upon such a contract."

# TWO UNLOADING MACHINE DIE AS IT TOUCHES WIRE

Two men were electrocuted in East Chicago, Ind., yesterday in an unusual accident. They were William Dwyer, 45 years old, 2039 Washington street, and Arthur Struebig, 37, of 225 East 17th avenue, both of Gary.

They were employed on a truck delivering a huge excavator to a site at Columbus drive and Canal street in East Chicago. They stood on the street, helping to slide the heavy equipment into position.

The excavator suddenly slipped and tilted. Its long boom shot high in the air and came in contact with a high tension electric wire. Both men were touching the all metal excavator at the time. They were killed instantly. The jolt was so severe their clothes were burned from them and the nails in their shoes were melted. Robert Oliver, 3880 Madison street, Gary, the driver, who was in the cab of the truck, was not hurt.

## Joseph T. Clark, Editor of Toronto Star, Is Dead

TORONTO, Ont., July 23.—(AP)—Joseph T. Clark, 70 years old, editor in chief of the Toronto Daily Star, died today in his summer home at Mishoka.

**HUNTED IN STREET SLAYING.**

Wabash avenue police were searching yesterday for James Fuller, colored, 55 years old, 8020 South Dearborn street, for questioning in the fatal shooting of Madison Pillow, colored, 30, of 5810 Prairie avenue, who was found dead on the sidewalk in the 8200 block in South Dearborn street.

# CHARLES M. FOELL, FORMER JUDGE, DEAD AT AGE OF 66

Charles M. Foell, 66 years old, former judge of the Superior court, died yesterday in his home at Beverly Hills, Cal. He had been living there since he retired from the bench more than ten years ago because of ill health, after fifteen years of service.

Charles M. Foell.

Judge Foell was an alderman from the old 21st ward from 1906 to 1911, when he went on the bench. As judge he presided at many important trials.

He was born in Dubuque county, Ia., was educated at Cornell college, Mount Vernon, Ia., and Northwestern university law school, and began the practice of law in Chicago in 1897 in partnership with the late Judge William N. Gemmill. He was later in partnership with the late Marvin E. Barnhart.

Judge Foell never married. He is survived by a brother and two sisters. News of his death was received here last night by a friend, Mrs. Fred Busse, widow of the former mayor.

# SUE L. DOUGLAS, 103, FORMERLY OF WINNETKA, DIES

Friends here received word yesterday of the death of Mrs. Sue Lyon Douglas, former resident of Winnetka, in San Antonio, Tex., on Wednesday. She would have been 104 years old this September. Burial will be in Menominee, Mich., where she went with her family as a young woman from Steuben county, N. Y.

Early in the century Mrs. Douglas came to the north shore to live. She formerly lived at 20 Indian Hill road, Winnetka, with her son, Scott M. Douglas. When he and his family left Winnetka for San Antonio two years ago his mother went with them.

"Up until the time she left here she read the latest novels and kept up with current events," said John Vennema of Winnetka, a former neighbor. "She went to every world's fair in the country, including A Century of Progress in 1934."

Mrs. Douglas was the widow of the Rev. Frank Douglas, formerly an officer of the 16th infantry of the United States army. Before her marriage she taught school in a log cabin and did pioneer newspaper work in Michigan.

# POLICE TO GUARD MOTORISTS FROM HANDBILL DANGER

Commissioner Allman instructed the police yesterday to stop the practice of throwing advertising circulars into moving automobiles, which is specifically forbidden by a city ordinance.

"The tossing of bills into cars is not only a source of annoyance but dangerous to drivers," said Charles M. Hayes, president of the Chicago Motor club. "Many accidents have resulted. Drivers often lose control of their cars momentarily when circulars are thrown into their faces."

Chief Lester Laird of the county highway police ordered a squad to halt the tossing of touts' tip sheets into cars in the vicinity of Arlington Park race track near Arlington Heights.

"While there is no state law covering the point, we have ample authority to act in the interests of public safety," said Chief Laird.

Bail parks are another scene of activity for the handbill tossers. Cafés and night clubs are among the violators of the ordinance covering this offense, according to motorists.

# FRANK D. CHASE, ARCHITECT AND ENGINEER, DIES

## Specialist in Construction of Industrial Plants.

Frank David Chase, widely known architect and specialist in industrial plant production and construction, died unexpectedly yesterday in his home at 2006 Sheridan road, Evanston.

Frank D. Chase.

Mr. Chase designed several Chicago office buildings and hospitals. His field of work covered railroads, large industrial corporations, and newspaper plants throughout the United States and plant construction in Europe.

He was born in Riverside, the son of David Fletcher Chase and Emily Frances Chase. He received his early education at the Evanston Township High school, and graduated from the Massachusetts Institute of Technology.

**Head of Concern Since 1913.**

Since 1913 he had been president of Frank D. Chase, Inc., engineers and architects, with offices in the Bell building, 307 North Michigan avenue.

For several years Mr. Chase was architect for the Western Electric company and later served in the same capacity for the Illinois Central railroad. He also was employed by the General Motors corporation and recently executed a large industrial order in soviet Russia.

He designed the plants of the St. Louis Star-Times, the Oklahoman at Oklahoma City, and the Milwaukee Journal building. The latter has been called one of the finest newspaper plants in America.

**Designed Loop Buildings.**

Among his Chicago projects were the twenty-three story building at 100 West Monroe street, the sixteen story building at 173 West Madison street, and the ten story Starck building. He also designed the Chicago Memorial hospital and the South Chicago Community hospital.

Mr. Chase was a former president of the Western Society of Engineers and a member of the American Society of Civil Engineers and the University club. Surviving are his widow, Cecile; a daughter, Eloise, and a brother, Al Chase, real estate editor of THE TRIBUNE.

Private funeral services will be held this afternoon.

# RAIL OPERATING INCOME FALLS IN LAST MONTH

## Illinois Central Shows Big Gain, However.

Operations of the nation's railroads resulted in a decline in earnings during June compared with a year ago and based on results of the first ten carriers to report. A compilation yesterday by Dow-Jones & Co. showed the recession in net operating income for the month was 13.9 per cent despite the fact that gross revenues were 5.7 larger than in June, 1936.

In May, the same roads had an increase of 8.7 per cent in gross over the preceding year and a drop of 9.7 per cent in combined net operating income.

**Illinois Central Income Up.**

The Illinois Central system reported net railway operating income for June was $2,093,528, an increase of $1,140,262 over the $953,266 in June, 1936. Gross revenues from operations were $8,874,867, against $8,941,454, a decline of $66,587.

For the first six months of the year operating net income totaled $6,841,286, against $5,942,203, a rise of $899,083, while gross amounted to $56,580,232, against $53,667,644, an upturn of $2,912,588.

The increase in June operating net over last year resulted from a credit from tax accruals representing the difference between 3½ per cent railroad retirement tax set aside under the original act, accruing since Jan. 1, and the 2¾ per cent rate established by the new law. This credit amounted to $1,785,099, and after deducting other taxes accrued during the month resulted in a net tax credit of about $900,000.

**Other Income Reports.**

The Pere Marquette railroad reported yesterday that net income for the six months ended June 30 totaled $1,091,785 after charges and taxes, equal to $1.11 a share on common stock, against $1,164,258, or $1.27 a share, in the same period of 1936.

The Reading company reported June net operating income before fixed charges and other income of $1,460,366, compared with $1,129,932 in the same month last year.

## *June Insured Mortgage Total Runs Below Year Ago*

Washington, D. C., July 23.—[Special.]—The Federal Housing administration said today that insured mortgages in June amounted to $46,000,000, against $50,000,000 in June 1936. A pickup in home construction is expected in September, it said.

***National Dairy Products.***

**Investors' Guide: Please give me information regarding stock of National Dairy Products.—F. G. A.**

Answer: This holding company is one of the major factors in the dairy products industry. It was formed in 1923 and expanded aggressively, largely by acquisition of well established local companies. Operations now are conducted intensively from New York to Nebraska and from Massachusetts to Tennessee.

Among larger cities in which subsidiaries operate are New York, Pittsburgh, Philadelphia, Washington, Baltimore, Cleveland, Cincinnati, Nashville, Miami, Detroit, Chicago, Milwaukee, St. Paul, St. Louis, Kansas City, and Omaha.

Acquisition of Kraft-Phenix Cheese corporation in 1930 made National Dairy the No. 1 American cheese concern and extended its business interests in an important way to Canada, England, and Australia.

Milk products and salad dressings have accounted for more of business and fluid milk for less in recent years.

The volume of dairy products sold reached an all-time high in 1936 and earnings were the best since 1931. Volume has continued to increase this year, but earlier hopes for a large gain in earnings are not likely to materialize. Higher costs and price weakness in the important New York milk area are reported to have cut earnings for the first half of 1937 to below those in the first half of 1936. Some improvement in the situation has been reported, and estimates are that 1937 earnings will be near last year's figure. Oversupply of dairy products and reduced consumer purchasing power put a severe crimp in 1933 and 1934 earnings after which the trend was reversed. The record of recent years:

| | Sales. | Net income. | inc. per com. shr. |
|---|---|---|---|
| 1936 | $329,172,000 | $13,282,000 | $2.01 |
| 1935 | 290,441,000 | 9,338,000 | 1.38 |
| 1934 | 287,415,000 | 6,552,000 | .94 |

| 1931 | 320,788,000 | 22,548,000 | 3.47 |
| 1930 | 374,000,000 | 26,254,000 | 4.10 |

*Record year.

Funded debt consists of $61,850,000 of 3¾ per cent debentures and $4,900,000 of 2½ per cent bank loans. Interest charges have been covered by wide margins.

There are 98,709 shares of 7 per cent $100 par preferred and 6,263,780 shares of no par common stock. The common dividend rate was reduced from $2.60 to $2 a year in 1932 and to the present $1.20 rate in 1933.

The common stock deserves a good rating. The preferred is high grade.

# GRAIN MARKETS GET JITTERS AS CORN PLUNGES

## Prices Break Early, but Rally Later.

### CHICAGO GRAIN FUTURES

Closing prices on the September delivery of principal grains on the Chicago Board of Trade yesterday:

| | Yesterday. | Thursday. | Yr. ago. |
|---|---|---|---|
| Wheat | $1.19¾ | $1.18½ | $1.03¾ |
| Corn | 1.02⅝ | 1.02⅛ | .87¼ |
| Oats | .33⅝ | .33¾ | .36½ |
| Rye | .85¼ | .84½ | .72⅝ |
| Soy beans [Oct] | 1.07¼ | 1.07½ | ..... |

Grain markets fluctuated in an erratic manner yesterday. Trading was featured by a break of nearly 6 cents a bushel in July corn to a low of $1.06½, or 22½ cents under the high point of last Tuesday. The close was 4 cents lower at $1.08⅛, the lowest figure posted on the Chicago Board of Trade since last March. Deliveries of 500,000 bushels of cash corn on July contracts precipitated the break in that grain.

Soy beans for July delivery declined 8 cents a bushel, the permissible limit, and closed at $1.36 a bushel.

**Rally Follows Early Break.**

All deliveries of grain sold at new low levels on the current downturn during the day, with oats in new ground for over a year, but a good class of buying developed in the deferred futures and a rally came later which more than wiped out the early losses in wheat. That grain closed 1⅜ to 2⅛ cents a bushel higher, with the July delivery at $1.20⅜, or ½ cent over the September contract, compared with a discount of ¼ cent at the finish on Thursday.

The deferred corn futures ended with gains of ¼ to 1½ cents, the latter gain on the December contract. Oats were ⅝ cent higher to ¼ cent lower, while rye was ¼ to 1 cent a bushel higher. The new crop deliveries of soy beans declined ¼ cent a bushel.

**Wheat Higher at Winnipeg.**

An upturn of 1⅝ to 2½ cents a bushel in Winnipeg wheat futures, and reports that 2,000,000 bushels of Canadian and American hard winter cash wheat had been sold for export, were factors in helping along the closing rally in American markets. Kansas City gained 1¼ to 1⅝ cents a bushel on futures, while Minneapolis was depressed by reports that threshing operations were making progress in the northwest and closed ⅝ cent lower to ¼ cent a bushel higher.

Rapid progress was reported yesterday in evening up uncompleted contracts in the July deliveries of grain. At the opening of the session yesterday were unsatisfied contracts for 3,093,000 bushels of July wheat, 2,482,000 bushels of corn, 2,130,000 bushels of oats, 717,000 bushels of rye, and 112,000 bushels of July soy beans.

**Corn-Hog Ratio Changes.**

Prevailing high prices for hogs and cattle have resulted in a change in sentiment regarding the immediate trend of the corn market. A leading member of the Chicago Board of Trade yesterday called attention to the fact that whereas a short time ago 100 pounds of live hogs were selling at about nine times the price of a bushel of cash corn, the ratio between the two commodities yesterday was about 12 to 1, which is regarded as a basis that permits profitable feeding of corn to hogs.

According to some cash handlers, Argentine corn yesterday was quoted at a slight premium over domestic in the Chicago market. A steamer with 79,000 bushels of South African corn arrived Thursday at Toledo. The grain will be shipped to Indianapolis, it was reported. The corn was originally shipped from Cape Town and traveled nearly 10,000 miles before it was laid down in the heart of the American corn belt.

# *FREIGHT TRAFIC GAINS, BUT LESS THAN NORMALLY*

Railroad freight car loadings last week totaled 770,075 cars, a less than seasonal increase of 87,870 cars, or 12.9 per cent, from the previous week and an increase of 49,716 cars, or 6.9 per cent, from the corresponding 1936 period, the Association of American Railroads reported yesterday. The total number of cars loaded in the preceding week this year was 177,403 cars, or 29.9 per cent, above the corresponding 1935 week.

All freight classifications increased last week over the preceding week but only miscellaneous freight and less than car lot merchandise, forest products, ore and coke were ahead of the 1936 period.

Loadings of various commodities with comparisons follow:

| Commodity. | Wk. Jly. 17. | Wk. Jly. 10. | 1936. |

# *BANKS GET RIGHT TO APPEAL PRIMA BREWERY RULING*

Federal Judge William H. Holly yesterday allowed an appeal to be taken by the First National Bank of Chicago and the Harris Trust and Savings bank from the recent finding of Federal Judge John P. Barnes that the two banks were jointly liable for an assessment of $568,895 for losses of the Prima Brewing company through management for which the banks were held responsible.

# *Utilities Turn On Power, but Stocks Stall*

[Chicago Tribune Press Service.]

New York, July 23.—Public utility issues continued strong on the stock exchange today, while the remainder of the list was subjected to light profit taking in the last hour after displaying higher tendencies. The selling centered on steel, motors, and other leading industrials, but the industrial division as a whole managed to close irregularly higher. The rail group pursued a similar course. Volume for the day fell below the million share mark, approximating 909,000 shares.

The strength of the utility division was attributed to the action of congress in discarding President Roosevelt's Supreme court packing plan, with many quarters weaving into that rejection a definite curtailment of other "liberal" administration proposals.

**See Technical Correction.**

As for the irregularities in the other divisions, the reason was advanced that the market was undergoing further technical correction and that this would have to run its course before another definite trend would again make itself manifest.

Although advances rarely exceeded a point, the power issues reflected keener speculative interest. North American and Commonwealth and Southern were two of the most active issues, with the former appreciating a large fraction. Other active issues to make fractional gains included United corporation, Consolidated Edison, Columbia Gas and Electric, and Standard Gas and Electric. American Waterworks and Electric Power and Light were leaders in price gains, each adding 1⅛ points.

Communication issues were neglected and not much changed one way or the other.

**Electrical Equipments Rise.**

Electric equipments showed steady progress, reflecting the better showing of the utilities. Westinghouse common and preferred leaped 4 and 5 points, respectively. General Electric advanced a fraction on a good turnover.

Steels and motors, which started as if they were going places, turned irregular as the session progressed. United States Steel common was forced one point lower after being around that same amount higher. Republic was lower but other independents stronger.

Gains of a half point for Chrysler and General Motors were erased as support weakened. The former turned soft and sagged into the minus column for almost a point, while General Motors worked back to its previous close.

After displaying promising early action, the rails turned dull and gains of fractions to a point were shaded somewhat as volume and interest dropped away.

Several farm equipment issues made new highs. These included J. I. Case, Deere, and International Harvester.

Coppers were mixed. Oils again reflected good buying.

# *FORD SHUTDOWN REDUCES WEEK'S OUTPUT OF AUTOS*

With Ford plants out of production, the output of automobiles in the United States and Canadian factories this week dropped to 88,055 units, Ward's Automotive Report estimated yesterday. Last week's total was 115,380 units and a year ago 99,329.

A further recession in production was forecast for next week. Operations, the agency said, will probably be the slackest since February, when production was curtailed by strikes.

General Motors output last week was estimated at 50,040 units, against 50,149 in the preceding week. Chrysler's output was placed at 26,550, compared with 26,300 in the preceding week.

The department of commerce index of retail auto sales dropped to 98 in June compared with 103 in May and 109.5 in June, 1936. The index, which is adjusted to seasonal influences, is based on a 1929-'31 par.

# HOG PRICES REACH $13, HIGHEST FOR JULY IN ELEVEN YEARS

Top hogs yesterday were bid up to $13, the highest they have sold in July in eleven years.

Competition between local butchers and eastern packers continued brisk for the scant supply of 165 to 220 pound young hogs, the class that is bringing the top prices. These advanced 10 to 20 cents and in spots were 25 cents higher for the day, indicating 65 cents to 85 cents gain over the middle of last week.

However, a twoway trade developed later when large local interests refused to follow in the heavier weights. Butchers over 240 pounds and sows sold slowly at steady to 10 cents lower prices, the close for these being mostly 10 cents under the average of Thursday.

Receipts continued light at all points, but there was no improvement in the wholesale trade for fresh pork.

A sharp recovery of the wholesale markets for dressed lamb in the east, coupled with improvement in the wool markets, sent live lamb costs 25 to 40 cents higher yesterday to the highest levels in ten days and 90 cents to $1 above early this week. Top live lambs reached $11.25.

Lamb meat at the various distributing points rose $1 to $2.50 per hundred pounds, the relatively low level of lamb compared with other meats stimulating the demand.

It was cleanup day in the cattle alleys, and quotations were mostly nominal. No changes in prices occurred, except in bulls and calves, with top steers at $16 and the bulk at $10 to $15. Calves were strong to 25 cents higher.

## Annual Income and Outgo of the National Government

Income and expenditures of the national government in years ended June 30 in each case. (000,000 omitted on all figures.)

# *Home Building Rises Sharply in Cook County*

A sharp increase in residential building in Cook county over last year occurred during the first six months of 1937, T. O. Morgan, Chicago manager of the F. W. Dodge corporation, reported yesterday.

Residential contracts awarded during the period amounted to $15,921,000, Morgan said, compared with $8,246,300 in the corresponding period of last year. This was a gain of 93 per cent in Cook county and compares with an upturn of only 54 per cent in the 37 states east of the Rocky mountains. During June residential awards amounted to $2,627,200.

**Other Building Expands.**

Nonresidential building in Cook county rose to $26,487,600 during the six month period, from $14,325,600 in 1936, a climb of 85 per cent. This brought the total of residential and nonresidential building to $31,371,000 for the period. Public building activities aggregated $22,213,600, or a grand total of $53,584,700, compared with $45,099,000 in the 1936 period.

In the six counties embracing the Chicago area—Lake, Cook, Du Page, and Will in Illinois, and Lake and Porter in Indiana—contracts for all types of buildings awarded from January through June amounted to $115,598,500. Of this amount apartments and hotels led with $25,416,700 distributed among contracts for 1,511 projects. The highest total was awarded in June—$3,978,700.

**New Factories Being Built.**

Contracts for factory buildings in the six counties aggregated $11,875,500 in the first half year, while awards for other commercial projects totaled $17,204,800.

One and two family houses totaled $10,628,500, of which $5,713,700 was accounted for during June. A total of $17,612,700 was awarded for educational buildings, with the June total of $9,377,300 also the largest for any month during the period.

The balance of the construction program was divided among contracts for hospitals, institutions, public buildings, religious and memorial buildings, social and recreational buildings, public works, and public utilities.

**RESIDENTIAL BUILDING DOWN.**

Washington, D. C., July 23.—[Special.]—The Federal Housing administration and federal home loan bank reported today that residential construction in June fell below the same month of 1936, the first month since the present building boom got under way that an upturn has not been registered over the preceding year. The decline continued into July, the FHA said.

The adjusted index of residential construction compiled by the home loan bank fell to 26.8 per cent, compared with 31.7 per cent in June, 1936.

# *ADJUST ILLINOIS COAL RATES TO HELP PRODUCERS*

Washington, D. C., July 23.—[Special.]—Freight rates on shipments of bituminous nut coal from Illinois points to central and western Missouri and Nebraska will be readjusted to allow Illinois shippers to compete with southwestern producers as a result of an order issued today by the interstate commerce commission.

Present rates permit southwestern shippers to deliver coal to the Missouri and Nebraska points 40 to 50 cents a ton cheaper than can producers in the Belleville and Du Quoin fields of southern Illinois and the Mount Olive and Staunton fields of the Springfield region, the commission pointed out. New schedules equalizing the differences were ordered filed by Nov. 17.

# *WHEAT SUPPLIES ESTIMATED CLOSE TO LOW RECORD*

Supplies of old wheat on farms in the United States on July 1 and holdings in interior mills and the commercial visible supply aggregated 46,000,000 bushels, about the smallest on record, according to trade estimates made yesterday based on returns issued by the department of agriculture.

Stocks in the three positions a year ago were 87,000,000 bushels, while on July 1, 1935, they were 118,000,000 bushels. On July 1, 1933, stocks aggregated 303,000,000 bushels, the largest on record.

# U. S. HAS HARSH TONE FOR CHICAGO TEACHER OF CROONING BY MAIL

The federal trade commission has the word of Arthur Abrahams Navello, 105 West Adams street, that he will no longer represent crooning as a simple thing that can be mastered with ease, according to a release issued yesterday by the commission's publicity department.

Navello sells a correspondence course in singing and crooning. He had advertised, the commission found, that his booklet of instructions would enable a person to learn to sing or croon in "10 easy home lessons."

Under the commission's persuasion Navello has consented to modify the claims made in his advertisements. "He will also stop," the commission said, "asserting that his course enables one to acquire the secrets of easy, natural singing without learning musical terms or engaging in tedious study."

# *BELGIUM'S KING PROPOSES WORLD ECONOMIC BODY*

BRUSSELS, July 23.—(AP)—King Leopold of Belgium tonight proposed an independent world economic organization free of national influences to solve the "great problems which menacingly confront humanity."

King Leopold.

Hailing the reception of Premier Paul Van Zeeland in the United States as a "favorable augury," the king said that "we must have courage to tackle the economic question in its entirety."

The king, in a letter addressed to the premier, recently returned from economic conferences with President Roosevelt at Washington, said there should be an independent institution to study the world's economic problems, "relying on the coöperation of experts in industry, trade, agriculture, finance, and labor from all nations."

Van Zeeland, at the behest of Great Britain and France, has been making an extensive study of ways and means of breaking down world trade barriers and solving economic issues.

# *GLASS COMPANY BOOSTS DIVIDEND TO $2 A SHARE*

Pittsburgh Plate Glass company yesterday declared a dividend of $2 a share on common stock. It paid $1.50 on July 1. Life Savers corporation voted a special disbursement of 40 cents a share and a regular distribution of the same amount, and Hollinger Consolidated Gold Mines, Ltd. declared an extra of 5 cents and the usual 5 cent monthly payment.

American Forging and Socket company, of Pontiac, Mich., declared 50 cents a share, compared with 25 cents paid previously. Scott Paper company ordered payment of a third quarter dividend amounting to 40 cents a share, same as it paid June 1. Previous to the June payment a quarterly rate of 25 cents was in effect.

Dividends declared yesterday were:

## *Merger Proposal Rejected by Briggs Stockholders*

Detroit, Mich., July 23.—(AP)—Stockholders of the Briggs Manufacturing company, in a special meeting today, rejected a proposed merger with the Motor Products corporation. The stockholders also approved a resolution authorizing the directors to proceed with plans to manufacture auto body parts that would have been acquired through the merger.

# *RFC Borrows 42 Millions from Banks*

Washington, D. C., July 23.—[Special.]—The Reconstruction Finance corporation has borrowed $42,000,000, chiefly from New York banks, since July 1, it was learned today. Disclosure of the bank borrowings occasioned some surprise because the agency customarily finances itself through loans from the federal treasmoney because repayments on old

Of the total borrowings, $35,000,000 was made in New York and the remaining $7,000,000 from banks in other parts of the country. The money was obtained through the sale of RFC notes on a 1¼ per cent basis.

**Banks Already Hold Notes.**

Banks in New York, Chicago, and in other sections of the country already hold a substantial amount of RFC notes which were purchased when they sold preferred stock to the government agency. The new notes purchased, however, represent new financing by the RFC.

Some observers suspected that the RFC had gone to the banks for money because depayments on old loans have not been coming in as rapidly as expected. This was denied, however, by officials of the corporation.

**Avoid Boosting Federal Debt.**

Financing through sale of notes to commercial banks does not result in an increase in the federal debt, as in the case of borrowings from the treasury.

On July 1 the RFC refunded $82,051,000 of its 2 per cent notes with an equal amount of 1½ per cent notes. The $42,000,000 of 1¼ per cent notes have been sold since that refunding.

# *SEC HEAD FINDS DEALERS HIT IN BALDWIN STOCK*

Washington, D. C., July 23.—(AP)—Chairman James M. Landis of the Securities and Exchange commission said today speculative trading in anticipated new shares of the Baldwin Locomotive company had impaired the capital of several Los Angeles, Chicago, and New York securities dealers.

He said two Los Angeles firms and one New York firm already had suspended but no losses to the public are expected. He mentioned no names. The commission, he said, had no power to act in the situation but had asked the investment bankers' conference to arrange clearing and other arrangements to prevent unnecessary bankruptcies.

He explained trading in stocks before they are issued involved a practice in the over-the-counter markets of depositing in escrow sums of money to cover fluctuations in the prices of the securities before they are issued. Such deposits may freeze the capital of a securities dealer and financially embarrass him even though his accounts are actually in excellent condition.

The Baldwin company is expected to issue new securities under a planned reorganization. The current trading is in promises to buy or sell the probable new securities when and if they are issued. If the stock is not issued the promises are canceled automatically.

# *ESTIMATE WHEAT CROP IS WORTH MOST IN DECADE*

Washington, D. C., July 23.—(AP)—The 1937 United States wheat crop, the Bureau of Agricultural Economics said today, will be the most valuable one in ten years.

Production, the bureau said, will probably total about 882,000,000 bushels, of which approximately 175,000,000 bushels will be available for export. This surplus, it said, will furnish about one-third of the combined wheat exports from surplus producing sections.

The United States, it continued, will thus be the world's largest exporter of wheat, resuming a position it has not held for several years. World supplies are expected to be small, and improved demand, it said, indicated that domestic prices were likely to average higher this year than last.

The agriculture department reported that farmers received a 12 per cent greater cash income from their products the first half of this year than in the corresponding 1936 period. It placed the total for the first six months of 1937 at $3,503,000,000, or $378,000,000 more than in the first half of last year.

# JAPAN REVALUES GOLD STOCK IN TERMS OF YEN

## Sets Up Big Fund to Control Exchange.

TOKIO, July 23.—[Special.]—Plans were made public today for the revaluation of the gold holdings of the Bank of Japan, the central bank of issue. The step will result in a paper profit of 800 million yen [$231,760,000], most of which will be used to set up a currency stabilization fund.

Japan went off the gold standard in December, 1931, but the central bank has continued to carry its gold reserves at the former yen parity. The old gold parity for the yen was 84.4 cents [in devalued dollars], but it is currently quoted in the exchange market at slightly less than 29 cents. The revaluation of the gold reserves will give effect to the depreciation that has already occurred in Japanese currency.

**Write Up 260 Per Cent.**

Government officials said today that the new gold valuation of the yen will be between 280 and 290 milligrams of gold. At the new figure the central bank's gold reserves, now carried at 500 million yen, will be written up to 1,300,000,000 yen, an increase of 260 per cent.

At the current rates of exchange the dollar value of the gold reserve would be $377,000,000. It was pointed out, however, that the new book value for gold established by the bank is 17 per cent below the American gold price of $35 an ounce. Under the revluation an ounce of gold would be worth approximately 100 yen, about $29 at the present rate of exchange. At the American gold price the present reserves of the bank are worth approximately $455,000,000.

**For Stabilization Fund.**

Officials said that 600 million yen of the book profit accruing from devaluation will be used to set up a stabilization fund for Japanese currency. The fund would operate in the same manner as the stabilization funds of the United States, Great Britain, and France.

The gold reserves of the colonial banks will also be revalued and part of the profit accruing therefrom will be absorbed into the Bank of Japan's reserves. The note issue limits of the banks, however, will be raised 40 per cent. The institutions affected are the Bank of Chosen [Korea] and the Bank of Taiwan [Formosa].

Japan has been making large gold shipments to the United States in recent months. Since March an estimated $105,000,000 of gold has cleared for the United States. Part of this gold, it is reported, has been converted into British pounds in the United States to be used for the purchase of Birtish materials. Additional shipments to the United States are expected.

**France Explains Action.**

PARIS, July 23.—[Special.]—Premier Chautemps said today that the revaluation of the Bank of France's gold at 43 milligrams to the franc was merely "the first step" toward fixing a new gold content for French currency.

The 43 milligram basis is the lower limit permitted in the devaluation act passed last Oct. 1. That limit was removed by the Chautemps government soon after it came into power.

The revaluation is not believed to indicate ultimate stabilization of the franc at that figure which would be about 22.96 to the dollar or about 4.35 cents each. The franc was quoted at the equivalent of 3.73 cents on the market here today.

**U. S. DOLLAR ADVANCES.**

American money rose in value yesterday in the foreign exchange market against the principal European currencies. Currencies of both Great Britain and Holland, which have been strong in recent transactions, declined in value on yesterday's transactions. The French franc weakened again as the official control fund relaxed the support which had checked the decline on the preceding day.

The pound sterling fell 1¼ cents to $4.97 in New York, the guilder lost a tenth of a cent to 55.20 cents, and the franc closed at 3.73½ cents, off .05 of a cent.

The decline in the pound and the guilder checked an advance that has been under way for several days. The transfer of French balances from New York to London as a result of fears of new United States taxes was credited with causing the upturn in the sterling value.

Gold in London rose 3½ pence an ounce to the equivalent of $34.805, the highest premium above the New York shipping parity of $34.77 yet recorded. No engagements of gold abroad for shipment to the United States were reported, but an import of $699,300 came from India and a shipment of $6,243,000 from Japan was received at San Francisco.

## *Court Considers Proposal to Reorganize Derby Gas*

A plan for reorganization of the Derby Gas and Electric corporation, Connecticut subsidiary of the Utilities Power and Light corporation, was taken under advisement yesterday by Judge William H. Holly in federal district court. The proposal provides among other things for an issue of $3,000,000 of new bonds, proceeds from the sale of which would go to the Utilities Power and Light corporation, Ltd., another subsidiary of the parent concern, in part payment of a $5,000,000 loan. The plan also provides that the parent concern invest $2,000,000 in Derby common stock.

# *Texas Corp. 6 Month Net Is 27 Million*

T. Rieber.

Many more large companies yesterday issued statements on earnings for periods ending in 1937, most of them showing considerable gains. Outstanding among these with the estimate of T. Rieber, chairman of the Texas corporation, that earnings for the six months ended June 30 amounted to about $27,000,000, or $2.48 a share.

This estimate, he explained, is based upon preliminary figures and is figured after all charges. A year ago Rieber estimated earnings for the first half of 1936 at $16,000,000, or $1.71 a share. The 1937 figure is an increase of about 70 per cent from that of the first six months of 1936.

**Baldwin Locomotive Loses.**

Baldwin Locomotive works and subsidiaries, including Midvale company, reported a net loss of $508,371 after all charges for the twelve months ended June 30. This compared with a net loss of $2,809,720 in the preceding twelve months.

Remington Arms company, Inc., reported earnings of approximately 9 cents a share on the common stock for the six months ended June 30. No comparison for the corresponding period of 1936 is available.

Westinghouse Air Brake company reported net profit of $1,351,947 before surtax for the June quarter. This was equal to 43 cents a share, and compared with $2,639,354—including $1,546,248 profit from the sale of stocks in a foreign company—in the preceding quarter, equal to 85 cents, and $837,060, or 27 cents a share, in the June quarter of last year. In the first half-year net profit of $3,991,301, or $1.28 a share, compared with $1,350,673, or 43 cents share, a year earlier.

**Simmons Earns More.**

Simmons company and subsidiaries, makers of mattresses and box springs, reported net income of $2,119,181, before surtax, or $1.85 a share on the capital stock, for the six months ended June 30, against $1,413,370, or $1.25 a share, in the first half of 1936.

Motor Products corporation had net profit of $751,405, or $1.92 a share on the common, after all charges including surtax, for the June quarter. This compared with $531,423, or $1.36 a share, in the June quarter of 1936.

Sloss-Sheffield Steel and Iron company reported net income of $571,987, or $3.79 a common share, for the six months ended June 30, before surtax on undistributed profits. No comparison is available for a year earlier.

**Kelsey-Hayes Profit Drops.**

Kelsey-Hayes Wheel company, maker of parts for the automotive industry, reported net income of $587,410, or $1.09 a share on the combined class A and B shares, for the June quarter. This compared with $622,278, or $1.17 a share, in the June, 1936, quarter.

Hamilton Watch company had net income of $283,256, or 60 cents a common share, in the June quarter, against $105,761, or 14 cents a share, in the June quarter of last year. In the twelve months ended June 30 the company had net income of $1,276,208, or $2.77 a common share, against $546,283, or 89 cents a common share, in the preceding twelve months.

Walter P. Paepcke, president of Container Corporation of America, reported substantial gains in the company's earnings. In the June quarter net profit totaled $751,877, or 96 cents a share, against $284,542, or 44 cents a share, in the June quarter of 1936. In the first half of the year the company earned $1,319,294, or $1.69 a share, against $451,845, or 69 cents a share, a year earlier.

# CHRYSLER VOTES $3.50 DIVIDEND; PROFITS LOWER

## Sales Show Upturn, but Costs Rise.

Directors of the Chrysler corporation yesterday decided to pay a dividend of $3.50 a share despite the fact that earnings had declined. The dividend equals the total paid previously this year and will exceed 15 million dollars. It is payable Sept. 10 to stockholders of record Aug. 10.

The company announced that net earnings for the first six months of 1936 were equal to $6.31 a share, compared with $6.83 in the first half of 1936. Net profit for the period amounts to $27,456,609 after depreciation, interest, taxes, and provision for undistributed profits tax, against $29,473,736 in the first six months of 1936.

**Quarter Profit Under 1936.**

For the quarter ended June 30, 1937, indicated net profit, based on a comparison of first quarter and six month results, was $16,542,306, equal to $3.80 a share on 4,352,232 shares, against $10,914,303, or $2.51 a share, in the preceding quarter, and $18,020,297, or $4.18 a share in the June quarter last year.

Current assets as of June 30 amounted to $151,100,855, including cash of $73,145,075 and marketable securities totaling $12,350,201, against current liabilities of $63,310,853. This compares with cash of $63,696,659, marketable securities of $14,604,488, current assets of $131,586,168, and current liabilities of $45,704,372 on June 30, 1936.

**Sales Total Higher.**

Sales during the first six months of the year amounted to $409,688,254, against $358,634,899 in the corresponding 1936 period. Sales included 629,706 passenger and commercial vehicles, compared with 578,407 vehicles sold in the 1936 half year.

Retail sales by distributors and dealers increased 12.8 per cent, the corporation said, based on available registration figures, while export shipments rose 7.5 per cent.

The company said that the period under review was one of rising costs of labor and materials and that production was interrupted for about five weeks as the result of labor difficulties.

**Income Account.**

Consolidated income account for the six months ended June 30, with comparisons, follow:

| | 1937. | 1936. |

**CHRYSLER STOCK RISES.**

San Francisco, Cal., July 23.—(AP)—Responding to a $3.50 dividend declaration, Chryselr Motors shares rose more than $1.50 above the New York closing price today to sell at $114 a share on the San Francisco Stock exchange.

# *COMMODITY ACT CHALLENGED IN SUPREME COURT*

Washington, D. C., July 23.—[Special.]—Constitutionality of the commodity exchange act of 1936 was challenged today in the United States Supreme court by James E. Bennett & Co., F. S. Lewis & Co., the Uhlmann Grain company, Richard Gambrill Jr., Edwin O. Myers, and John O. Fisher, members of the Chicago Board of Trade.

The plea contends the act, which regulates trading in futures contracts on commodity exchanges, is illegal as applied to transactions for future delivery of grain. The act has also been challenged in another case as it applies to butter, eggs, and potatoes.

"Provisions of the act," the petition said, "are far more drastic and all pervasive than those of the act of 1922—the grain futures act—in that future trading on commodity exchanges to more detail and onerous supervision and control, but also seek to regulate matters outside that field."

The petition names as respondents the Chicago Board of Trade, Secretary of Agriculture Wallace, Secretary Roper, and Attorney General Cummings.

## *Permit South Shore Line to Issue New Securities*

Washington, D. C., July 23.—[Special.]—The interstate commerce commission today authorized the Chicago, South Shore and South Bend railroad to issue $7,851,400 in preferred stocks, bonds, and notes, plus 122,000 shares of no par value common stock, in connection with its reorganization. The issues already had been approved by the commission and federal court as part of the reorganization plan.

**RADIO CORPORATION OF AMERICA**
**Dividend on First Preferred Stock**

Notice is hereby given that a dividend has been declared by the board of directors on the outstanding shares of $3.50 cumulative convertible first preferred stock of the corporation at the rate of 87½ cents per share for the period from July 1 to September 30, 1937 payable on October 1, 1937, to the holders of record of such stock at the close of business on September 8, 1937.

Such dividend will also be paid to holders to whom $3.50 cumulative convertible first preferred stock is issued after September 8 and prior to October 1, 1937, upon the conversion of "B" preferred stock of the corporation or upon the surrender of scrip certificates for fractional shares of $3.50 cumulative convertible first preferred stock. The stock transfer books will not be closed. Dividend checks will be mailed

GEORGE S. D. SOUSA, Treasurer.

## *New York Bonds.*

New York, July 23. — (AP) — United States government and foreign loans moved higher in the bond market today but the remainder of the list was uneven.

Small banks and trust companys were said to be in the market again actively for federal issues. Treasury 4¼s of 1952-'47 gained 8-32 at 116 26-32, a similar markup was recorded for Home Owners' Loans 3s of 1952-'44, and Federal Farm Mortgage 3¼s of 1964-'44 added ⅛ point.

In the foreign section Japanese obligations worked forward briskly on dispatches reporting a fading of the war with China. The 6½s added 1⅞ at 96⅞ and the 5½s, at 82, were 1½ higher. Cuban, German, and Polish bonds gained moderately.

Domestic carrier issues dragged, due to continued pessimism over the outcome of wage negotiations and a less than seasonal increase in the week's carloadings. New York Transit obligations were again active and higher.

## *Chicago Stocks.*

Chicago stocks were irregular yesterday in heavier trading. Middle West developed the largest volume, 1,400 shares, and rose ⅛ point. Central and South West Utilities common gained ⅝. General Household was unchanged. Armour common dipped ¼ and Cities Service advanced ⅛. Of 104 issues traded 40 advanced, 33 declined, and 31 remained unchanged. Volume was 27,000 shares.

—

## *Bank Stocks.*

Leading Chicago bank stocks here were unchanged to slightly lower yesterday. Continental Illinois dipped $1 a share. First National was unchanged. Harris Trust lost $2, American National $4 and Chicago Title and Trust $1.

# WESTINGHOUSE STOCK SPLITUP PLAN REPORTED

## Wider Share Distribution Believed Object.

Directors of the Westinghouse Electric and Manufacturing company may consider a splitup of common stock on a five for one basis at their next meeting, July 28, according to reports circulated yesterday. Whether definite action will be taken at that time was not indicated.

Should the five for one split be effected the total amount of common stock outstanding would amount to 12,910,775 shares, probably of $10 par value. Since the preferred stock has equal voting power with common, such a move would necessitate the amendment of stock provisions to assure maintenance of the present voting ratio.

Westinghouse common shares are now among the highest priced on the New York stock exchange. The stock has ranged from a low of $150.25 to a high of $167.62 this year. It closed yesterday at $155.

**For Wider Distribution.**

One of the major objects of the reported splitup, it is said, is to bring the price of the stock down to a level that would make it more attractive to the average investor and thus provide wider distribution. Capitalization of the company consists of 79,974 shares of $50 par cumulative preferred stock and 2,582,155 shares of $50 par common. There is no funded debt.

The interstate commerce commission authorized the Chicago, South Shore and South Bend railroad to issue new securities in effecting a reorganization which has been approved in the federal court and by principal security holders.

The new security consists of $1,341,000 of 3 per cent 25 year first mortgage bonds, $212,800 5 per cent of 5 year promissory notes, $4,350,000 of $5 preferred stock, $1,947,600 of $6.50 second preferred stock, and 122,000 shares of no par common stock.

**Stock Issue Filed.**

The Securities and Exchange commission announced yesterday that Furniture Shops of America, Inc., of Grand Rapids, Mich., has filed a registration statement covering an issue of 1,777,870 shares of $1 par value common stock, proceeds from which will be used to repay loans extended by the Reconstruction Finance corporation and to increase working capital. Eugene J. Hynes & Co. will underwrite the offering.

New financing in the week ended Thursday declined from the preceding week, a compilation showed yesterday. Security offerings totalled $70,017,950, compared with $74,948,635 in the preceding week and $51,685,270 in the corresponding period of 1936.

## CENTRAL ILLINOIS SECURITIES CORP. REPORTS ASSETS

In issuing the first semi-annual statement of the Illinois Central Securities corporation, Walter L. Vincent, president, yesterday announced that the asset value per preference share on June 30 amounted to $16.94, compared with $18.64 a share on the preference on Dec. 31, 1936.

"The complete portfolio," said Vincent, "shows a market depreciation of $135,550 on June 30, 1937. However, on July 14, 1937, market conditions were such that the portfolio reflected an appreciation of $82,159."

He said that during the period under review bank stock liabilities were reduced by $759,900 through payment to the receiver of the Central Republic Trust company on assessed shares. Dividends paid to date notes payable on June 30 amounted to $1,500,000, a reduction of $600,000 from the $2,100,000 on Dec. 31, 1936. The company showed net income of $41,916 for the six months ended June 30, equal to 18 cents a share on the preference stock.

Quarterly income Shares, Inc., reported assets of $42,628,208 as of July 15, the close of the company's quarter, a decrease of $1,461,800 from the quarter ended April 15.

American Business Shares, Inc., reported net asset value of $1.12 a share as of June 30, compared with $1.25 a share on Dec. 31, 1936.

## ILLINOIS KEEPS LEAD AS GROWER OF SOY BEANS

Springfield, Ill., July 23.—(AP)—Illinois, with a third of the nation's total acreage, kept the leadership among the soy bean producing states this year, Agricultural Statistician A. J. Surratt reported today. Threshing of beans for commercial use dropped this year in Illinois as more than half the crop will be needed for hay.

Surratt estimated the total 1937 soy bean acreage in Illinois at 2,008,000, compared with 1,793,000 acres in 1936 and 2,270,000 in 1935. For the nation, 6,049,000 acres have been planted to soy beans, an increase from 5,635,000 last year.

"The loss of hay acreage will force the shifting of an increased proportion of Illinois beans to hay," Surratt said. "Present indications point to 904,000 acres or 45 per cent of the 2,008,000 acres planted this season being saved for beans. This compares with 1,076,000 acres or 60 per cent of the 1936 total acreage harvested for beans.

"The crop is making good growth with condition above average."

## Bend Group Intervenes in Rock Island Rail Plan

Washington, D. C., July 23.—[Special.]—James G. Blaine, Vincent Cullen, and James R. Trowbridge were permitted today by the interstate commerce commission to intervene in opposition to an application by the trustees of the Chicago, Rock Island, and Pacific railway company to issue $28,172,650 of ten year secured 3½ per cent certificates of indebtedness.

# Nation's Star Golfers Begin $10,000 Test—Girl Knocked from Bicycle and Killed by Fast Train in Glencoe

## At Chicago Open Golf Tournament

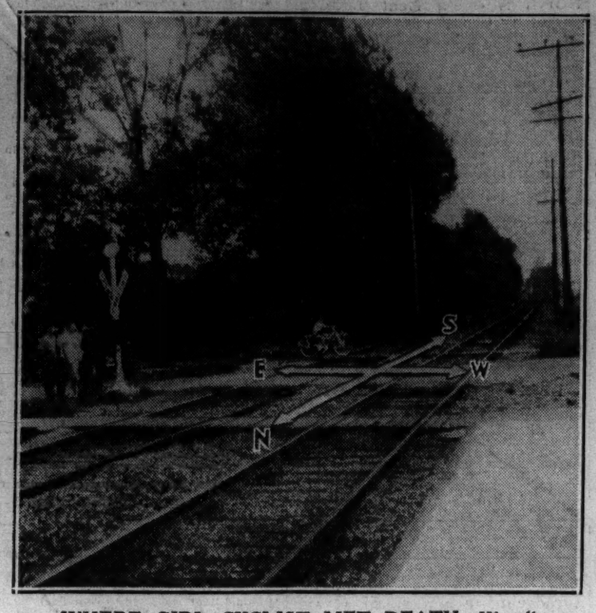
(Story on page 11.)

[Associated Press Photo.]

[TRIBUNE Photos.]

Bill Mehlhorn (left) of Louisville, who shot 70 to lead first round of $10,000 Chicago open golf tournament at Medinah Country club yesterday, and Ky Laffoon of Northmoor club, Chicago, who tied for second place with 72.

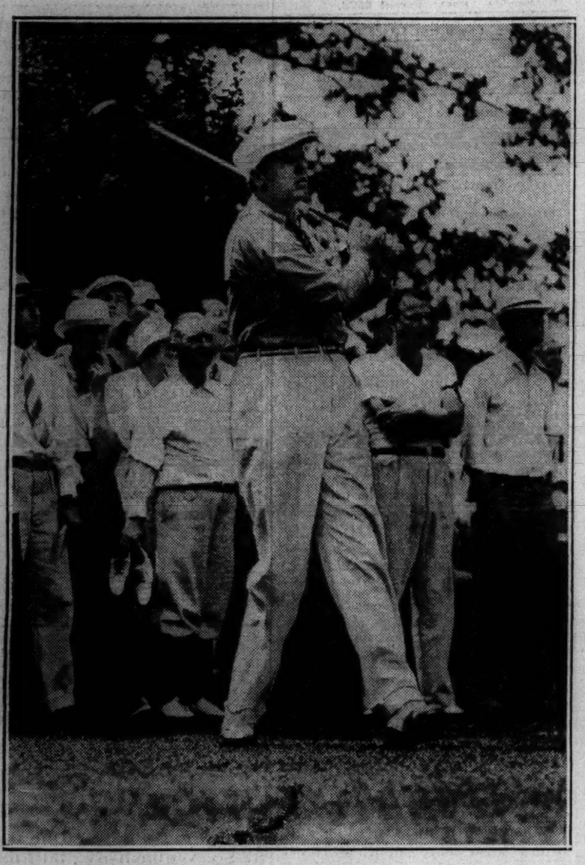
**TRAIN VICTIM**—Frances Goodrich, 12, killed in Glencoe yesterday, shown with her pet pony. (Story on page 5.)



**WHERE GIRL CYCLIST MET DEATH**—Woodlawn avenue crossing of North Shore line in Glencoe which has bell and flash signals but no gates. Boy with bicycle is showing where Frances Goodrich was killed by northbound train. (Story on page 5.)

**JAILED**—Mrs. Marie Colby gets five days in jail and loses license for reckless auto driving. (Story on page 5.)

**GIGOLO GANG SEIZED IN GEM ROBBERIES**—Four held in New York for series of hotel robberies. Standing: Frederick Mangerie (left) and Jack Saunders. Seated: Mutray Cohen (left) and Meyer Lembersky.
[Associated Press Wirephoto.] (Story on page 5.)



After shooting record 281 to win national open championship at Detroit, Ralph Guldahl of Chicago set out yesterday to beat brilliant field in Chicago open. Guldahl had a 76, but his ability as strong finisher still commanded respect. [TRIBUNE Photo.]

A camera study of four women who were in the gallery at the Medinah club as they watched their favorite players in action. The attendance, large yesterday, is expected to soar today and tomorrow for the concluding rounds. [TRIBUNE Photo.]

Sammy Snead of White Sulphur Springs, W. Va., who was outstanding in winter tournament circuit, talks things over with Helen Hicks, former women's champion who is now employed by golf manufacturer. Snead shot a 73. [Associated Press Photo.]

**NEW PRESIDENT FOR INTERNATIONAL LIONS**—Edwin R. Kingsley of Parkersburg, W. Va., the retiring president (left), congratulating the new president, Frank V. Birch of Milwaukee, at close of convention.
[TRIBUNE Photo.] (Story on page 10.)

**BUILDS CABIN CRUISER IN OAK PARK**—Partially completed boat which Andrew Schoch had delivered to yard of his home at 731 Marion street in suburb. (Story on page 15.)

## First Steps in Syphilis Treatment

Chicago today embarks on a poll to ascertain how many persons are willing to have blood tests, free and secret, in campaign to bring syphilis under control. These pictures show the initial steps in discovering the disease by means of blood tests and microscopic examination. They are approved by the United States public health service, which is co-operating in the Chicago survey. No. 1 picture shows the withdrawal of blood for a test. (Story on page 1.)

**SWEETHEART WITH CONDEMNED SLAYER**—Robert Kenyon, 23, in court at Alton, Mo., with Opal Welch, 17, when he was found guilty of killing Dr. J. C. B. Davis and sentenced to pay with his life. (Story on page 4.)

[Associated Press Wirephoto.]

**FILM STAR SHOVED BY POLICEMAN**—Barbara Stanwyck rubbing her injured arm at Hollywood theater after policeman thought she was autograph seeker. Her rescuer-escort, Robert Taylor, is at right, partly hidden.
[Associated Press Wirephoto.] (Story on page 7.)

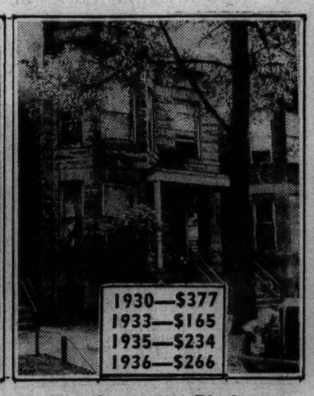
## Increase in Real Estate Tax Bills

(Story on page 5.)

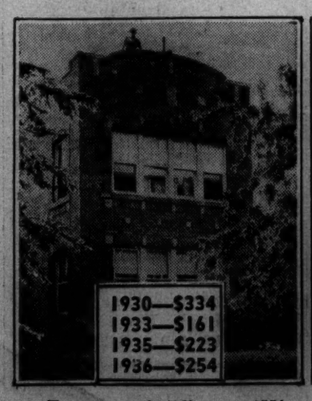
Here are representative homes and two flat buildings in various parts of Chicago, with the tax figures for the last four years shown.

House situated at 7340 Crandon avenue.

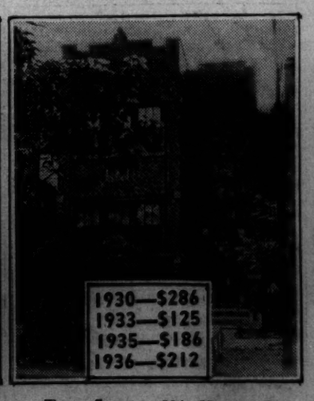
Bungalow at 1132 North Le Claire avenue.



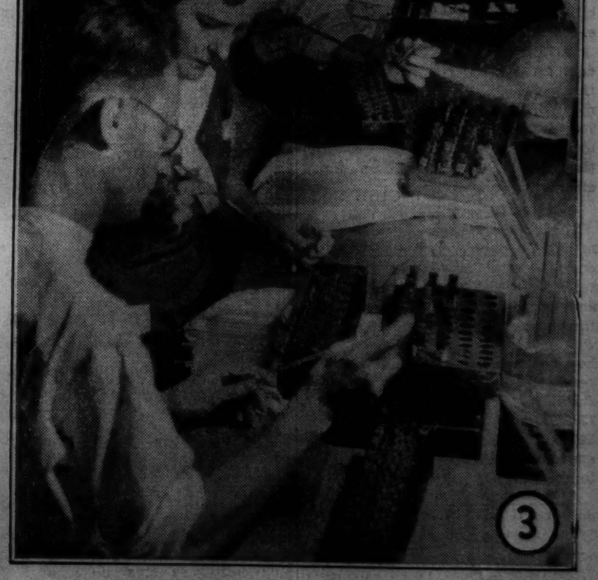
Two flat at 6614 Rhodes avenue, colored district.



Two story building at 6554 North Campbell avenue.



Two flat at 634 North St. Louis avenue. [TRIBUNE Photos.]



Blood tests will not show syphilis until two or three weeks after infection, but a little serum from the first sore, examined under this special microscope, may disclose the germ. If it does the patient has a much greater chance of cure.

Accurate blood tests require trained laboratory tecnnicians and adequate equipment. In this laboratory samples are numbered and the results carefully checked for accuracy. Dr. Thomas Parran, surgeon general of the public health service, reports that more than a million cases of syphilis report for treatment for the first time each year. [Associated Press Photos.]
